Approach to Reporting

Our Integrated Report for FY 2023-24 provides relevant information to our shareholders and other stakeholders about the performance, governance, material risks and opportunities, strategy and future prospects of Deepak Nitrite Limited.

Reporting period and boundary

The report, published annually, provides material information relating to the Company's strategy and business model, operating context, material risks, stakeholder interests, performance, prospects and governance for the period between April 1, 2023 and March 31, 2024. The reporting boundary includes all offices and facilities.

Financial and non-financial reporting

The Report extends beyond financial reporting and includes non-financial performance, opportunities, risks and outcomes attributable to or associated with our key stakeholders, which have a significant influence on our ability to create value.

Approach to materiality

The Report focusses on information that is material to our business. It provides a concise overview of the Company's performance, prospects and ability to provide sustainable value for all its stakeholders. The legitimate interests of all stakeholders have been considered and all material information has been included in this Report.

Frameworks, guidelines and standards

This Report aligns with the principles and guidelines of the

- International <IR> framework by IFRS Foundation formerly known as International Integrated Reporting Council (IIRC)
- United Nations Sustainable Development Goals (UN-SDGs)
- The Companies Act, 2013 (and the rules made thereunder)
- Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015
- Secretarial Standards issued by The Institute of Company Secretaries of India
- Indian Accounting Standards

Our capitals

All organisations depend on various forms of capital for their value creation. Our ability to create long-term value is interlinked and fundamentally dependent on various forms of capitals available to us (inputs), how we use them (value-accretive activities), our impact on them and the value we deliver (outputs and outcomes).

Sustainability/ESG indices participation

We are proud to have our efforts in sustainable development recognised by industry-leading rating and ranking agencies like EcoVadis Sustainability Assessment. Our Dahej Facility scored a 100% score in the 'Together for Sustainability' (TfS) assessment at its maiden attempt previous year and our Hyderabad facility has scored 95% in TfS assessment at its maiden attempt during the year. This reaffirms Deepak Group's greater commitment towards sustainability.

Forward-looking statements

Certain statements in this document constitute 'forward-looking statements', which involve known and unknown risks and opportunities, other uncertainties and important factors that could turn out to be materially different following the publication of actual results. These forward-looking statements speak only as of the date of this document. The Company undertakes no obligation to update publicly, or release any revisions, to these forward-looking statements, to reflect events or circumstances after the date of this document, or to reflect the occurrence of anticipated events.

Making the Right Moves

For over 50 years, Deepak Nitrite has navigated the complexities of the dynamic and ever-evolving chemical industry, emerging as a formidable player with an unwavering commitment to innovation, efficiency and sustainability. Our ability to make the right moves at the right times has been the cornerstone of our success.

Over the past years, we've demonstrated resilience and adaptability, ensuring a steady supply of products to our customers and improving our market share in many cases. We've prioritised our most valued relationships, leveraging our strong brand and market position. This has enabled us to achieve growth in sales volumes, even in a challenging environment. We've seized debottlenecking opportunities and implemented automated operations, leading to record production levels for some of our products and enhanced efficiencies.

Yet, our journey is far from over.

With our sights set on a stronger and prosperous future, we continue to scale and advance our strategic endeavours. We are laying building blocks for the future.

As India's economy continues to flourish, presenting ample headroom for the chemical industry, we are eager to contribute to the nation's emergence as a global chemical player. We are taking bold and ambitious steps to realise our vision and ensure sustainable growth.

Our ongoing projects are progressing well and are on track for commissioning as planned. Additionally, our focus on enhancing process improvement and operational excellence remains undeterred. Our goal is to sustain leadership in key products and processes, continuously innovating and expanding to generate higher value for all stakeholders.

DEEPAK GROUP AT A GLANCE

Pioneering Innovation and Excellence for Over Five Decades

Deepak Group led by its flagship, Deepak Nitrite Limited (DNL) stands as a leading manufacturer of Advanced Intermediates and Phenolic Chemicals in India. Renowned for our commitment to innovation and excellence, we have earned the reputation of one of the most dependable organisations with a diverse portfolio catering to numerous industries and applications.

Leveraging our expertise, technological prowess and operational excellence, we are well-placed to seize the abundant opportunities and consistently deliver value for our stakeholders. We are recognised globally as a 'Responsible Manufacturer,' and 'Supplier of Choice' by our esteemed customers.

We have established a strong global customer base across countries and continents. The driving force behind this success is our portfolio of high-quality

products which includes Sodium Nitrite, Phenol, Acetone, IPA, Xylidines, Oximes, Toluidines, Cumedines and many more. These products are manufactured at eight state-of-the-art facilities at five strategic locations, ensuring precision and superior quality. Currently, we are catering to diverse industries such as pharma, dyes and pigments, agrochemicals, laminates, plywood, paints and beyond.

BUILDING A SUSTAINABLE FUTURE

We envision a sustainable progression and have devoted ourselves to consistent innovation while adhering to environmental norms for a promising future with holistic development. Our world-class manufacturing facilities comply with strict emission norms. We have made proactive investments toward energy conservation measures across our facilities. Together these measures make up the primary factors backing our growing present.

Message from the Chairman & Managing Director

Dear Stakeholders,

We are delighted to present our 53rd Annual Report for the Financial Year 2023-24, showcasing Deepak Nitrite's consistent performance in a challenging operating environment, driven by our manufacturing prowess, integrated infrastructure, R&D expertise and nimble operations. Our focus remains on making strategic investments and building a resilient business model through strong integration.

Over the next five years, we plan to establish a world-class integrated complex, to drive domestic growth, meet global demands and position Deepak Group as a leading player in the chemical industry.

Deepak C. Mehta
Chairman & Managing Director

FY 2023-24 was a pivotal period for Deepak Group, with key milestones achieved such as MoUs with the Government of Gujarat, binding Term Sheet with Petronet LNG and our entry into fluorination. To solidify our position as a leader in India's burgeoning market, we are strategically investing in both forward and backward integration projects. This means developing cutting-edge facilities, introducing new products and optimising our processes. Through this comprehensive approach, we will fuel our expansion and establish ourselves as a truly distinct player in the high potential Indian markets. Over the next five years, we plan to establish a world-class integrated complex, to drive domestic growth, meet global demands and position Deepak Group as a leading player in the chemical industry.

GLOBAL ECONOMIC LANDSCAPE AND INDIA'S RESILIENCE

Looking ahead to 2025, the global economic outlook is strengthening as uncertainties diminish, prompting major Western central banks to consider interest rate cuts. This move is poised to enhance capital flows to India, stimulating private investment and exports. Although inflation concerns may persist into the latter part of the next fiscal year, the Asia-Pacific region remains a stronghold, driving 60% of global growth. Factors such as robust domestic consumption in ASEAN nations, significant public investments in China and India and flourishing tourism in Pacific Island nations continue to bolster the region's resilience despite geo-political challenges.

INDIA'S ECONOMIC GROWTH TRAJECTORY

India has demonstrated adeptness in navigating recent economic disruptions, solidifying its position as one of the world's fastest-growing major economies. In FY 2023-24, GDP surged to 8.2%, exceeding the initial forecasts. The IMF has raised India's growth projections

stand at 6.8% for FY 2024-25 and 6.5% for FY 2025-26, up from earlier estimates. With inflation hovering near the target of 4% and expected to decline further, consumer spending is anticipated to drive economic momentum. India's proactive economic reforms, substantial public investments and a robust consumption outlook underscore its promising growth trajectory in the coming years, supported by enhanced global engagements and demographic dividends.

CHEMICAL INDUSTRY OUTLOOK

The global chemical industry surged to USD 6.0 Trillion in 2023, despite several challenges. It is poised for robust demand driven by products supporting the energy transition and bolstered by Government policies. The sector's evolution towards sustainable solutions aligns with global environmental goals.

INDIA'S ASCENDANCE

India's chemical sector is pivotal to the economy, contributing approximately 7% to GDP and ranking as the sixth-largest producer globally. It is projected to reach USD 304 Billion by 2025 at a CAGR of 9.3%, benefiting from increasing domestic consumption and demand across diverse industries. Government initiatives like 'Aatmanirbhar Bharat' and 'Make in India' aim to reduce import dependence and bolster domestic manufacturing, further strengthening the sector's growth trajectory.

Despite challenges such as volatile raw material costs and infrastructure limitations, India's chemical industry is positioned for significant expansion through capacity enhancements, investments in R&D and export opportunities. Favourable Government policies, competitive labour costs and a strategic focus on sustainability and innovation, position India as a key player in the global chemical landscape. On

the demand side, several factors are propelling growth like surge in domestic consumption, growing appetite for sustainable products and continuous advancements in technology.

NAVIGATING CHALLENGES IN FY 2023-24: EMBRACING MARKET SHIFTS FOR SUSTAINABLE GROWTH

Entering FY 2023-24, we encountered a complex business environment marked by challenges like Chinese dumping, destocking and geopolitical tensions, alongside economic slowdown in the EU zone and high interest rates globally. Despite these hurdles, we effectively managed our supply chain, ensuring seamless service for our clients.

Amidst evolving customer demands and adjustments by Chinese suppliers, we optimised our operations, achieving record production levels and enhancing efficiency across key product lines. Leveraging strong partnerships and brand equity, we stimulated growth through increased volumes and substantial cost savings in yield and energy.

Our consolidated efforts yielded robust results, translating to volume growth, enhanced plant efficiencies and successful commissioning of our fluorination plant at Dahej. Expansion initiatives, such as the Research and Technology Centre and strategic partnerships, further strengthened our business proposition.

Looking ahead, India's chemical sector offers immense growth potential. Our focus on operational excellence, byproduct valorisation and strategic investments positions us well to capitalise on emerging opportunities in India and global markets. With a vision for integrated operations and foray in high-value speciality products, we are poised to lead amidst industry challenges, driving ambitious growth strategies in the years ahead.

In the next few years, we will add new verticals in material science, particularly speciality polymers and their compounds. This expansion will enable us to serve new high-value segments in growth sectors such as automobiles, electronics, semiconductors, healthcare, etc.”

EXECUTING PROJECTS TO IMPROVE RESILIENCE

Deepak Nitrite is pursuing strategies to integrate backward and start from basic building blocks on one side and to integrate forward to come close to selling performance products. This would not only enhance profit margins but would also make our product value chains more resilient. In particular, through our ongoing capex programmes, we are creating the following:

Leadership in Nitration: Our projects for backward integration to make our own Nitric Acid for all our nitration products, our own benzo-tri-fluoride for our specialities, will add sustainable resilience to these businesses. Additionally, this is also expected to reduce carbon emission by more than 75% in logistics movements of these inputs.

High Value Solvents: Similarly, forward integration to make Methyl Isobutyl Ketone (MIBK) and other solvents from our product, Acetone will further add value and increase our bouquet of Solvents for the pharmaceutical and agrochemical industries.

MAKING RIGHT MOVES : OUR FIVE-YEAR STRATEGIC VISION

Deepak Nitrite is charting a transformative path by establishing an integrated facility towards manufacturing building blocks, intermediates, speciality chemicals alongside high-performance polymers, advanced materials and effect chemicals. These strategic initiatives underscore our commitment to the India-first narrative by offering innovative and high quality products in a sustainable manner.

Our vision encompasses building global scale plants to serve the rapidly-growing domestic market while leveraging access to building blocks and adopting most optimal processes and technologies. We also aim to create a competitive speciality business for both domestic market and select export markets, by integrating knowledge-intensive capabilities with our robust research and development competencies. This dual focus allows us to harness large volumes and address the demand-supply gap for intermediates in India while striving to become strategic partner for global and domestic customers.

To progress on this growth path, Deepak Chem Tech has signed two MoUs with the Gujarat Government, totalling ~₹ 14,000 Crores investment outlay, including a previous commitment. During FY2024, we entered into a binding Term Sheet with Petronet LNG for supply of critical RMs over a long-term period from their proposed facility at Dahej, which will help us mitigate key risk for future operations.

A dedicated project execution team has been established and preparations for a special project subsidiary are underway. In the next few years, we will add new verticals in material science, particularly speciality polymers and their compounds. This expansion will enable us to serve new high-value segments in growth sectors such as automobiles, electronics, semiconductors, healthcare, etc.

New polymers that we plan to manufacture are:

Polycarbonate (PC) resin: This is one of the fastest-growing engineering polymers with end use in electric vehicles, electronics, semi-conductor, mobility, medical devices, defence equipment - to name a few.

India is 100% import-dependent for its PC requirements and we are targeting to become the first domestic player to reduce India's import dependence.

Methyl methacrylate (MMA) along with its Polymer Polymethyl methacrylate (PMMA): In addition to manufacturing of PMMA (which finds applications in industries such as electronic components, automotive, healthcare, furniture etc.), MMA also finds major application in acrylates-based paints & coatings. Here again, India is 100% import-dependent and we are committed to improve self-sufficiency by setting up country's first MMA/PMMA facility.

Both the above projects integrate well with our target of doubling our Phenol-Acetone capacity in the near future. As a part of this growth agenda, we are also planning to set up India's first Bisphenol-A (BPA) plant, which is key intermediate for producing PC as well as Epoxy Resins.

As we continue to progress on these growth projects, to take our vision forward, we are building new state-of-the-art research and development (R&D) facility at Savli, Vadodara, slated for completion within this financial year itself.

We have already commenced production of our fluorination asset in Dahej, enhancing our backward integration for crucial agrochemicals and opening up of various newer avenues of manufacturing opportunities. Various developments such as these will support the domestic market, highlighting the importance of meeting local needs while selectively expanding internationally.

Additionally, DNL has increased its stake in Deepak Oman Industries LLC (SFZ) (DOIL) to 51%, making it a subsidiary. This strategic investment aligns with our goal of strengthening our market position and expanding our operational capabilities.

Over the next five years, we anticipate a blend of opportunities; some will enhance our topline, while others will bolster our resilience by improving competitiveness and value addition. Deepak plans to cover the entire spectrum of petrochemicals, engineering polymers and speciality and performance products, often holding the first-mover advantage in the Indian market. Our targeted investments in downstream of phenol/acetone, as well as focus on operational excellence, integration and value addition to produce speciality chemicals are strategically positioning us to create sustainable competitive advantage.

FORGING A PROMISING FUTURE

Our ongoing forward and backward integration projects are central to our vision, strengthening our position across the product value chain. By setting up global-scale plants for India's flourishing market, we aim to meet the rising demand for intermediates while becoming a preferred partner for global clients seeking reliable supply of quality products in specialised chemistries.

India stands at an inflection point, presenting immense opportunities amid turbulent times in the chemical sector. Recognising this, we have meticulously crafted value chains to ensure sustained growth in revenue, profitability and resilience against international challenges. Our strategic investments over the next 4 to 5 years will expand our capabilities, including ventures into material science with a focus on speciality products and compounds.

Despite challenges, we are steadfast in growing our market share and enhancing our competitive edge. Our commitment to broadening our product offerings, fostering client relationships and driving innovation underscores our readiness to seize opportunities both domestically and globally.

We have approved an ESOP plan to reward and retain key talent, aligning their efforts with the Company's long-term success.

With a robust financial foundation and a clear vision for the future, Deepak Group is poised to lead the chemical industry by delivering superior value for all the stakeholders and pioneering advancements that define the next era of growth and excellence.

VOTE OF THANKS

I sincerely thank all our stakeholders, including shareholders and investors, for their unwavering support. The dedication and hard work of our employees have been vital in achieving our ambitious goals and realising our vision. The invaluable guidance of our esteemed Board members has been a source of wisdom, steering us through every challenge and opportunity. Thanks to the collective efforts of our entire team, Deepak Nitrite and Deepak Phenolics Limited have consistently delivered exceptional value on a global scale.

Looking to the future, we are optimistic about the numerous opportunities that lie ahead. Our commitment to growth is matched by our determination to stay agile, allowing us to adapt swiftly to the constantly changing landscape of our industry. This adaptability ensures that we can continue to innovate, excel and lead in our sector.

In conclusion, I extend my deepest appreciation to everyone who has been part of our Company's incredible journey. Your support has been instrumental in our success and we are honoured to have you on board. Moving forward, we are committed to pursuing sustainable growth and creating enduring value, guided by a shared vision of excellence and progress. Thank you for being an integral part of our narrative.

Best Regards,

CEO's Communique

Dear Stakeholders,

Deepak Nitrite Limited ('DNL') delivered an encouraging performance in FY 2023-24, overcoming challenges amidst a febrile macro-economic environment. Aggressive price competition from China, demand uncertainty in agrochemicals from Europe and logistic challenges from the critical Red Sea shipping route presented short and medium term challenges. However, they were dealt with in a mature and nuanced manner, ensuring that our market share for intermediates and wallet share for speciality chemicals were determinants for success.

For our esteemed Shareholders, we have meticulously crafted a strategic roadmap, firmly anchored in our core principles and values. This roadmap serves as our guiding compass, ensuring responsible and sustainable growth, while striking a harmonious balance between resource deployment and robust returns on investment.

MAULIK MEHTA

Executive Director & CEO

Ongoing efforts to improve asset utilisation and efficiency improvements resulted in record production and cost saving. This, coupled with innovative improvements to key production processes and new product development in partnership with customer engagement reinforces our investment thesis. With a commitment to innovation and strategic investments, we are well-positioned for sustained success. This unwavering strategy ensures our resilience and profitability in an ever-evolving economic landscape.

CHARTING OUR PATH: A REFLECTION ON PURPOSE AND PROGRESS

Amidst the dynamic flux of the global economy, where external factors influence internal responses, our adept teams have not just navigated uncertainties but proactively reinforced our fundamental strengths, guided by the insightful perspectives of our valued stakeholders. Acknowledging the substantial investments – financial, temporal and in trust – made by each stakeholder, we are steadfast in showcasing their significance by providing compelling reasons to place trust in the ethos of ‘Depend on Deepak’.

Our focus extends beyond the confines of profit margins; it encompasses the holistic well-being of our employees and the communities in which we operate. Rooted in this ethos are four fundamental pillars, referenced frequently across this annual report:

For our esteemed Shareholders, we have meticulously crafted a strategic roadmap, firmly anchored in our core principles and values. This roadmap serves as our guiding compass, ensuring responsible and sustainable growth, while striking a harmonious balance between resource deployment and robust returns on investment. Our focus

remains unwaveringly fixed on cultivating sustainable, high-quality growth, always mindful of future potential and the enduring strategies that will drive our success.

In our interactions with Customers, responsiveness and the leveraging of our deep-seated process expertise are paramount priorities. We aspire to not only meet but exceed expectations, striving to become the preferred partner for our customers. Our commitment to supplying complex chemicals manufactured through safe and sustainable practices is unwavering and we are resolute in aligning our operations seamlessly with environmental, social and governance (ESG) principles.

Within the intricate tapestry of our organisation, our People serve as the lifeblood that propels us forward. Our Human Resources practices are deliberately designed to foster agile and adaptable leaders, equipped with the tools and principles to build teams characterised by action and integrity. We place a premium on proactive engagement and we champion a culture that values ethical decision-making over entrenched hierarchical structures.

Lastly, in our engagement with the broader Community, we aspire to be agents of positive change. Beyond merely existing within the communities we serve, we endeavour to make a tangible and lasting impact. Whether through philanthropic initiatives, environmental stewardship, or community outreach programmes, our goal is to contribute meaningfully to the betterment of society, ensuring that our presence leaves a lasting legacy of progress and prosperity.

As we reflect on our achievements and aspirations outlined in this annual report,

we celebrate not only the milestones we have reached but also the enduring relationships we have cultivated and the transformative impact we continue to make. With resilience, purpose and an unwavering commitment to excellence, we stand poised to navigate the ever-evolving landscape with confidence and determination.

STRATEGIC GAINS AND FINANCIAL RESILIENCE IN FY 2023-24

In its consolidated performance for the FY 2023-24, Deepak exhibited resilience, driven by proactive initiatives to debottleneck plants and drive process efficiencies enabling volumetric expansion which was accompanied by significant achievements in specific product categories. This resilience translated into consolidated annual revenues of ₹ 7,682 Crores, underscoring Deepak's prowess across diverse business realms. Customer-centricity played a pivotal role, as our empowered teams were able to maintain or increase wallet share on strategically important relationships despite multiple headwinds across the macro landscape.

Leading this resilient performance was the Phenolics segment, showcasing robust gains and sustained volume growth attributed to optimal plant utilisation and operational efficiencies. Additional efforts to debottleneck existing facilities further accelerated volume amplification, significantly contributing to our overall momentum. Despite challenging market conditions, our segment's resilient revenue performance provided further reinforcement, highlighting Deepak's adaptability amidst market fluctuations.

The FY 2023-24 saw a notable 13% year-on-year surge in production volumes, emphasising Deepak's ability to expand market presence despite a moderate

environment marked by reduced sales prices. The continued stellar performance of the Phenolics segment, driven by enhanced operational efficiency and debottlenecking initiatives, propelled sustained volume expansion.

On the profitability front, Deepak reported an EBITDA of ₹ 1,199 Crores in FY 2023-24, reflecting a 10% decline attributed to prevailing market dynamics which have compressed product realisations. Notably, this figure excludes an exceptional insurance claim of ₹ 80 Crores received during the year. Deepak's Profit After Tax (PAT) for FY 2023-24 stood at ₹ 811 Crores, inclusive of the insurance claim, underscoring Deepak's commitment to value creation despite challenges. Elevated plant utilisation and streamlined cost structures further bolstered momentum, particularly in select value-added product segments experiencing stable demand and favourable realisation trends.

Amidst challenging macroeconomic conditions, Deepak's teams delivered commendable results, symbolising their resilience and adaptability. Recognising this resilient performance, the Board has recommended a dividend of ₹ 7.50 per equity share for the FY 2023-24, representing 375% on a face value of ₹ 2 each, reaffirming confidence in Deepak's

leadership position and unwavering dedication to shareholder prosperity.

NAVIGATING GROWTH: DEEPAK GROUP'S JOURNEY IN FY 2023-24

In FY 2023-24, Deepak Group witnessed numerous growth initiatives coming to fruition, marking significant milestones across various sectors. These developments underscore the Company's commitment to enhancing its operational capabilities, strengthening market position and fostering innovation. From commissioning new production assets to strategic acquisitions and collaborations, Deepak Group remains steadfast in its pursuit of sustainable growth and value creation.

- **Investment in Subsidiaries:** Deepak's subsidiary, Deepak Chem Tech Limited (DCTL), is actively reinforcing its workforce across project management, procurement and support domains. A substantial investment of around ₹ 540 Crores in DCTL underscores Deepak's commitment to its subsidiary's growth. Moreover, the Company has increased its equity shareholding in Deepak Oman Industries LLC (SFZ) (DOIL) to 51%, making it a subsidiary thereby aligning with the Company's strategy to strengthen market position and operational capabilities.

- **Fluorination Asset Commissioning:**

Deepak successfully commissioned its fluorination asset in Dahej during FY 2023-24. This addition strengthens the Company's backward integration for essential agrochemicals, bolstering its supply chain resilience. Moreover, it enhances Deepak's technical competency, enabling participation in contract manufacturing opportunities. Emphasising local market needs, Deepak prioritises domestic supply before expanding internationally.

- **Strategic Partnerships and Agreements:**

Deepak signed significant agreements with the Gujarat Government, totalling to ₹ 14,000 Crores, reinforcing its growth trajectory. These partnerships are instrumental in expanding operations and consolidating market presence. Furthermore, execution of binding Term Sheet with Petronet LNG during FY 2023-24 for supply of Raw Materials from their proposed facility at Dahej mitigates long term project risks and ensures steady supply.

- **Employee Incentives:** Shareholders approved an ESOP plan to reward high-performing employees and retain key talent, aligning their efforts with the Company's long-term success. This initiative underscores Deepak's commitment to fostering a motivated and engaged workforce.

Deepak Nitrite stands firm in its dedication to a sustainable future, implementing an array of strategies to diminish carbon and water footprints while ingeniously repurposing by-products into valuable resources.

EMBRACING SUSTAINABILITY: DEEPAK NITRITE'S GREEN COMMITMENT

Deepak Nitrite stands firm in its dedication to a sustainable future, implementing an array of strategies to diminish carbon and water footprints while ingeniously repurposing by-products into valuable resources. These efforts have garnered prestigious recognition, including accolades such as "The Best Compliant

Over the past five decades, Deepak Nitrite has consistently delivered unwavering performance and ensured a dependable supply to our customers, regardless of external pressures.

Company for the Codes Under Responsible Care” by the Indian Chemical Council and the esteemed Divya Bhaskar Pride of Gujarat award for “The Most Responsible Company”. As staunch proponents of Responsible Care, Together for Sustainability (TfS) and Nicer Globe, we uphold environmental, health and safety standards with unwavering commitment, championing responsible chemistry and innovative solutions.

Acknowledging the inherent risks associated with production processes, Deepak Nitrite has embraced a heightened role in implementing automation and plant safety standards to ensure a secure work environment and minimise errors. Our relentless pursuit of quality, environmental standards and efficient management of hazardous processes has earned the trust of esteemed global clientele.

Sustainability isn't just a commitment at Deepak Nitrite; it's ingrained in our business ethos and decision-making processes. We strive to mitigate our environmental impact by adopting sustainable practices throughout our operations, from reducing greenhouse gas emissions to promoting circular economy principles. Our continual investment in innovative technologies further bolsters resource efficiency, ensuring the delivery of safe and sustainable products to our customers.

Our commitment to community well-being is unwavering, evident in our social initiatives focussed on education, healthcare and empowerment of marginalised communities. Upholding integrity and ethical conduct is fundamental to our corporate governance framework, guiding fair and responsible practices across our operations. We nurture a diverse and inclusive work environment, fostering professional growth and equality among our employees.

Deepak Nitrite remains dedicated to continuous improvement in sustainability performance, setting ambitious goals and monitoring progress diligently. Sustainability isn't just a goal for us – it's a fundamental part of our vision for a better tomorrow.

BUILDING RESILIENCE: OUR STRATEGIC SHIFT AND VISIONARY OUTLOOK

Over the past five decades, Deepak Nitrite has consistently delivered unwavering performance and ensured a dependable supply to our customers, regardless of external pressures. In response to recent industry challenges, we've proactively implemented tactical initiatives. Firstly, leveraging our robust brand and market position, we prioritised key strategic relationships, driving growth in sales volumes. Secondly, rigorous asset optimisation efforts have led to record production for vital intermediates,

enhancing our competitive edge amid abundant supply conditions. Additionally, our focus on process efficiency and cost optimisation has yielded savings, countering margin pressures.

Deepak Nitrite is strategically positioned to capitalise on the 'Make in India for the World' initiative. With projects valued at approximately ₹ 25 Billion across core product lines, we're committed to sustained growth and value enhancement. Leveraging our extensive manufacturing infrastructure and chemical expertise, we've emerged as a crucial partner for major domestic and global players. Our future initiatives include expanding capacity, backward integration and establishing new platforms to meet evolving market demands. Despite challenges such as destocking in China, we foresee a gradual easing, supported by India's favourable manufacturing environment.

Driven by our commitment to operational excellence and asset utilisation, we've set new production standards in critical intermediates. India's burgeoning economy offers global opportunities for the chemical industry and Deepak Nitrite aims to play a pivotal role in shaping this ecosystem. Targeted investments in downstream segments, operational efficiency and speciality chemicals are poised to unlock growth, value and sustainability, aligning seamlessly with our strategic vision for future success.

Lastly, I want to express my deep gratitude to all our investors and stakeholders for their continuous dedication and confidence. Your unwavering support is fundamental to our progress, inspiring us to pursue excellence consistently.

Best Regards,

Message from Executive Director – Deepak Phenolics Limited

Over the past few years, Deepak Phenolics has significantly increased its operational efficiency. We remain committed to further expand our capabilities.

Meghav Mehta
Executive Director
Deepak Phenolics Limited

Dear Stakeholders,

I am delighted to share our accomplishments over the past year. Our undeterred focus on operational efficiency has enabled us to confront challenges and emerge stronger, as reflected in our resounding performance for the year.

The chemical industry in India has seen exponential growth over the past decade, with demand for various chemicals growing at an unprecedented pace. Favourable demographics, evolving aspirations, increasing consumption and rapid infrastructure development, are the key factors contributing to the growth. Shifts in supply chain dynamics are also observed due to the China+1 strategy and rising geopolitical risks. India is seen as a reliable supplier for global chemical companies owing to its strong growth prospects, expanding middle-class population and lower labour costs, providing enormous opportunities for building a thriving chemicals industry.

Over the past few years, Deepak Phenolics has significantly increased its operational efficiency. We remain committed to further expand our capabilities. Currently, we are strategically venturing into downstream, value-added derivatives of Phenol and Acetone at the Deepak Group level. This is aimed at strengthening leadership position while marching towards Nation's dream of being self-reliant (Aatmanirbhar).

ENSURING SUSTAINABLE PRACTICES

Sustainability is one of the core principles guiding our operations. We uphold a robust governance framework ensuring adherence to ethical practices, transparency and regulatory compliance. The receipt of prestigious Responsible Care® certification exemplifies our commitment to Sustainable practices. I take pride in stating that our operations adhere to key management systems, including ISO 9001 (quality systems), ISO 14001 (environmental management systems) and ISO 45001 (occupational health and safety risk management systems).

Our focus on environmental sustainability remains undeterred. We are gradually transitioning from coal-based energy, increasing our consumption of sustainable fuels like biofuels. Our efforts have significantly reduced our fossil fuel consumption and carbon footprint.

As we move forward, our focus remains on seizing evolving opportunities and

maintaining agility, ensuring that we remain at the forefront of the Phenol industry. With continued capacity addition and portfolio expansion, we are well-positioned to drive sustainable growth and value creation for all.

After completing my term as the Executive Director of Deepak Phenolics Limited on May 1, 2024, I will be looking after the implementation of upcoming projects in fellow subsidiary, Deepak Chem Tech Limited, as its Executive Director & Chief Executive Officer.

I express my gratitude to all the employees, customers, suppliers and all other stakeholders for their continued support.

Best Regards,
Meghav Mehta
 Executive Director
 Deepak Phenolics Limited

Strengths and Enablers that Bolster our Competitive Edge

With a diversified product portfolio, integrated and cost-effective operations and resilient supply chain, we are primed to capitalise on burgeoning opportunities and catalyse growth. Our strong financial position, dedicated research and development capabilities and unwavering commitment to sustainability further bolster our position in the marketplace.

KEY STRENGTHS

Integrated operations

Smart manufacturing

Cost and operational efficiency

Zero debt with strong financials and return ratios

Strong R&D and innovation capabilities

Resilient supply chain

Investment Case 1

INTEGRATED OPERATIONS

Our integrated operations encompass both forward and backward integration, ensuring a comprehensive ecosystem. This approach drives efficiency, agility and resilience across our operations, enabling us to expand capacities and meet growing customer demands.

- We are expanding our product portfolio by adding fluorination products, Nitric Acid, speciality agrochem and MIBK-MIBC through forward integration and incorporating new chemistry

platforms such as photochlorination and fluorination through backward integration

- Our backward integration includes comprehensive safety measures for secure transportation, storage and handling of our products
- Our integrated systems support our distributed partners by offering real-time order management capabilities and providing relevant marketing materials

- We utilise comprehensive Laboratory Information Management System (LIMS) to optimise our laboratory workflows, enhance data integrity and compliance and drive operational excellence

KPIs

- Forward and backward integration

Investment Case 2

SMART MANUFACTURING

We are steadily transitioning from traditional manufacturing to a deeply interconnected, data-driven and agile ecosystem. This evolution is fuelled by the rapid expansion of digital technology, evolving customer expectations and the imperative for improved efficiency and resilience. We embrace visibility and integration as fundamental pillars of our smart manufacturing approach.

We are one of very few in the country to implement Advance Process Controls (APC) in chemical manufacturing facility of our size. APC is a process control and optimisation technology that runs the plant at optimum by optimising processes on a minute-by-minute basis. This is done by manipulating variables such as feed flow, temperature settings, pressure settings and reflux flows, which are otherwise done by manual interventions. Our dedication to utilising advanced technologies for continuous improvement is evident in our integration and implementation of APC.

This system, based on artificial intelligence, uses mathematical models and historical

data to predict process behaviour and adjust control parameters in real time, ensuring stability and preventing disruptions. Real-time monitoring of critical variables allows APC to optimise performance and make timely decisions.

We also undertook debottlenecking (DBN) exercise to improve throughput. These initiatives have resulted in achieving the highest-ever 300+ KT of Phenol production in FY 2023-24. This achievement underscores our commitment to maximising efficiency and setting a high standard for operational excellence.

Another significant move towards digitalisation has been the successful migration to SAP-S4 HANA at DPL, which further strengthens our resource planning and decision-making that streamline operations and advance our agility to forge ahead.

KPIs

- Interconnected, data-intensive and agile manufacturing
- Culture of innovation and digitalisation
- Integration of CRM with ERP system
- Smooth transition to SAP-S4 HANA

Investment Case 3

COST AND OPERATIONAL EFFICIENCY

Technology is crucial in enhancing operational efficiency, reducing costs and improving overall productivity through process optimisation and automation. By utilising digital tools and software solutions, we analyse, optimise and streamline our processes, enhance efficiency and innovation through strategic supply chain management and continuous improvement, ensuring competitive production costs without compromising quality.

- We constantly refine and optimise manufacturing processes to minimise waste, reduce energy consumption and enhance productivity
- We are streamlining the supply chain by sourcing raw materials strategically, negotiating favourable contracts and minimising inventory and logistical costs through high end software applications, given ongoing socio-economic challenges
- We implement energy-efficient practices and are in the process of investing in renewable energy sources to reduce energy costs and environmental impact
- We have implemented an advanced system that automates the loading of tankers with minimum human intervention while strictly adhering

to safety regulations. Seamlessly integrated with our ERP system, it ensures an automated process from billing to load management. By eliminating manual errors and minimising waste, it maximises throughput, leading to improved operational efficiency and significant cost savings

KPIs

- Improved operational efficiencies
- Strong customer relationships

Investment Case 4

ZERO DEBT WITH STRONG FINANCIALS AND RETURN RATIOS

Our prudent financial management empowers us to navigate business downturns, ensuring long-term growth and sustainability for our shareholders. Supported by our strong credit rating, which attests to our financial strength and our zero debt position, we're well-positioned to enhance investments and deliver superior returns.

- We review all our investments based on our stringent capital allocation framework to maximise shareholder returns
- Our net block of assets, valued at ₹ 2,180 Crores, underscores our robust foundation

KPIs

- **Zero Debt**
- **18% ROE**
- **19% ROCE**
- Strong credit ratings from ICRA

Investment Case 5

STRONG R&D AND INNOVATION CAPABILITIES

With a dedicated focus on innovation, we are continuously pushing boundaries, driving advancements in our products and processes. This commitment to R&D not only fosters a culture of creativity and excellence but also enables us to stay ahead of the curve in meeting evolving market demands.

- Our R&D team is actively developing new products to establish additional speciality chemical facilities
- We are constructing a new state-of-the-art R&D centre at Savli, Vadodara, slated for completion by March 2025
- To enhance the efficiency of lab scale development, we utilise the Design of Experiments (DOE) methodology, supported by specialised software for screening and optimisation

KPIs

- **100+** R&D professionals employed
- **23** PhDs employed
- **₹ 9.13 Crores** invested in R&D and innovation during the year

Investment Case 6

RESILIENT SUPPLY CHAIN

Leveraging advanced technologies, robust processes and strategic partnerships, we have built a supply chain that is agile, adaptable and responsive to dynamic market conditions.

- By integrating smart sensors, we capture and transmit real-time data, facilitating seamless information flow. This enhances visibility and promotes integration across the supply chain,
- optimising operations and enabling responsive decision-making
- We have streamlined our complex supply chain and logistics flow by implementing advanced software applications, designed to address service procurement, resource planning, allocation, despatch, in-transit monitoring, delivery confirmation and vendor payments

KPIs

- **6.89** Inventory Turnover Ratio
- **Seamless** data integration

OUR VALUES: DRIVERS OF GROWTH

Innovativeness

Driving growth through groundbreaking ideas and innovation, we go beyond merely generating product concepts. Our focus extends to superior processes and elevating employee engagement. This holistic approach maximises growth and fosters a culture of continuous improvement.

Agility

In a constantly evolving landscape, adaptability is key. By swiftly responding to change and delivering results, our organisation becomes equipped to navigate the evolving challenges of the progressing world.

Responsiveness

We go beyond mere responsiveness; we provide solutions and embrace accountability. This commitment extends to our employees, customers and all other stakeholders.

Performance-driven

Leveraging profound category insights to identify opportunities and provide effective solutions. This, combined with rewarding high performers across diverse verticals, sets compelling examples for leadership.

Ownership

Every individual is both a leader and a team member, sharing equal responsibility for the company's growth. In our organisation, the vision serves as not only the company's objective but also as a personal goal for each individual.

OPERATING CONTEXT

Well-positioned to Capitalise on Burgeoning Opportunities

Over the past decade, India's chemical industry has experienced significant growth due to strong macro-economic fundamentals and rising demand, creating favourable opportunities. India's manufacturing competitiveness stands strong against other major global chemical players as countries focus on diversifying supply chains. This places India as a potential hub for chemical manufacturing in the future.

The chemical industry accounts for 7% of India's Gross Domestic Product (GDP) and is crucial for the nation's economic expansion. The sector is poised for exponential growth, anticipated to rise from USD 220 Billion to USD 304 Billion by 2025.

7%

Chemical industry's contribution to India's GDP

KEY GROWTH DRIVERS

THRUST ON INCREASING EXPORTS

Historically reliant on imports, India's chemical sector has significantly advanced over the past decade. Through backward integration and the 'Make in India' initiative, the country aims to reduce import dependency. With an emphasis on research and development, India is driving innovation. The country holds 2.5% of global chemical sales and exports to over 175 countries, positioning itself to increase its market share and competitiveness.

SUPPLY CHAIN DIVERSIFICATION

The global shift in supply chains, exemplified by the "China Plus One" trend and potential "Europe Plus One" strategy, bodes well for the Indian chemical sector. With ongoing geopolitical tensions, companies are increasingly turning to India for its strong value proposition, including scale, technology, raw materials, skilled labour and supportive government policies.

INCREASING INNOVATION AND DIGITALISATION

The chemical industry is undergoing digital transformation, improving supply chain management, customer engagement, manufacturing processes and R&D, driven by modern and cutting-edge technologies. Trends such as advanced analytics, cloud computing, big data, AI, IoT, digital twins, blockchain, AR, VR and data-driven product development are gaining prominence.

EVOLVING CONSUMER PREFERENCES

Consumer preferences are shifting towards environmentally sustainable products and services. The growing demand for health and hygiene is prompting a shift towards greener and safer offerings. Sustainability is now a crucial aspect of the chemical industry, with many companies adopting green chemistry in line with decarbonisation efforts.

FAVOURABLE POLICY REFORMS

The Indian government has implemented various initiatives to bolster the chemical industry, including chemical development schemes, plastic parks and Chemicals and Petrochemicals Investment Regions (PCPIRs). Additionally, ₹ 18,100 Crores have been allocated under the production linked incentive (PLI) scheme to enhance domestic manufacturing and exports.

Elevating our Growth Trajectory with Bigger and Bolder Strides

Deepak Group has embarked on a significant growth journey, marked by ongoing strategic capacity expansions and substantial investments. With a steadfast focus on enhancing efficiencies, expanding product portfolios and integrating products, we are poised for robust growth and retaining market leadership.

Deepak Chem Tech Limited signs ₹ 9,000 Crores MoU with Government of Gujarat (GoG) to manufacture Polycarbonate Resins & Compounds, MMA/PMMA & Aniline at its Dahej plant.

ADVANCING INDIA'S SELF-RELIANCE IN CHEMICALS INDUSTRY

Deepak Chem Tech Limited (DCTL), a wholly-owned subsidiary of DNL, has taken a significant step towards bolstering India's self-reliance in chemicals by signing a Memorandum of Understanding (MoU) with the Government of Gujarat with an intention to invest ₹ 9,000 Crores in setting up manufacturing facilities in Dahej, Gujarat, with production commencements slated up to 2027. This initiative, underscores Deepak Group's commitment to the Make in India initiative and capitalising on the massive opportunities posed by the Industry.

DCTL plans to manufacture Polycarbonate Resins & Compounds, Methyl Methacrylate (MMA), Poly Methyl Methacrylate (PMMA) Resins & Compounds and Aniline at its new facilities in Dahej,

Gujarat. These projects are expected to create significant employment opportunities and reduce India's imports of these products. These products cater to some of the fastest growing industries like – Electrical components, 5G and other electronic devices, aviation, defence, electronic displays, paints, coatings, rubber chemicals, pharmaceutical, agrochemicals, electronic chemicals and polymers to name a few.

This mammoth investment is in addition to the previous MoU signed with Government of Gujarat to invest ₹ 5,000 Crores for manufacturing speciality chemicals, Phenol, Acetone and Bisphenol, reinforcing Deepak Group's commitment for manufacturing these products and supporting India's self reliance. Out of the above, ₹ 2,200 Crores has already been committed.

To meet the growing speciality chemicals demand and enhance our market share, we have initiated several projects. We have planned brownfield projects for key products to address this demand effectively. Additionally, a significant greenfield expansion in polycarbonate compounding will allow us to venture into the polycarbonate business. This expansion will offer valuable market insights, covering both niche and major players and will cater to specialised demands in new-age applications such as 5G boxes, EV batteries, medical devices and more. By establishing polycarbonate compounding, we can locally and captively consume polycarbonate, which is a significant milestone for the Company.

We are also focussing on backward integration, incorporating new chemistry platforms like photochlorination and fluorination. This initiative aims to reduce supply chain risks in the agrochemicals sector and expand our product range using these advanced chemistries, thereby strengthening our backward integration capabilities.

We have completed debottlenecking of the Phenol facility which has further improved our Phenol production. Our MIBK and MIBC

plants are on track and anticipated to be commissioned as per the planned schedule. These plants will help us forward integrate Acetone to produce MIBK and MIBC, allowing us to create downstream value-added products through the captive use of Acetone.

We have increased our stake in Deepak Oman Industries LLC (SFZ) (DOIL) to 51%, making DOIL a subsidiary of DNL. This strategic investment will fortify our market position and expand our operational capabilities. It enables us to benefit from low-cost inputs of raw materials and energy, thereby serving global markets more effectively.

DCTL is strengthening its workforce with skilled personnel across various domains including project management, procurement and support functions. We have so far contributed around ₹ 700 Crores in DCTL to finance the ongoing capital projects undertaken by Deepak Group.

In FY 2023-24, several pivotal initiatives have fructified across Deepak Group. These investments will drive substantial growth across our business in coming years.

KEY PROJECT UPDATES

Fluorination Plant in Dahej, Gujarat

DCTL has commissioned in March 2024 fluorination plant in Dahej, Gujarat. This development marks a significant milestone in strengthening our backward integration for crucial agrochemical intermediates. The addition of fluorination chemistry will enhance our supply chain resilience and unfold various contract manufacturing opportunities. Our primary focus remains on meeting the domestic market requirements before expanding to international markets.

Nitric Acid Unit Project

Significant advancements have been made in the Nitric Acid Unit project with all long lead equipment received and erected. Manufacturing operations are expected to commence later this year, marking a crucial milestone in our expansion efforts.

Other Projects

Our photochlorination and solvent projects along with our hydrogenation and nitration plants are progressing well. These projects are taking shape, with detailed planning and execution underway. The commissioning of these projects will occur in a phased manner, starting from H2 of FY 2024-25.

Research & Development (R&D) Centre at Savli, Vadodara

We are excited to announce the progress on establishment of a world-class Research & Development (R&D) Centre in Savli, Vadodara, slated for completion by March 2025. This cutting-edge facility will feature advanced laboratories and pilot plants to foster innovation in chemical research, focussing on sustainable and environmentally friendly processes. By bringing together top-tier scientists and industry experts, this facility will serve as a hub for innovation, furthering the development of new products and technologies that support our growth strategy and contribute to the advancement of the chemical industry in India.

Our strategic foray into advanced solvents, alongside various upstream and downstream products and new chemistry platforms, marks a significant move to diversify our product portfolio, expand our customer base and enhance value addition across our offerings. Our sizeable investments will strengthen our business proposition and reinforce our leadership in selected chemistries. By leveraging our chemistry expertise and robust manufacturing capabilities, we will continue to be the preferred partner for leading Indian and global companies.

OUTCOMES

Deep culture of innovation

Skilled people

Environmentally sustainable operations

Processing - We use various complex processes to manufacture products. The effluents generated during the manufacturing process are recovered to develop by-products where possible and the rest are treated for safe disposal.

Supply chain management -

The products are sent to B2B customers across diverse sectors through water and surface transport.

For customers

We bring value to customers by providing high-quality and sustainable products

For communities

We contribute towards the overall development of communities through our impactful CSR activities and at the same time, ensure reduced environmental footprint across our operations

STAKEHOLDER ENGAGEMENT

Engaging with Stakeholders to Deliver Value

Our continuous engagement with the stakeholders is guided by the principles of transparency, openness and accountability. We value their perspectives and have established a comprehensive engagement mechanism to facilitate communication and seek their inputs, enabling informed decision-making. This approach cultivates trust, manages risks, enhances our reputation and enables effective discharge of environmental and social obligations.

Our stakeholder engagement policy guides the process of meaningful engagement with our stakeholder groups and prioritises transparent communication with them. We have identified our key stakeholder groups as those who are directly or indirectly impacted by our business activities as well as those who have influence on our business.

WHY WE ENGAGE WITH OUR STAKEHOLDERS?

- To demonstrate corporate citizenship and invoke trust in the eyes of our stakeholders while cultivating lasting relationships with them
- To understand their concerns, perspectives and shape our future strategies accordingly
- To enhance our brand equity through strengthened stakeholder relationships
- To seek customer’s feedback for driving process improvements, enhancing quality and optimising product performance
- To gain valuable knowledge and insights from outside perspective through some of our marquee customers, large investors, suppliers and regulators
- To identify and mitigate risks, capitalise on growth opportunities and stay abreast on industry & regulatory developments and emerging trends across geographies
- To understand our employees’ concerns and needs and align the talent pool as well as their skills and expertise with our future growth roadmap
- To ascertain the impact of our operations and sustainability initiatives on the environment and societies and collaborate with communities to find solutions driving positive impact

MATERIALITY

Addressing the Most Material Issues

Materiality assessment helps us pinpoint and prioritise significant ESG issues that deeply impact our business strategies, decisions and long-term success, allowing us to deliver lasting value to stakeholders. Recognising these critical issues is fundamental to our ESG journey, to effectively chart our growth trajectories, devise business strategies and manage risks.

ASSESSING OUR MATERIAL MATTERS

During FY 2023-24, the Company partnered with renowned independent firm to conduct fresh materiality assessment. The aim of the exercise was to gain deeper insights into the matters most material to the business and the stakeholders. This ensures alignment of our strategies with the stakeholders' priorities and industry standards.

Approach to materiality assessment

- ▮ Leveraged global frameworks including GRI 2021 standards and SASB sector standards
- ▮ Material topics relevant to the global and domestic industry peers reviewed
- ▮ Existing materiality of the Company reviewed

The material topics gathered were moderated and finalised in consultation with the senior management.

MATERIALITY MATRIX

Our Materiality Matrix depicts the impact of our material issues on both our business (inward impact) and the stakeholders (outward impact), ranging from low to high. These issues are categorised into five categories based on their relevance to both us and our stakeholders.

Category of Material Topics	Significance
Top Priority Issues	Critical to the Company as well as to its Stakeholders
Key Issues	Medium to high priority issues for the Company as well as its Stakeholders
Hidden Value Creators	Important for the Company's business but low priority for stakeholders
Hygiene Factors	High priority for the Company's stakeholders but low priority for the business of the Company
Monitoring Issues	Low importance to both the Company as well as its stakeholders

MANAGING OUR MATERIAL MATTERS

Upon conclusion of the Materiality Assessment, the Company identified 19 topics that may directly or indirectly impact our ability to generate value towards people, environment, society, business and all relevant stakeholders. We have well defined policies and practices to manage the material issues to ensure regulatory compliance, build enduring relationships with our stakeholders and create long-term business sustainability, in an evolving business landscape.

● Environment ● Social ● Governance

1 Water Use and Effluent Management

Significance and Impact

- Water being a critical resource, its availability will have a high impact on the Company's operations
- Company's water consumption for its manufacturing will also have a high external impact
- Effluent management highly impacts the surrounding environment as well as the company's business, given the scale of the Company's operations

Management/Mitigation Approach

As a responsible corporate, we are dedicated to ensuring our operations do not harm the quality or availability of water resources, thereby safeguarding both the ecosystem and the broader community. Through various initiatives, we aim to reduce our carbon and water footprint.

2 Climate Change & Emissions

Significance and Impact

- Climate change and emissions norms and regulation will have a high impact on the Company's business
- The Company's operations will have a high outward impact on the community

Management/Mitigation Approach

We have embraced environmental consciousness through our dedication to sustainable manufacturing practices. This commitment is reflected in our efforts to reduce utility consumption, extract value from waste and adopt clean technologies. We are continually striving to improve our energy efficiency. Additionally, we ensure that the effluents, emissions and waste generated at our manufacturing facilities remain within the permissible limits set by the respective Pollution Control Boards.

3 Occupational Health & Safety

Significance and Impact

- Health and safety have a high impact on both the company and the external environment, given the scale of the Company's operations

Management/Mitigation Approach

We place significant importance on maintaining occupational health, safety and the well-being of our employees. To ensure this, we implement strict safety protocols at all our locations, conduct regular safety audits and provide our employees with the necessary personal protective equipment. Additionally, we actively foster a culture of safety awareness through various campaigns and training programmes.

4 Community Involvement

Significance and Impact

- DNL's community involvement and upliftment initiatives have a high impact
- These endeavours enhance the company's reputation in the public eye, leading to a significant inward impact

Management/Mitigation Approach

Our dedicated CSR wings, Deepak Foundation and Deepak Medical Foundation, have positively influenced the lives of millions of people through a variety of programmes.

5 Growth & Profitability

Significance and Impact

- Growth and profitability are critical for the Company's sustainability

Management/Mitigation Approach

We ensure prudent allocation of financial resources and adherence to good governance principles, setting the foundation for sustainable long-term success. Alongside making disciplined investments within a clear framework, we adopt a rigorous approach to cost management to optimise our financial performance. Our strategic initiatives across the value chain and ability to respond to market changes bolster our resilience and performance in a dynamic business landscape.

6 Corporate Governance

Significance and Impact

- Corporate Governance is a high priority matter for the Company as well as the stakeholders

Management/Mitigation Approach

Our governance practices emphasise transparency in financial reporting, sustainability efforts, ethical decision-making and effective risk management. We promote a culture of accountability and integrity. We enforce a robust code of conduct and ethical standards to guide employee behaviour at all levels. Our comprehensive risk management framework identifies, assesses and mitigates risks related to operations, safety, environmental impact and compliance.

7

Business Ethics & Compliance

Significance and Impact

- Ethics and compliance have a high impact on a company's operations
- It is also a high priority topic for stakeholders

Management/Mitigation Approach

At Deepak Group, we promote a culture of ethics, accountability and integrity. We have a robust code of conduct in place and ethical standards to guide employee behaviour at all levels. We ensure strict adherence to all applicable laws, regulations and industry standards to mitigate legal and reputational risks. Regular evaluations of our governance practices help us identify areas for improvement, implement necessary changes and build trust with all stakeholders in line with global ESG standards.

8

Business Continuity

Significance and Impact

- This matter has both high inward and outward impact, considering the scale of the Company's operations

Management/Mitigation Approach

We ensure uninterrupted operations and business continuity which enhances our resilience against disruptions, minimise revenue loss, operational downtime and reputational damage. This proactive approach helps maintain customer trust, preserves market position and reduces recovery costs, ultimately safeguarding profitability and sustaining long-term financial health.

9

Product Stewardship

Significance and Impact

- Product stewardship is vital for integrating environmentally responsible practices across the life cycle of chemical products, aligning with sustainable chemistry goals
- It has a high inward and outward impact

Management/Mitigation Approach

We have established a protocol to assess the Environmental, Social and Governance (ESG) impacts of our products during their development stages, ensuring these considerations form part of our decision-making processes. We have calculated the carbon footprint for most of our products and plan to conduct Life Cycle Assessments (LCA) for several existing products in future.

10

Sustainable Supply Chain

Significance and Impact

- Having a sustainable supply chain is critical for Company's operations and business continuity
- Considering the size of Company's operations, the Company can influence the ESG priorities for their suppliers
- It will have a high impact on stakeholders as well

Management/Mitigation Approach

We maintain a robust logistics and distribution network using secure transportation with GPS tracking to monitor raw materials and finished goods in real-time. Our organised warehousing ensures prompt customer deliveries. Leveraging our manufacturing expertise, integrated facilities and agile operations, we consistently deliver reliable and steady performance.

11

Waste Management

Significance and Impact

- Failure to comply with required waste management standard practices will have high negative impact on the Company's operations
- Outward impact of Company's waste management practices is medium

Management/Mitigation Approach

The production of agrochemicals result in hazardous waste, making it essential to focus on prioritising recycling and reusing waste whenever possible. Our responsible practices and proactive approach ensures optimal resource and waste generation and recycling in line with regulatory requirements.

12

Energy Management

Significance and Impact

- Efficient energy management can lower manufacturing emissions and reduce costs
- This matter has a moderate impact on external stakeholders

Management/Mitigation Approach

Recognising the importance of energy efficiency in all business activities, we actively monitor our performance using systems installed across multiple locations to track daily energy consumption. Our energy conservation strategy aligns with our commitment to achieving our sustainability goals and targets.

13 Employee Engagement

Significance and Impact

- Investing in employee training/upskilling and employee engagement activities, fostering their involvement levels has a high inward impact
- This also helps elevate the company's brand and reputation externally

Management/Mitigation Approach

We conduct regular activities for overall employee development and engagement, enabling our teams to perform their responsibilities with effectiveness and efficiency, contributing to a capable workforce that drives internal growth. This not only enhances product quality but also boosts revenue for the Company.

14 Human Rights

Significance and Impact

- The Company's policies and procedures champion UN Human Rights principles, fostering a positive impact on the outside community

Management/Mitigation Approach

We have established a comprehensive Human Rights due diligence framework to systematically evaluate our operations. This involves conducting human rights vulnerability assessments at our operational sites to identify and mitigate risks, along with ongoing monitoring and performance reporting. Our commitment to upholding human rights spans all aspects of our business operations. We extend this commitment to our business partners by ensuring their alignment with our policies and contractual agreements.

15 Customer Relationships

Significance and Impact

- Maintaining customer relationships is critical to the Company's operations and hence has a high inward impact

Management/Mitigation Approach

We offer innovative and cost-effective products to retain and attract customers. Our customer-centric approach and active engagement with customers have been key in fostering customer loyalty, one of our greatest strengths in driving profitable growth.

16

Diversity, Equity & Inclusion

Significance and Impact

- This topic has high impact on the company and medium impact on the external environment

Management/Mitigation Approach

At Deepak, we are dedicated to creating value by continuously expanding our workforce and fostering agility. Our team is composed of individuals from diverse educational, cultural and demographic backgrounds. We are committed to upholding principles of inclusion and diversity in our employment practices.

17

Product Innovation

Significance and Impact

- The Company operates in an industry with high potential for innovation, enabling the competitive edge and agility in business
- While the impact on the Company's operations is high, the impact on external environment is low

Management/Mitigation Approach

We constantly monitor global trends and collaborate with our customers to gain a deep understanding of their product preferences. This enables us to enhance our range of cutting-edge chemistry solutions. Our unwavering commitment to research and development allows us to expand our portfolio and refine existing products. We are steadfast in our investment in innovation, recognising its critical importance for ensuring our continued success.

18

Digitalisation, IT security & Data Privacy

Significance and Impact

- Digitalisation helps boost Company's efficiency as well as reduce carbon footprint
- This topic has a medium inward impact

Management/Mitigation Approach

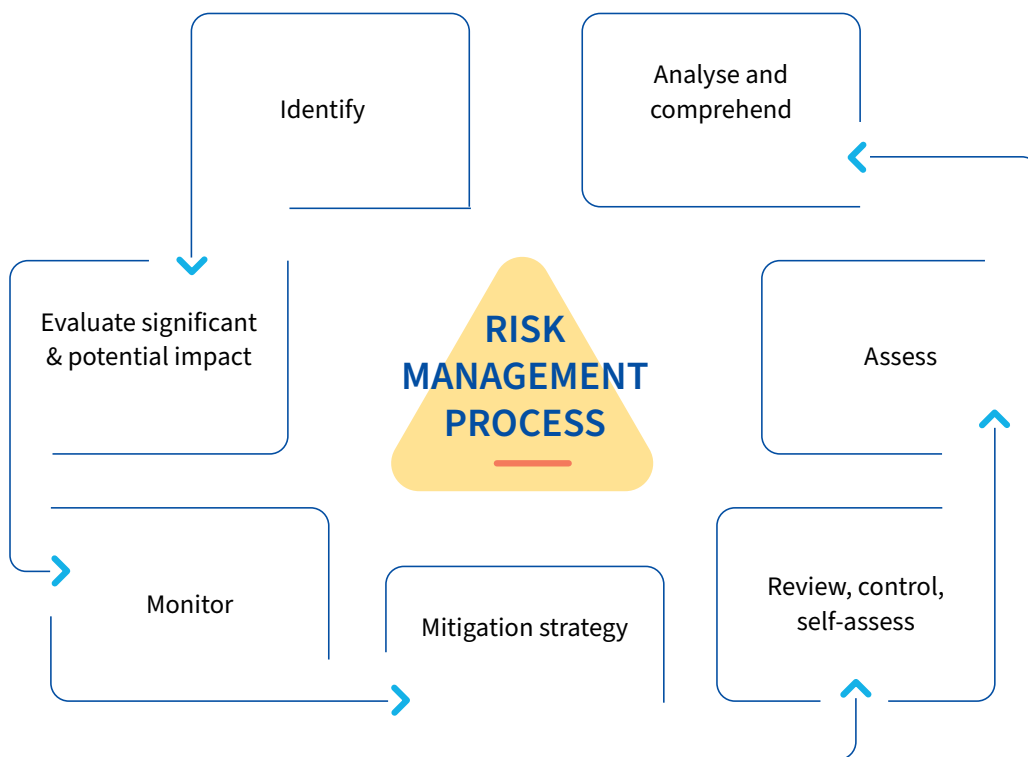

We have adopted digitisation and streamlined processes through automation, increasing operational efficiency and productivity. Data analysis and optimisation in areas like supply chain management and inventory control have enabled us to make informed strategic decisions, leading to better business outcomes. Additionally, our digitisation initiatives support sustainability efforts by optimising resource usage and reducing environmental impact.

RISK MANAGEMENT

Managing Risks Prudently for Optimal Outcomes

Amidst evolving markets, regulatory shifts and unforeseen challenges, proactive risk management becomes increasingly crucial for organisations. It not only safeguards the Company’s operations but also creates lasting value for stakeholders and helps capitalise on emerging opportunities.

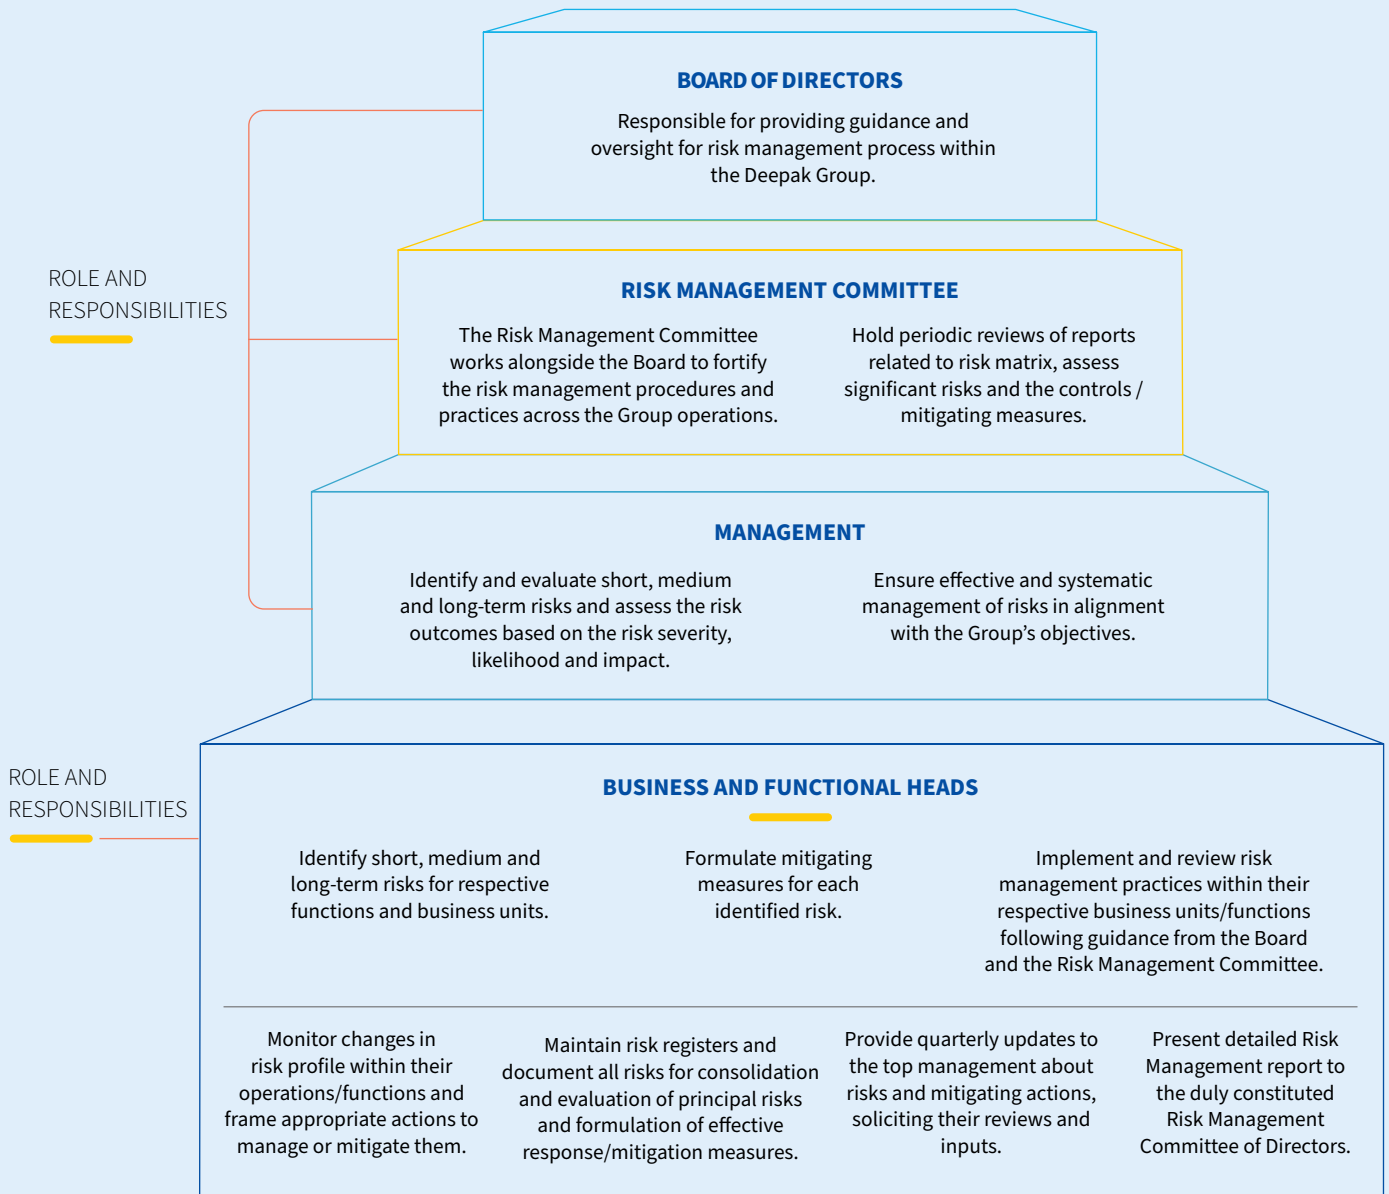

ENTERPRISE RISK MANAGEMENT FRAMEWORK

We have established a robust Enterprise Risk Management Framework (ERM) governed by the Board-approved Risk Management Policy. Our Enterprise Risk Management Framework (ERM) aligns with the ISO 31000 and COSO standards, encompassing all facets of effective risk management at all levels, including the shop-floor level. The framework enables proactive and systematic approach to risk management, enabling us to safeguard our business by preventing incidents, driving optimal business outcomes and ensuring sustainable success.

ERM empowers management to:

- Gain an in-depth comprehension of the risk landscape and assess potential exposure
- Manage overall risk exposure effectively and devise risk mitigation strategies
- Consistently monitor the effectiveness of risk management practices
- Fortify risk controls and implement necessary improvements, as identified
- Furnish periodic risk management reports to the Board of Directors

APPROACH TO RISK MANAGEMENT

OBJECTIVES OF RISK MANAGEMENT

- Ensures Business continuity and Sustainability
- Achieve organisation's strategic objectives
- Enhance decision-making, planning and prioritisation processes
- Seize opportunities while proactively managing risks in a dynamic external environment
- Establish controls to mitigate or prevent risk occurrence
- Prioritise risk and reward considerations for implementation in critical areas
- Ensure adherence to corporate governance standards

The Company on a continuous basis, identifies and evaluates short-term, medium-term and long-term risks, prepares and implements mitigation plans therefor and keep monitoring them for ensuring sustainability of operations.

Capitals Impacted

Mitigation Response

- Consistent monitoring of both current and future situations
- Engaging in raw material linked pass-through contracts with the customers, regularly exchanging raw material situation with key customers building consensus for price escalation
- Leverage bulk volumes to secure price & availability
- Develop alternate/multiple vendors to expand vendor base and secure consistent material availability

R2 Global Geopolitics and Monetary Risk

Capitals Impacted

Mitigation Response

- Diligently monitor major price trends – Lead & Lag indicators
- Cost optimisation by spot or contractual purchasing, whenever feasible
- Enhanced customer engagement to be a preferred supplier
- Secure alternative product for the plant to diversify asset utilisation
- Monitoring overall demand and supply development with allied resources of the end industry

Business – Operations Risks

R3 Supply Chain Disruption/ Business Interruption Risks

Capitals Impacted

Mitigation Response

- Enhancing safety stocks and facilitating movement of materials through pipelines
- Procurement from diverse geographic locations to mitigate shipping delays
- Ensuring secure shipments to meet established supply timelines
- Maintain ample inventory levels to cater to customers, in the event of any supply disruptions
- Re-negotiating contracted terms for logistic rates

R4 Supplier Dependency

Capitals Impacted

Mitigation Response

- Diversify sourcing pattern across all materials
- Engage in on-spot sourcing whenever competitive offers are received from local and import suppliers
- Develop and expand vendor base for product procurement

R5

Emerging competition to our existing business

Capitals Impacted

Mitigation Response

- Multi-year contractual engagement for major business
- Positioning as a preferred supplier of choice, addressing key customers' concerns
- Strengthened supply planning, with acceptable lead times and risk mitigation buffers
- Concentrate on acquiring new customers in international markets and expand distributors network in respective regions
- Maintain market volumes by expanding customer base
- Forge long-term tie-ups with domestic customers to protect market share and amplify export sales to diverse geographies

R6

Succession Planning / Critical Position Planning

Capitals Impacted

Mitigation Response

- Define Competency Framework for employees
- Employee evaluation on the competency framework
- Individual Development Plan to build role specific capabilities
- Enhance skills and competencies through Learning & Development opportunities
- Develop second line of talent for key / critical positions

R7

Information Security and Confidentiality

Capitals Impacted

Mitigation Response

- Enforcing rigorous confidentiality obligations
- Sharing of information strictly on a need-to-know basis
- Employ new IT tools to manage documents flow

Material matters addressed

- Growth & Profitability
- Sustainable Supply Chain
- Customer relationship

Key risks

- Emerging competition to our existing business

Progress during FY 2023-24

- Commissioned a state-of-the-art fluorination plant in Dahej, Gujarat
- Nitric Acid plant is under implementation and commissioning is expected in FY 2024-25
- Greenfield project for Acetone derivatives MIBK and MIBC is underway and expected to be commissioned in FY 2024-25
- Projects including Hydrogenation and NT Expansion are advancing well and will be commissioned in phases starting Q2 FY 2024-25
- Elevated capacity utilisation on a sustained basis
- Acetophenone (ACP) Recovery Project
- Setting up a state-of-the-art Research & Development (R&D) Centre at Savli, Vadodara, with completion expected in March 2025.

KPIs

- Optimum capacity utilisation
- Cost optimisation
- Operational efficiency

STRATEGIC PRIORITY : ENHANCE MARGINS

2

Capital Enhanced

Material matters addressed

- Growth & Profitability

Key risks

- Global geopolitics and monetary risk

Progress during FY 2023-24

- Optimise product mix with high-margin, value-added products
- Continued process optimisation, productivity improvements and energy conservation to reduce costs
- Improve asset fungibility in line with customer’s schedule for key intermediates

KPIs

- Optimum operating margin
- Cost of goods sold
- Earnings Per Share
- Profit Before Tax

STRATEGIC PRIORITY: OPERATIONAL EXCELLENCE AND SAFETY

3

Capital Enhanced

Material matters addressed

- Occupational Health and Safety
- Digitalisation

Key risks

- Technology Obsolescence
- Plant Safety Compliances

Progress during FY 2023-24

- Asset integrity study & OEE across all locations to improve productivity and reduce effluents in existing plants
- Enhance use of narrow band technologies for manufacturing and automation
- Ensuring better capacity utilisation and better process towards cost leadership
- Adequate steps undertaken to ensure safety like process automation to eliminate human error, enhanced training and frequent audits, stringent measures and protocols

KPIs

- Optimum plant utilisation
- Improve SHE aspects

STRATEGIC PRIORITY: WIDEN PRODUCT PORTFOLIO

4

Capital Enhanced

Material matters addressed

- Product Innovation
- Adopted Integrated approach to growth. We are foraying into New Products, chemistries and end applications. Our investment strategy for ₹ 14,000 Crores of Projects involve Speciality products, Phenol, BPA, Poly Carbonate rasins and compounds, MMA

Key risks

- Global geopolitics and monetary risk
- Technology obsolescence

Progress during FY 2023-24

- Meaningfully enhance core technology platforms including nitration, reduction and diazotisation; and build platforms including fluorination and photochlorination
- Investment in manufacturing products that utilise core technology platforms for new agrochemical and pharmaceutical intermediates
- Setting up facilities for downstream or value-accretive products

KPIs

- New products launched during the year

STRATEGIC PRIORITY: SUSTAINABLE GROWTH

5

Capital Enhanced

Material matters addressed

- Occupational Health & Safety
- Climate Change
- Water Use & Effluent Management
- Community Involvement

MANAGING OUR FINANCIAL CAPITAL

We have a prudent financial management strategy that assesses the need for funds to support sustainable business operations and growth opportunities. We aim to maintain a strong balance sheet through proactive funds and liquidity management. Our focus is on delivering lasting value to our stakeholders, even in the face of economic challenges and market disruptions.

We regularly invest in our manufacturing and intellectual capital to provide quality products to our customers. Additionally, we invest in human and social capital to ensure the well-being of our employees and communities and in natural capital to promote environmentally responsible practices. These investments are carefully balanced and calibrated to achieve our financial objectives.

We ensure adequate liquidity, maintain optimal cost of funds and uphold healthy gearing ratios. We conduct periodic reviews of all our investments based on a stringent capital allocation framework to enhance shareholder returns.

Communique from Director (Finance) & Group CFO

Dear Stakeholders,

Your Company has delivered a commendable performance during FY 2023-24, countering the adverse industry backdrop by seamlessly managing operations. Despite global hurdles like logistical constraints and geopolitical tensions, we not only maintained market share but also expanded it for some products through strategic cost management and astute procurement strategies.

With incremental investments enhancing our capacity and sustained demand from diverse end-user industries, we have witnessed favourable trends in both revenue and profitability.”

Sanjay Upadhyay

Director (Finance) & Group
Chief Financial Officer

ADAPTIVE & RESILIENT BUSINESS MODEL

Our Company has exemplified agility in driving growth while upholding stringent quality and safety standards, leveraging our deep expertise in chemicals across the value chain. Our progress is rooted in a holistic revenue accretion strategy, encompassing product diversification, client outreach and geographical expansion. Despite grappling with macroeconomic hurdles, our business model has displayed resilience, bolstering our confidence and market position. With incremental investments enhancing our capacity and sustained demand from diverse end-user industries, we have witnessed favourable trends in both revenue and profitability.

Amidst short-term fluctuations, our unwavering focus is on medium and long-term objectives of fortifying our business model. Consequently, significant strides have been taken to strengthen our balance sheet, ensure a seamless supply chain of critical inputs, byproduct valorisation and propel growth-centric capital expenditures. Despite volatile raw material costs and logistical challenges, our Company showcased resilient performance in FY 2023-24, driving overall volume growth. The operational efficiencies achieved translated into an impressive 19% return on capital employed, sustaining the performance levels across business segments.

Looking forward, we anticipate sustained growth across all strategic business units, driven by expanded capacity and enduring

demand. Our sustainable business model, catering to over 30 end-user markets, acts as a buffer against market fluctuations. Throughout these endeavours, the safety of our personnel, materials and operations remains paramount across all our facilities.

As you all are aware, Deepak, as an organisation, has been having sound ESG practices and it has intensified its various initiatives towards sustainability and working towards carbon neutrality. We are publishing a separate Sustainability Report in which we have tried to capture all our aegis in the drive towards sustainability while we augur ourselves to be in the top league of global chemical manufacturing companies.

STEADFAST GROWTH MOMENTUM

Successfully navigating through the complexities, Deepak Nitrite Limited (DNL) ensured a consistent product supply for the clients while enhancing market share and demonstrating adaptability in a challenging business landscape. The team at Deepak understands the demanding business environment and is prepared to adapt and innovate to overcome the variables of this macro backdrop. Leveraging global competitiveness and strong customer relationships, DNL met customer demands while maintaining high levels of operational efficiency.

In FY 2023-24, DNL ended the year on a positive note with notable consolidated revenue and EBITDA figures. Margins remained stable at 16%, while PBT and PAT were close to ₹ 1,100 Crores and ₹ 800 Crores respectively. DNL's profitability

reflected its operational performance influenced by subdued realisation and utilities, with anticipated improvements in the coming quarters.

In Advanced Intermediates segment, volumes surged by 16%, accompanied by enhanced market share, particularly notable in Sodium Nitrite, Fuel additives and specific Agro Intermediates. Venturing into new markets and acquiring new customers further propelled growth. Segment-wise, revenue in the Advanced Intermediates segment stood at ₹ 2,724 Crores, with a healthy EBIT of ₹ 446 Crores. While, Phenolics segment also performed well, with revenues over ₹ 5,000 Crores and showing healthy EBIT of ₹ 644 Crores. Under the current global situation that world economies and industries are passing through, this performance is seen particularly an impressive one.

The team at Deepak understands the demanding business environment and is prepared to adapt and innovate to overcome the variables of this macro backdrop.

On the balance sheet front, DNL significantly enhanced its financial position, maintaining a net zero-debt position with a solid consolidated net worth, thereby strengthening the balance sheet for future expansion.”

Domestic business generated substantial revenue, with a consistent domestic to export ratio of 80:20. Net operating cash flow was robust, driven by better working capital and operational gains. Investments were made in various new projects, while financing activities included dividend disbursement and interest payments.

On the balance sheet front, DNL significantly enhanced its financial position, maintaining a net zero-debt position with a solid consolidated net worth, thereby strengthening the balance sheet for future expansion. Strategic cash flow deployment into growth projects has been happening and also in few brownfield expansion. These will further enhance DNL’s capacities, even as it continues to reduce debt and maintain dividends.

INSIGHTS TO OUR CAPITAL INVESTMENTS

While, DNL has been implementing various projects, which are in nature of both backward and forward integration which comprise of fluorination based products, nitric acid (both diluted and concentrated nitric acid), MIBK – MIBC, speciality agrochem project, further projects were announced by the signing of two Memorandums of Understanding (MoUs) with the Government of Gujarat, committing a substantial investment of ₹14,000 Crores over the next 4 to 5 years. Amongst the projects under implementation / commissioning, Fluorination project has already commissioned in March 2024, while implementation of other projects are progressing well and expected to be commissioned in time.

Our operational efficiency received a significant boost with the successful implementation of SAP across our subsidiary, resulting in streamlined processes and enhanced collaboration.

Our commitment to innovation and growth is highlighted by the establishment of an advanced Research & Development Centre in Savli, Vadodara, scheduled for completion by the end of FY 2024-25.

With a dedicated project execution team on ground, we are well-positioned to explore new opportunities, particularly in material science, including special polymers and their compounds. These strategic initiatives, along with our clear focus on operational efficiency and prudent investments, position us for sustained growth and profitability, bolstering our resilience in the ever evolving landscape of the Indian economy.

EXEMPLARY CREDIT STANDING

DNL has built a solid reputation and maintains a dominant presence in numerous product categories. The Company’s financial health continues to strengthen, showcasing the disciplined growth strategy it adheres to. This robust performance has led rating reaffirmation of long-term rating at ICRA AA and the short-term rating at ICRA A1+, with a positive outlook for the long-term rating, rated by ICRA.

Deepak Phenolics Limited has had its long-term rating reaffirmed at ICRA AA and its short-term rating at ICRA A1+ for bank facilities, with a positive outlook on the long-term rating.

DNL has built a solid reputation and maintains a dominant presence in numerous product categories. The Company's financial health continues to strengthen, showcasing the disciplined growth strategy it adheres to.

Moreover, ICRA has awarded a long-term rating of ICRA A and a short-term rating of ICRA A2+ for bank facilities of Deepak Chem Tech Limited, a wholly-owned subsidiary of the Company, maintaining a stable outlook on the long-term rating in the very first year.

These ratings affirm our solid creditworthiness amidst challenging conditions such as rising inflation, tightening liquidity and a difficult environment for raising capital.

DRIVING SHAREHOLDER VALUE

DNL remains committed in its promise to provide value to shareholders. Acknowledging our promising performance, the Board recommended a dividend of ₹ 7.50 per equity share, which is 375% on a face value of ₹ 2 each for the FY 2023-24. The Company has maintained a healthy payout while balancing its requirements for business growth and capital expenditure. Looking forward, the Company believes, its strategic investments will drive growth, enable accretive earnings in the years ahead.

PAVING THE PATH: A ROADMAP TO GROWTH

DNL has implemented strategic measures to enhance operational efficiency, spanning process optimisation, yield improvements and reduction in power and waste consumption costs. Our adoption of dynamic product pricing has bolstered margin performance, reflecting our proactive stance in safeguarding profitability amidst market challenges.

Moving forward, DNL is confident in receiving unwavering support from shareholders and Government entities. Our dedication remains intact in delivering outstanding customer satisfaction and ensuring consistent, profitable growth. Investment remains pivotal for future readiness, underpinned by our governance principles of integrity and transparency, focussing on long-term value creation through robust financial reporting and governance practices.

Driven by a combination of internal initiatives and external influences, the Company's future outlook is promising. We are committed to leveraging this momentum to create value for all stakeholders. On behalf of the Board of Directors and the management team, I express sincere appreciation to our shareholders for their trust in the Company. We remain cautiously optimistic about the Company's ability to deliver lasting value to both internal and external stakeholders.

Best Regards,

SANJAY UPADHYAY

Director (Finance) & Group Chief Financial Officer

ENHANCING MANUFACTURING CAPABILITIES

With our strong manufacturing infrastructure and expertise in chemistry, we have become a trusted partner for major Indian and international corporations. Looking ahead, we see significant opportunities that will require us to expand our capacities and enhance our competencies.

We are making notable progress in scaling up our manufacturing capabilities. A key part of this effort is debottlenecking, which allows us to boost production. In FY 2023-24, we achieved our highest-ever Phenol production of over 300 KT, underscoring our commitment to maximising efficiency and setting a high standard for operational excellence.

We are delighted to share that we are one of the very few in the country to implement Advanced Process Controls (APC) in a chemical manufacturing facility of our size. APC is a process control and optimisation technology that optimises processes on a minute-by-minute basis by manipulating variables such as feed flow, temperature settings, pressure settings and reflux flows, which are otherwise managed through manual interventions. APC has made positive impacts in multiple ways, including increased production, reduced energy usage, improved production yields, enhanced product quality and reduced emissions. Other important positive outcomes are safe and reliable operations, improved catalyst life and extended useful lives of assets.

As a result, we now lead the industry with a remarkable capacity utilisation rate of 150%+ at our Phenol plant setting high standards for operational excellence.

We have successfully commissioned the installation of a SAC unit, which has significantly enhanced sustainability at the Nandesari plant. Our Fluorination plant commissioned in March 2024.

Looking ahead, our Acid, MIBK and MIBC plants are scheduled to be commissioned by FY 2024-25. These plants, which produce derivatives of Acetone, will allow us to utilise Acetone to manufacture MIBK and MIBC, thereby moving into downstream value-added products.

With multiple brownfield and greenfield projects set to be commissioned in the coming years, we are well-positioned for improved performance and growth. Notably, we have also approved an investment to establish a facility in Oman. This facility will manufacture key chemicals and benefit from the low-cost inputs of raw materials and energy, allowing us to serve global markets more effectively.

Another significant move towards digitalisation has been our successful migration to SAP-S4 HANA, which further strengthens our resource planning and decision-making, streamlines operations and advances our agility to forge ahead.

KEY OPERATIONAL HIGHLIGHTS

- Increased Capacity utilisation
- Project execution is as per schedule for NT expansion
- SAC plant has been successfully commissioned, lowering the disposal cost for spent acid generated from NT
- Achieved highest ever production of Cumidines in the Company's history
- 100% utilisation of Nitro Toluidine manufacturing plant
- Launched new product under the paper segment for the coating application in Europe
- Diversified the product range by introducing new product formulations for laundry and detergent applications
- Minimised breakdown hours, leading to improvement in overall production
- Implemented LIMS – Laboratory Information Management System
- Installed RO Plant under the project for Zero Liquid Discharge (ZLD)
- Installed 40Kwp solar roof top system for renewable energy
- A multifuel boiler was installed and commissioned which operates on bio-briquettes as an alternative to coal, thereby reducing the carbon emissions, saving costs, enhancing sustainability
- Zero Liquid Discharge (ZLD) System installed paving way for sustainable operations through water conservation and recycling
- Recycling of wastewater from RO has been initiated using steam condensate

ENHANCING OPERATIONAL EXCELLENCE

Auto Filling system: Automating loading of tankers

At Deepak, leveraging technology is essential for enhancing operational efficiency, reducing costs and boosting overall productivity through process optimisation and automation. By harnessing digital tools and software solutions, we can analyse, optimise and streamline our processes to stay competitive and deliver superior quality.

One of our standout implementations is an advanced solution that automates the loading of tankers with minimal human intervention while strictly adhering to safety regulations. Seamlessly integrated with our ERP system, this system ensures a fully automated process from billing to load management.

Auto Filling is integral to our optimisation strategy, enhancing material filling operations by eliminating manual errors, reducing waste and maximising throughput, thereby achieving improved operational efficiency and substantial cost savings.

For precision and accuracy, the software integrates intelligent sensors and measurement devices for material filling, ensuring consistent fill levels and eliminating variations.

Safety remains a top priority and the software strictly follows industry regulations while implementing comprehensive safety protocols. By reducing manual handling and preventing material spillage, the Auto Filling software fosters a safer work environment for employees and ensures compliance with stringent safety standards.

“Incorporating advanced technology like Auto Filling highlights our commitment to operational excellence, demonstrating the critical role that innovation and efficiency play in achieving sustainable growth and maintaining industry leadership.”

Laboratory Automation

At Deepak, our Laboratory Information Management System (LIMS) is crucial in optimising laboratory workflows, enhancing data integrity, ensuring compliance and driving operational excellence. This transformative solution revolutionises laboratory operations, data management and collaboration, empowering us to achieve greater efficiency and productivity. With the integration of LIMS, we optimise processes, reduce manual errors and ensure the delivery of high-quality products to our customers.

Supply Chain and Logistics Automation

We employ a transformative solution to tackle the complexities of managing our supply chain and logistics, intricate networks and for optimising operations and meeting customer demands. The advanced logistics planning and optimisation engine, powered by Cloud Computing, AI, ML and IoT, connect all stakeholders on a single platform with a multi-dimensional workflow. This integration enables the seamless execution and optimisation of logistics flows, including service procurement, resource planning, allocation, despatch, in-transit monitoring, delivery confirmation and vendor payments.

Tightly integrated with our ERP systems, the software generates alerts for exceptional incidents, allowing us to respond swiftly. At Deepak Group, we leverage advanced supply chain and

logistics software to streamline operations, boost efficiency and deliver exceptional products to our customers.

Our commitment to efficient supply chain management, streamlined logistics operations and enhanced visibility and collaboration ensures our leadership in the chemical manufacturing industry. We continuously strive for excellence, providing superior value and service to our customers while maintaining a strong competitive edge.

Production Allocation and Hydrocarbon Accounting

At Deepak, we recognise the importance of Production Allocation and Hydrocarbon Accounting in optimising resource management, ensuring accuracy and complying with industry regulations.

By utilising advanced software solutions, we streamline processes, boost operational efficiency and enable precise reporting and informed decision-making.

Our Production Allocation and Reporting (PAR) system seamlessly integrates with our ERP, collecting data through sensors, flow meters and production systems. This integration allows our software to calculate production volumes accurately and allocate them to the appropriate assets, leases, or partners. This data-driven approach optimises resource management, supports informed decision-making and ensures efficient asset utilisation.

Deepak Group utilises Production Allocation and Hydrocarbon Accounting software to boost operational efficiency and optimisation. This technology supports data-driven decisions, process optimisation and loss minimisation. Our software systems provide visibility into key performance indicators such as production rates, downtime and hydrocarbon inventories, allowing us to monitor and evaluate operations, identify areas for improvement and implement strategies to enhance efficiency and productivity.

Comprehensive reports on production volumes, revenue allocations and key performance indicators are generated by our systems, offering valuable insights into operational performance, cost analysis and revenue distribution. These reports facilitate effective decision-making at various organisational levels.

With a commitment to excellence and adherence to industry best practices, Deepak Group remains at the forefront of efficient production allocation and hydrocarbon accounting, driving value creation and operational excellence in the chemical industry.

Advanced Process Control (APC)

Deepak Group is implementing Advanced Process Control (APC) to manage process nonlinearities, dynamics and constraints. Utilising mathematical models and historical data, APC predicts process behaviour and adjusts control parameters in real-time, ensuring stability and preventing disruptions. Real-time monitoring of critical variables enables APC to optimise performance and make timely decisions.

Our commitment to leveraging advanced technologies for continuous improvement is reflected in the integration and implementation of APC, which enhances our operational stability and efficiency.

Embracing Analytics for Organisational Success

We embrace the significant benefits derived from analytics in driving organisational success. By leveraging analytics, we gain valuable insights from extensive data volumes, enabling informed decision-making, optimising operations and attaining a competitive edge in the market. Our commitment to innovation ensures the delivery of high-quality products and the achievement of operational excellence. Through effective data utilisation, we achieve increased productivity, cost savings and enhanced customer satisfaction, setting new benchmarks for success in the dynamic realm of smart manufacturing.

In smart manufacturing, analytics is essential for capturing, integrating and analysing data from various sources, including sensors, machines and production systems. To enhance this process, we have implemented IP21,

which efficiently captures and analyses our production data. This enables us to leverage analytics for continuous improvement and optimisation of our manufacturing processes.

Additionally, IP21 stores historical operational data, allowing us to perform retrospective analysis and generate comprehensive reports. This capability lets us compare performance over time, identify trends and conduct root cause analysis for any operational issues that arise.

Predictive Analytics

Vibration monitoring system is crucial to Deepak Group's operations, offering regular health checks for single-line equipment and other critical rotary machinery. We employ condition-based predictive analysis and performing vibration analysis, Oil Analysis, Thermography, Motor current signature analysis, corrosion monitoring and thickness surveys. With early detection and timely maintenance interventions enabled by such predictive analytics, Deepak Group ensures the optimal health and performance of its equipment, minimises downtime and maximises operational efficiency.

**INTELLECTUAL
CAPITAL**

Responsible innovation for a sustainable future

Our strong intellectual capital enhances our business outcomes significantly and propels us to the forefront of innovation while maintaining our competitive advantage and driving sustainable growth. We continue to strengthen our R&D capabilities and advancing digitisation to optimise processes, drive innovation and deliver superior value to the customers.

SDGs impacted

Harnessing cutting-edge technology holds immense potential in enabling us to recover and adapt resiliently from the challenges. The digital transformation encompasses cloud solutions for data security, AI-driven predictive analysis to anticipate market changes, or advanced automation to sustain operational resilience under challenging conditions. Technology makes us efficient by optimising our operations, reducing inefficiencies and freeing up resources, making more room for innovations and capability enhancements.

DIGITAL INITIATIVES DRIVING PROCESS EFFICIENCIES AND INNOVATION CAPABILITIES

- Smart manufacturing
- Digitisation of systems
- SAP implementation
- CRM implementation
- Supply chain automation
- Data analytics
- Cybersecurity measures

SMART MANUFACTURING

We have deployed smart manufacturing Advanced Process Control (APC) technology in our plants, enhancing our efficiency, productivity and quality. APC leverages advanced algorithms to optimise manufacturing processes in real-time, reducing variability and improving product quality.

DIGITISATION/AUTOMATION

We have transitioned most of our manual or paper-based processes, utilising digital tools such as automation software, cloud-based storage and digital workflows to streamline processes and boost efficiency. Implementation of Robotic Process Automation (RPA) tools has further automated our processes. This digital transition enables collaboration and information access for us.

SAP, CRM IMPLEMENTATION AND SUPPLY CHAIN AUTOMATION

Adoption of SAP RISE with HANA, hosted on the cloud, has amplified our operational efficiency and business performance. This facilitates real-time insights into business operations, enhancing supply chain management, while bringing the costs down. We have implemented CRM that helps us in seamless management of customer interactions, paving way more personalised experiences, increased customer engagement and improved customer satisfaction.

ADVANCE ANALYTICS

We are creating a data lake for advanced analytics, to fully unleash the power of data analytics. This will enable data-driven decision making, improve customer experiences and explore new revenue opportunities through the analysis of extensive data sets and extraction of insights. We intend to use ETL to extract data from diverse sources and plan to conduct predictive and prescriptive analytics.

CYBER SECURITY

Understanding the necessity of maintaining data confidentiality, integrity, availability of business data and its protection against cyber threats, we have embraced sound cybersecurity measures, including upgrading to next-gen firewalls and revamping the entire network to make it more secure and resilient.

EMBARKING ON THE DIGITAL TWIN JOURNEY

Embracing Digital Twin Platform for all our business processes positions us competitively. The journey of digitally transforming Enterprise Data Management, Advanced Process Control, Asset Performance Management, Asset Information Management, Predictive Maintenance, Intelligent 3D Models development and integration of all functions with RPA (Robotic Process Automation), Analytics, Artificial Intelligence & Machine Learning Models, etc. is a key enable for seizing on new growth opportunities. Digital Twin platform helps optimise our business processes, establishing cross-functional clarity to leverage best practices, improve controls and achieving superior performance. This opens the doors for enhanced visibility and transparency, utilising Digital Twin platform, as a valuable source of data insights.

ACTIVITIES PROVIDING A SENSE OF PROGRESS IN THE DIGITAL DIRECTION

- BVA: Business Value Assessments & Return of Investment Exercise are done to chart the way forward
- Different databases such as Equipment Database and MRO Database are identified and enhanced to improve outcomes
- Structures such as Asset Structure, Business Structure and Organisational Structures are identified at the Group level and configured to enhance agility across all processes
- The Maintenance & Reliability business process, along with cross-functional requirements, are identified and tested with the goal of implementing APM and other modules
- We have identified vendors specialising in APM, Analytics, Artificial Intelligence, Machine Learning, Intelligent 3D Models development and integrations. These initiatives will be pursued in a timely manner to realise our vision, ensuring optimal cost-effectiveness and benefits through thorough insightful planning
- Condition Base Maintenance such as Vibration Analysis, Risk Base Inspections, Root Cause Analysis and CAPA monitoring, are being implemented. The next phase of improvement is targeted to be implemented through continuous monitoring
- Given the current level of operations and diverse range of plants and sites within the Group, we are adopting a phased implementation approach. The aim is to ensure a smooth and seamless transformation while addressing all change management aspects, including the specific business requirements of each site

CASE STUDY

Advanced Process Control (APC)

A leap towards intelligent plant operations

We have successfully implemented Advanced Process Control (APC) at our **Cumene and Phenol Plants** located at Dahej, Gujarat - India. We have also implemented & demonstrated the successful operation of an APC controller for a very complex and challenging to optimise - “cleavage reactor” section of the phenol plant, which very few peers have implemented in the world.

APC is an **intelligent** and active software layer above the regulatory control layer that treats an entire process unit as a single, multivariable system and corrects for predicted future errors using an empirical model. APC controllers include an integrated optimiser that pushes the processing unit toward its most profitable state by solving for the maximum value of all economic variables in each iteration.

APC has four significant features:

Multivariable –
which helps coordinate and decouple the effects of interactions among multiple process variables

Model-predictive –
APC uses dynamic models to predict process behaviour in the future and this information is then used to proactively control the process and correct future errors.

Constraint Aware –
Monitoring and maintaining process variables within limits

Optimised –
Integrating optimisation capabilities to drive applications toward specific design objectives.

Key benefits achieved after APC implementation at Phenol & Cumene Plant at DPL:

Increase in production by **2.0 – 3.5%**

Reduction in chemicals, energy consumption & material loss by **1.0 – 10%**

Significant reduction in standard deviations by **2.0 – 70%**

Sustained quality at different plant loads
Reduction in operator intervention by **> 50%**

>625 tonnes of CO2 reduction – Enhanced green index

Autonomous operation of plants with minimal operator intervention, **enhanced safety of the plants** Utilisation of quality data to prepare **an accurate inferential model** instead of utilisation of an online GC analysers

FOCUSSING ON PROCESS SAFETY

- A specialised process safety team at DRDC, evaluates chemical processes to ensure safe operations
- Conducts in-house analyses using ARC, DCS and RC methods, including gas evolution analysis
- The team collaborates with third-party laboratories to generate safety data, particularly for powder safety assessments

More than five workshops focussed on general safety awareness and process safety were organised during the year, with participation from various functional teams across the Deepak Group. These workshops introduced the key features of process safety relevant to the Deepak Group's expertise. During the workshops, detailed explanations were provided on various aspects of process safety and process scale-up. This training aims to help our teams develop processes with a strong emphasis on scalability and safety, starting from the lab.

DRDC – POWERING INNOVATION

Our state-of-the-art Deepak Research and Development Centre (DRDC), located in Nandesari, Gujarat serves as a centralised hub for our innovation capabilities. Recognised by the Department of Scientific & Industrial Research, Government of India, DRDC specialises in innovating sophisticated technologies. It features state-of-the-art process engineering lab, a kilo lab and a process intensification lab, essential for scaling-up products development. Utilising the Design of Experiments (DOE) methodology and a specialised software for screening and optimisation, we expedite our development process and enhance the efficiency of lab scale development.

We have invested in flow reactor, flow meters, etc. under Process Engineering Research & Innovation (PERI), to support new technology platforms and continuous process development. To enhance synthetic chemistry, we have also invested in acquiring analytical tools such as Gas Chromatography (GC), Gas Chromatography/Mass

Spectrometry (GCMS), High Performance Liquid Chromatography (HPLC), Liquid Chromatography/Mass Spectrometry (LCMS), Ultra Performance Liquid Chromatography (UPLC) and Ion Chromatography (IC). We have undertaken the expansion of our analytical lab to house these instruments, reinforcing our innovation capabilities. We have Pilot Plants to scale up technologies.

NEW R&D FACILITY AT SAVLI, VADODARA

The Company is also building a state-of-the-art R&D Centre at Savli, Vadodara, which is scheduled for completion by March 2025. This cutting-edge facility will house advanced laboratories and pilot plants dedicated to fostering innovation in chemical research, with a strong emphasis on sustainable and environmentally friendly processes. By uniting top-tier scientists and industry experts, this R&D Centre will become a hub for innovation, driving the development of new products and technologies that align with our growth strategy and advance the chemical industry in India.

Bridging innovation and production with state-of-the-art pilot plants

Our cutting-edge pilot facilities, strategically located in Roha, Maharashtra and Nandesari, Gujarat, are pivotal for transition of our R&D activities into the commercial production of intermediates for various industrial applications such as agrochemicals, dyes and pharmaceuticals. These pilot facilities feature state-of-the-art infrastructure, stainless steel and glass-lined reactors and distillation columns for both gas and liquid raw materials. Moreover, they are fully equipped with cutting-edge instruments, a Distributed Control System (DCS) and essential utilities such as chilled brine, low-pressure steam, cooling water, temper water and more. These set-ups enable us to seamlessly deliver high-quality products.

Technology Innovation

We are extensively involved in developing new technology platforms to enhance our product capabilities.

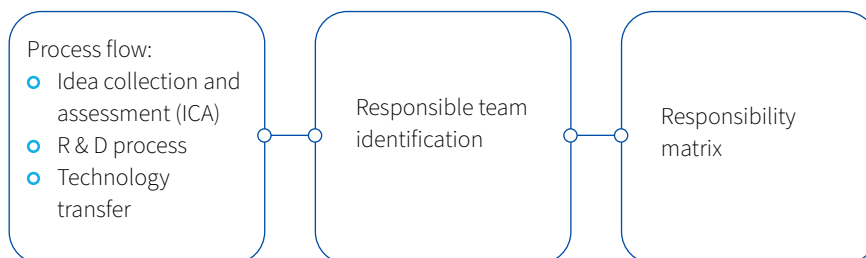

At present, our focus lies on advancing fluorination and photochlorination chemistry, as well as high-pressure oxidation reactions for acid formation and gas-solid reactions for pharmaceutical applications. To achieve the same, the R&D members have undergone specific training both externally and through on-the-job training provided by in-house experts. This approach aims to increase the number of well-trained individuals in specialised areas. For instance, the scale-up of in-house developed catalysts is conducted at third-party facilities, where the R&D team gains an understanding of the unique aspects of this scale-up process, which differs from typical chemical scale-up activities. To advance this, we've set up a pilot facility tailored for vapor phase processes. Additionally, we've introduced laboratory-scale CSTR

setups to enhance yield and quality while lowering operational costs. These setups facilitate conversion from batch mode reactions to continuous mode, achieving batch efficiency and cost-effectiveness in our operations.

In addition to our cutting-edge research and pilot facilities, we have advanced literature search tools such as SciFinder and engineering tools like Mixit and ASPEN. These resources enable our team to stay abreast with the latest developments in the scientific fields.

DEVELOPMENT OF IDEA TO PLANT PROCESS (ITP)

The concept of ITP

The Technical Organisation plays a vital role in ensuring the efficient progression of ideas for developing sustainable processes and transitioning them into the manufacturing plant. The Idea To Plant process (ITP) involves a comprehensive evaluation undertaken by the dedicated technical team. The evaluation encompasses thorough review of the entire process, from idea generation, through technical development and up to the eventual production plant. The

activities are meticulously mapped and the relevant documents are formalised to ensure smooth flow of information and tasks. The ITP project defines the technical processes, determine the necessary infrastructure and establish a document system to support the entire process. Additionally, extensive safety reports covering both chemicals and processes are included, ensuring a clear understanding of potential hazards and requisite safety protocols.

STREAMLINING ITP TRIALS THROUGH DIGITALISATION

- Implemented a secure web-based suite of tools for enhanced data management
- The suite enables efficient handling of data from initial ideas to commercial trials
- Stores data in a structured format facilitating organised information and easy search
- Prevents knowledge loss and facilitates seamless information flow within the organisation

ADVANTAGES OF ITP TRIALS THROUGH DIGITALISATION

- Auto curate dashboards to connect Board rooms to Laboratory
- Digitised documentation of lab records in an online format
 - Formats designed to extract data/information
 - Reports and presentations created by system through aggregation
- Ensures data integrity, security and traceability
- Significant reduction in the time spent by scientists in preparing management reports
- Open and transparent information about availability of R&D team
- Fortnightly reports, subsequently reducing the time in technical reviews
- Eliminates orphan data points and ensures complete audit trail and traceability

Cybersecurity in the Digital Transformation Age

In today’s digital-first environment, the importance of cybersecurity cannot be overstated. Deepak Group is at the forefront of integrating robust cybersecurity practices to protect data integrity, ensure operational stability and mitigate emerging risks. As we navigate through rapid technological advancements, the priority remains clear: strengthen cybersecurity frameworks to keep pace with digital transformation.

CYBERSECURITY AS A RISK MITIGATION STRATEGY

Cybersecurity Infrastructure

- Robust firewall systems
- Intrusion detection and prevention systems
- Strong authentication mechanisms
- Encryption technologies

Business Continuity Planning

- Regular backups
- Redundancy measures
- Disaster recovery strategies

Employee Cybersecurity Awareness

- Regular training sessions
- Awareness campaigns - Best practices, data protection, potential threats

Compliance and Regulatory Standards

- Data protection regulations
- Privacy laws
- Cybersecurity frameworks
- Frequency of compliance audits and assessments

Incident Response

- Incident response team
- Communication channels
- Documented processes for containment, investigation and recovery

STRATEGIC CYBERSECURITY ENHANCEMENTS

Our approach involves a dynamic blend of advanced technology investments and comprehensive strategy implementations. These measures are crucial for ensuring operational resilience and maintaining trust within our digital ecosystems. The infrastructure at Deepak Group is fortified with state-of-the-art firewall systems, intrusion detection, prevention systems and stringent access controls. We employ cutting-edge authentication and encryption technologies to secure sensitive data and reduce the likelihood of breaches.

CULTIVATING A SECURITY-MINDED WORKFORCE

Employee education is a cornerstone of our cybersecurity strategy. Through ongoing training and awareness initiatives,

we equip our employees with knowledge of best practices and emerging threats. This proactive educational environment helps cultivate a security-first culture, empowering our staff to act as the primary defence against cyber threats, including sophisticated phishing and social engineering attacks.

INCIDENT RESPONSE AND CONTINUITY PLANNING

Preparedness is key to managing cyber incidents. The Deepak Group has established a comprehensive incident response protocol, featuring a dedicated team, streamlined communication strategies and a systematic approach to containment, investigation and recovery. Our commitment to business continuity is underscored by regular system backups, redundancy plans and robust disaster

recovery frameworks. Our Security Operation Center (SOC) plays a pivotal role, continuously monitoring and responding to threats, ensuring that our defences are both proactive and reactive.

COMMITMENT TO COMPLIANCE AND STANDARDS

Adherence to compliance and regulatory standards is a fundamental aspect of our cybersecurity agenda. Deepak Group consistently aligns its operations with the latest data protection regulations, privacy laws and cybersecurity frameworks. Regular audits and assessments help us stay compliant and refine our strategies to meet evolving legal and ethical obligations.

INSTALLATION OF CENTRAL CCTV CONTROL ROOM AT CORPORATE OFFICE

Introduction

Deepak Group has established a state-of-the-art centralised CCTV control room for monitoring of all the sites at the corporate office.

This initiative will ensure:

- Live monitoring of all Deepak Group Sites by respective SBU Heads/Corporate HODs (only at Central Control Room)
- Investigation of an incident at Corporate Level
- AI Alerts for Fire & Smoke and Perimeter Intrusion

Benefit of New Concept

- Enhanced Security Operations leading to productivity with 24X7 Monitoring
- Increased efficiency level
- Increased reliability
- Reduction of human error
- Decrease in sabotage / pilferage attempts
- Smooth and uninterrupted monitoring
- Deterrent to mischievous elements in plants
- More secured environment for all plants
- Building reputation
- Real-Time Response against deviations
- Incident investigation & live monitoring
- Sites can be shown to VVIP and visitors from Corporate office, if required
- Alerts on Fire, Smoke & Perimeter Intrusion Detection can be received at Corporate Central CCTV Control Room
- Frequent Monitoring by SBU Heads & Corporate HODs
- Assists in defining central policies for Deepak Group

TURNSTILE SYSTEMS

Security is a rising concern in the world today i.e., hackers accessing valuable information to intruders threatening the safety of people and property. With an aim of controlling access to premises by contract workers, visitors, etc. turnstile systems were installed & implemented across all sites. Turnstiles provide superior access control by both detecting and deterring unauthorised entries & exits. In addition, contractors billing is done directly through the records generated from turnstile system.

DIVERSITY EQUITY AND INCLUSION (DEI)

We are an Equal Opportunity Employer (EOE) and embrace workforce diversity while attracting and retaining our people. We are committed to nurturing a diverse and an inclusive workplace fostering innovation and community involvement.

We have identified five pillars of diversity and inclusion, around which our top management drives DEI efforts for the Deepak Group.

1. Brand Image and Communication

- Presenting ourselves as an equal opportunity employer in all our recruitment communications
- All our corporate communications have a reference to Deepak Group being EOE

2. Culture Building/Awareness

- Monthly meeting were done with the Leadership team and the SBU heads to have high level corporate leadership involvements and formal commitments
- Townhalls on DEI done across all locations of DNL with the direct communication between the CEO and the Board Members and all the DNL employees
- Employee Resource Groups formed and FGDs done to make inclusive goals towards DEI

3. Ecosystem

- Rolled out DEI Policy for Deepak Group
- DEI Council which is a three-tier committee finalisation lead by our Top leaders and Directors
- Hire to retire career progression plans

4. Administration and Infrastructure

- Identified the area for infra improvements to make the buildings more accessible and meet the needs of diverse workforce

DEI Cross-Functional Team

Deepak Group has constituted a Cross-Functional Diversity, Equity and Inclusion (DEI) team, comprising representatives from various functions. The team conducted an internal analysis and put concerted efforts to assess the current DEI state within the organisation. They subsequently apprised the management on the DEI analysis along with the recommendations for the future course.

DEI INITIATIVES IN FY 2023-24

- Women's Day celebration in 2024 themed "Inspire inclusion", emphasised on diversity and empowerment across all aspects of society
- Restructured the Internal Committee (IC)
- Initiated the standardisation of the Group policies' to incorporate inclusivity and equity
- Introduction of Paternity Leave
- Introduced DEI Policy at Group level demonstrating the leadership commitment towards DEI and zero tolerance for discrimination
- Active promotion of women's participation in exhibitions and awards and conclaves
- Organised focussed group discussions and Grace and Grit sessions, fostering sharing of experiences and learnings from each other
- Encouraged participation from diverse teams inclusive of both female and male employees in engagement initiatives such as Master Chef competition

Employee Engagement

We are committed to nurturing a workplace where the sense of belongingness can thrive within our employees. We conduct several engagement initiatives to keep our employees motivated and engaged.

- Creating awareness among employees to volunteer in CSR initiatives
- Promoting job rotation and upskilling of employees through Internal Job

Postings (IJPs) and providing training/ assignments on varied topics

EMPLOYEE ENGAGEMENT INITIATIVES IN FY 2023-24

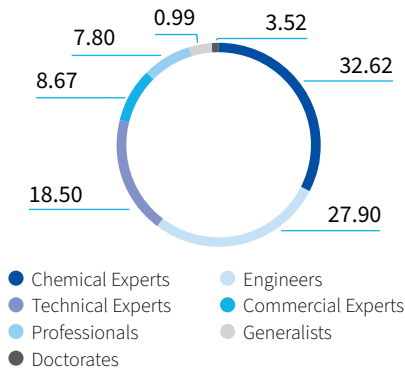

- Interface with leadership through “Coffee with CEO”
- Implemented a higher Education policy to provide assistance for higher studies
- An employee engagement action plan, based on the Employee Engagement Survey (EES) findings, is under implementation to enhance the engagement practices in future
- Taking concerted steps to improve the EES score and monitor the employee engagement practices on a regular basis
- Strengthening the Performance Management System (PMS) enhance objectivity and transparency

DEVELOPING YOUNG TALENT FOR CAREER IMPACT

The Deepak Group consistently attracts young talent from the universities and professional institute campuses, every year. The intake of Campus Trainees at the Company is steadily increasing, with a focus on grooming them for impactful roles that foster career development.

- The Campus Trainees of batch 2023 received comprehensive training and practical exposure, undergoing performance evaluation through regular assessments
- Two Campus Trainees joined DNL teams at the National Safety Convention (NSC), which won two gold medals in a national-level competition, bringing pride to DNL

Health and Safety

We have established a robust Health and Safety policy that guides and integrates our health and safety framework across all operations ensuring the wellbeing of our employees and stakeholders. Our HSE management systems, aligned with ISO 45000 and ISO 14001 standards, have been integrated across all locations and follow the Plan-Do-Check-Act cycle for continual improvement. We have set measurable OSH objectives and stringent safety protocols and procedures across all locations, assessed through regular audits and inspections to ensure compliance with safety standards and identify improvement areas. We have implemented HIRA (Hazard identification and Risk Assessment) system, as part of Integrated Management System (IMS), with clearly defined responsibilities, accountabilities and authority of persons who identify, evaluate or control OSH hazards and risks. HIRA framework enables proactive identification of work-related hazards, helping us

eliminate or control potential risks before they escalate into safety incidents. At Deepak, OH & S is considered as line-management responsibility, with periodic reviews from the Top leadership on the performance of the OHS management system. We foster cooperation and communication among the employees, workers and

their representatives, for effective implementation of organisation's OHS management system.

CSR VISION

To remain a responsible corporate entity mindful of its social responsibilities to all stakeholders including consumers, shareholders, employees, local community and society at large.

As a responsible corporate citizen, we ensure that our communities are not left behind in the path to development. With our CSR footprint spanning many states in India, we strive for equitable development for underserved communities. We have established a comprehensive CSR policy that guides our CSR efforts to empower primarily the communities around our plant and offices, along with the urban, rural and tribal communities, based on the outcome of needs assessment. At DNL, we channelise our CSR efforts through the Deepak Group's CSR arm, the Deepak Foundation, that fulfils our CSR agenda aimed at empowering those at lowest rungs of the socio-economic pyramid.

CSR OBJECTIVES

- Enhance the quality of life of the communities surrounding the plant and offices
- Integrate social goals and address the stakeholders' aspirations for sustainable development and inclusive growth
- Create a positive impact by sustainable development of the society and environmental-friendly practices
- Demonstrate corporate responsibility by creating a safe, harmonious and ecologically balanced environment for broader communities
- Maintain a commitment to quality, health and safety in all aspects related to the business and people
- Fulfil 4 out of the 5 P's outlined in the Sustainable Development Goals (SDGs): Planet, People, Prosperity and Peace

Deepak Medical Centre – Construction and Renovation of Hospital Building of Medical Care Centre Trust

Medical Care Centre Trust ('Trust'), also known as Kashiba Children Hospital has been devoted towards serving the underprivileged people of Vadodara, Central Gujarat and neighbouring states of Madhya Pradesh, Rajasthan and Maharashtra. For the past four decades, it has provided medical care to more than 2.5 Million children, either

free or at very subsidised rates. The hospital offers several medical facilities including Paediatric Cancer Department, Paediatric Intensive Care Unit, Neonatal Intensive Care Unit, Apang Shishu Kendra (Specially-abled children centre), Shri Jalaram Blood Centre – Regional Blood transfusion centre, Cleft lip and

palate restoration centre under the 'Smile Train' Project.

The Trust approached Deepak Group for support for construction of new Hospital building and repair & renovation of their existing hospital buildings. Deepak Group, through Deepak Phenolics Limited and Deepak Nitrite Limited, has been supporting the Trust in constructing their new hospital building and carrying out repairs and renovations of existing hospital buildings. The construction of new hospital building is nearing completion and is set to be operational in this calendar year. Honouring Deepak Group's contributions, trustees of the Trust have named their campus as 'Deepak Medical Centre'. The centre will be equipped with advanced medical facilities and serve as an integrated medical facility for patients from Gujarat, Maharashtra, Madhya Pradesh and other neighbouring states.

Integrated Efforts Towards Elimination of Tuberculosis by 2025

The Government of India has been working relentlessly towards elimination of TB since 1962. Under its National Tuberculosis Elimination Programme, the government holds a vision of eradicating Tuberculosis by 2025. Since February 2023, Deepak Phenolics Limited, through Deepak Foundation, initiated a program for Integrated efforts towards TB elimination by 2025, to play a catalytic role in fulfilling government's TB eradication mission.

Nidaan Van

It is estimated that around 8.6% of India's total population resides in tribal areas, which do not have much access

to available care services for TB and other diagnostics at nearby health centres. With an objective of improving access to diagnostic care services for patients in tribal locations, major thrust of the initiative is to provide last-mile TB diagnosis facility at doorstep. Thus, the concept of Nidaan Van was devised.

Nidaan Van has been very useful in providing quality diagnostic services underprivileged and hard to reach areas where diagnostic facilities/providers are non-existent, non-functional or inaccessible.

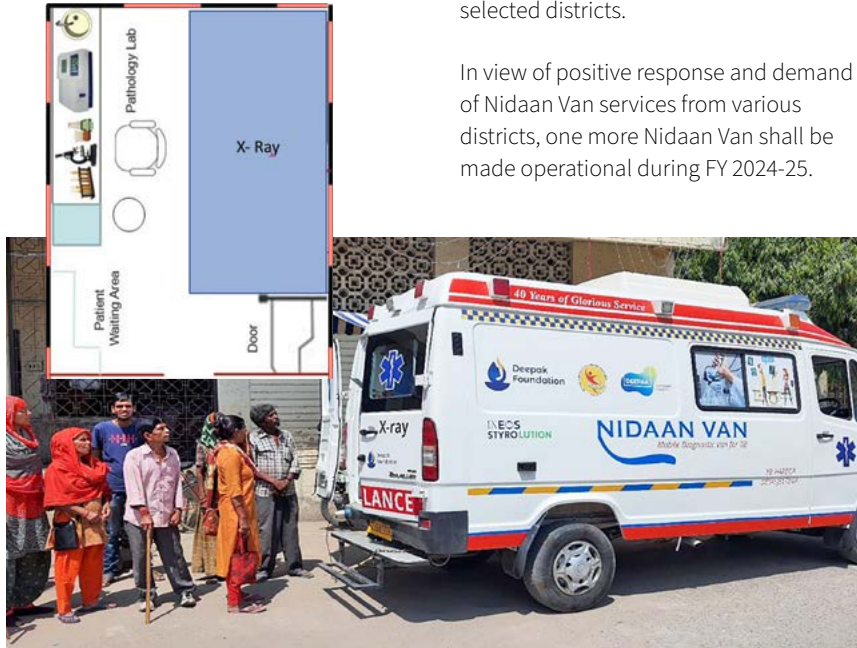

Besides improving accessibility of diagnostic services for underserved tribal and rural communities, the Nidaan Van has also acted as early diagnosis of disease and timely referral of the patients which has resulted in reduced the morbidity & mortality.

The Nidaan Vans offer free diagnostic services including TB Screening through Artificial Intelligence-based Chest X-Ray, Nucleic Acid Amplification Testing (NAAT), Hyperglycaemia screening, HIV Screening, Haemoglobin testing and Eye testing. The diagnosis is followed by referral for the treatment for the identified patients, at nearest Health Care Facilities.

Currently Two Nidaan Vans are operational in five states – Gujarat, Haryana, Madhya Pradesh (MP), Rajasthan and Maharashtra. In Gujarat, the Nidaan Van was initiated

in the districts of Vadodara, Bharuch and Chhota Udepur and later as per demands from different districts, it has been truly mobile for almost any part of the State of Gujarat. In Maharashtra, it is serving districts of Palghar and Roha. In MP, the services of Nidaan Van are available in 22 selected districts.

Layout of Nidaan Van

In view of positive response and demand of Nidaan Van services from various districts, one more Nidaan Van shall be made operational during FY 2024-25.

Outcomes of Nidaan Van Services:

- 02 Nidaan Vans covered 219 villages across 5 states and 13 districts
- 23,411 beneficiaries impacted
- 11,500+ beneficiaries underwent x-ray screening, with 95 test positive for TB and 388 identified as TB Presumptive (AI)
- 250+ Nucleic Acid Amplification Tests (NAAT) conducted, revealing 7 cases infected with Mycobacterium tuberculi (MTB)
- Around 18,000 eye investigations carried out, with 12,627 diagnosed for refractive errors and 617 suffering from ocular conditions
- 5,600+ Hb screenings conducted
- 12,600+ DMS testing done with 2,430 individuals identified as Hyperglycaemic
- 8,700+ HIV testing done with 16 individuals identified as reactive

INTEGRATED CHILD DEVELOPMENT SCHEME (ICDS) FOR PRE-SCHOOL EDUCATION

ICDS, a centrally sponsored scheme and a leading government programme of India, aims to promote early childhood care and education, to enhance the nutritional and health outcomes in children < 6 years and to reduce the mortality, morbidity, malnutrition and school dropout rates.

The Department of Women and Children, Government Gujarat, tasked the Deepak Foundation to supervise and overhaul the Anganwadi Centres (AWCs) under two Primary Health Centres (PHC) of Sankarda and Angadh in Vadodara Rural Block, Gujarat. DNL supports the foundation in carrying out these tasks in the rural blocks.

Aim of Deepak Foundation under ICDS Project:

- To align with the targets set by National Nutrition Mission - Poshan Abhiyan and school readiness index, for improving nutritional status of children < 5 years of age. A host of value-added services include innovative Early Childhood Care and Education (ECCE) inputs, medical check-ups, screening for nutritional status of children, identification of early developmental delays, providing medical treatment to malnourished children, uniform distribution, refurbishment work and infrastructure development in 8-10 Anganwadi centres annually.
- Under the guidance of the National Education Policy-2020, elevate the Anganwadi Centres through high quality infrastructure, interactive learning walls, child friendly and educative spaces that promote good hygiene and health and encourages children and their parents to avail the Anganwadi services.

Project highlights

- **67** Anganwadi Centres covered and 9 Centres refurbished
- **67** Anganwadi workers capacitated
- **97%** Students enrolment (1,959 students)
- **1,320** quality ECCE Sessions
- **96%** beneficiaries i.e., 1,891 children in age group 3 to 5 years, benefitted through school uniform distribution
- **8,000** average beneficiaries per month received supplementary nutrition at Anganwadi Centre
- **93%** beneficiaries, i.e., 3,721 children below 5 years of age received annual health screening
- **150** Severely Acute Malnourished/Moderate Acute Malnourished children received regular paediatrician check-up through DMF

NANDESARI HOSPITAL BY DEEPAK MEDICAL FOUNDATION

Established in 1982, Deepak Medical Foundation (DMF), Nandesari, offers a comprehensive 28-bed multispeciality hospital with various OPDs, IPDs, diagnostic services, pharmacy centres, 24x7 Emergency services, ICU services,

Operation Theatres, Ambulance services, etc. supported by specialist doctors and well-trained medical staff. These services are provided to the communities in and around the industrial belt of Nandesari, Vadodara, Gujarat, at very subsidised rates, making healthcare affordable and accessible to them.

- **12,139** patient diagnosis conducted with 1,011 diagnoses on an average per month

PROJECT VIVEK VIDYA

Project Vivek Vidya is a “conceptualised Mobile Education Service” that supports the children from marginalised communities grappling with low educational outcomes due to inadequate access to quality reading and learning materials. The programme develops their cognitive and non-cognitive skills through strategic educational interventions and blended learning approach, bringing down the school dropout rates. The project propagates the objectives of the National Education Policy-2020 by enhancing holistic learning competencies of children in the age group 6-15yrs, through storytelling, fostering verbal proficiency & listening skills, vocational skill building, parents counselling, etc.

At present, the project is being implemented at 4 locations including

peri-urban area of Nandesari and rural area of Savli in Vadodara district, Gujarat, Roha tribal area of Raigad district, Maharashtra and sub-urban industrial area of Jeedimetla on the outskirts of Hyderabad, Telangana.

The project also involves training & empowering the local community women to become Vidya Sathis, who assist as education facilitators in the project to educate children within their villages/ communities.

This year, the project started the Music-vocal and instrument coaching classes for the children of classes 5th to 8th, familiarising them with musical instruments, nurturing their latent interests, nudging them into the field of music and preparing them to showcase their talent through public performance.

Project Highlights in FY 2023-24

- **8,257** Children enrolled under Project Vidya
- **350+** Vidya Saathis trained till date with 120+ Vidya Saathis trained in FY 2023-24
- **7,547** Children issued books
- **7,454** Children attended story-telling sessions
- **7,458** Children attended Remedial Input Sessions
- **7,476** Children completed workbook practice
- **200** Children enrolled in Music coaching
- **2,072** Children skilled through vocational training
- **6,600** Parent's Counselling Sessions conducted

SAMAJ SURAKSHA SANKUL

Samaj Suraksha Sankul is a residential cum support childcare institution, formed with public-private partnership between Department of Social Justice and Empowerment, Government of Gujarat and Deepak Foundation. The Sankul provides comprehensive support

to the children with disability and special needs as well as the destitute children in and around Vadodara and equips them with education, adequate healthcare, rehabilitation, extracurricular and independent living skills, thereby enabling them to lead empowered lives.

Deepak Group supporting project Sangaath at Vadodara and Chhota Udepur district of Gujarat and Palghar, Pune and Raigad district in Maharashtra. The project facilitates the convergence under various social welfare schemes of the government to enhance their utilisation. We supported the eligible beneficiaries in the application process and successful submission in respective government departments.

Project Highlights

- **190+** villages covered covering 43,280 households
- **1,08,000** Project beneficiaries
- **₹ 3,217** Crores facilitated as convergence amount
- **7,500** schemes applications were facilitated that providing agricultural tool kits and livestock to improve the livelihoods of the beneficiaries
- **78,696** applications of PRDs were submitted, 69,945 (89%) were approved
- **80,019** scheme applications were submitted, 72,018 (90%) were approved

Impact Story

EMPOWERING TRIBAL WOMEN THROUGH THE CLEAN ENERGY-BASED COOKING SOLUTION

Traditional cooking methods used by tribal women in Mokhada had huge reliance on wood as the cooking fuel. This not only poses serious health risks due to smoke inhalation but also degrades the environment through deforestation. Deepak Foundation's Sangaath Mokhada team is empowering these tribal households by providing innovative clean energy-based cooking solutions and free LPG connections, concurrently as Pradhan Mantri Ujjwala Yojana (PMUY) extends this support to families living in rural areas.

Implementation

Under the PMUY, eligible households receive:

- A free LPG connection with three free gas cylinder refills
- A subsidy of ₹ 400 for subsequent refills

Project Highlights

- **180** applications processed in FY 2023-24
- **7** villages benefitted
- **86** women's application were sanctioned
- **₹ 5.16 Lakhs** worth of convergence amount facilitated the LPG gas connections

Skill Building and Livelihood

Deepak Nitrite supports several skill building and livelihood initiatives implemented by the Deepak Foundation, to create economically empowered communities. During FY 2023-24, we touched lives of 8,131 community beneficiaries through Gram Jal Sanchay, Surabhi, Income Generation Activity and Skill building activities.

Project Surabhi (Integrated Animal Healthcare Centre)

- Support daily farmers by providing high-quality feed and fodder at subsidised rates
- Boost per capita milk availability through efficient dairy management practices
- Offer timely and responsive services customised to suit the needs of dairy farmers
- Provide prompt artificial insemination services with both conventional and sexed-semen straws

- Proactive vaccination measures reducing vulnerability in milch animals and calves
- Mitigate financial losses from reduced milk yield or animal mortality through prompt veterinary first aid services
- Provide doorstep breeding facilities, shortening inter-calving periods
- Address infertility issues through organised camps and treatments
- Educate and empower dairy farmers on cutting-edge animal management practices

Impact

- **5,123** beneficiaries
- **46%** increase in beneficiaries' profits due to reduced animal care costs and increased milk yield
- **684** AIs performed out of which 117 AI done with sex sorted Semen
- **87%** success rate of "Selective Semen" Artificial Insemination process

PROJECT GRAM JAL SANCHAY

- Promote efficient water use and irrigation techniques such as micro irrigation in agriculture with 100 farmers, through scientific practices
- Undertake construction of water harvesting structures and small farm ponds (Jalkund) in identified villages, to enhance water storage and availability for agriculture and domestic purposes

- Promote effective community engagement for better water governance and elevate awareness regarding efficient use of water
- Increase the area under cultivation and promote cultivation of fruit saplings near Jalkunds, providing a sustainable source of income for the farmers

Project Highlights

- **180** Farmers benefitted
- **90** Farmers provided technology intervention for drip irrigation
- **45** acres of barren transformed through plantation
- **20-30%** increase in farmer's annual income resulting from drip and cost savings on labour and energy bills for irrigation
- **90 Lakhs litres** of water storage capacity created for year-round use

OUR MARQUEE CUSTOMERS

Customer Relationships

Our relationship with our customers is based on trust, transparency and mutual respect. We prioritise customer satisfaction. Our core focus is to understand the customer needs, develop high quality products and maintain transparency with them. We are also striving to transform our processes digitally to drive process efficiencies and innovation, positioning us as a preferred partner of choice. We are consistently focussing on surpassing customer demands and expectations and forging enduring relationships with them.

Key Highlights

- **1,500+** Customers
- Majority repeat customers
- Long-term customers relationship
- **45+** Countries served
- **34** High Value Products
- **56+** Applications

DELIVERING QUALITY AND CUSTOMER DELIGHT

- Adhering to the IS standard globally and certified by BIS/REACH registered
- Long-term contracts with key customers and adhering to the terms
- Ensuring timely and best quality of products as per customer needs on a consistent basis
- Robust pricing strategies ensuring a win-win situation

CUSTOMER GRIEVANCE MECHANISM

We have instituted a robust grievance redressal mechanism that enables our customers to raise their concerns, make themselves heard and seek effective resolution within the stipulated time. We ensure that the customer feedback is incorporated to make our products and services better.

Suppliers

Forging strong ties with our suppliers is extremely vital for us to ensure a steady supply of raw materials to ensure uninterrupted business operations. We are committed to engaging with them to foster sustainable supply chain operations.

Supply chain highlights in FY 2023-24

- 3,000+ suppliers
- 38 vendors assessed on ESG parameters

KEY PRIORITIES

- Local sourcing of materials/services to keep a check on the environmental footprint
- To increase share of sustainable sourcing in total procurement

APPROACH TO SUPPLY CHAIN MANAGEMENT

Deepak Group’s Sustainable Procurement Policy guides the SCM operations by placing supply chain integrity at the core while emphasising on environmental & social aspects right from the sourcing of raw materials/services to product disposal/deliveries.

The Company aims to be recognised as a “Global Strategic Partner of Choice” by fostering collaboration with an extensive global network of suppliers. We prioritise compliance with legal and regulatory standards, ethical conduct, diverse supplier engagement and environmental sustainability, to carry sustainable supply chain operations.

SUPPLIER CODE OF CONDUCT

We have established Supplier Code of Conduct, clearly outlining the principles of conduct for sustainability parameters that our suppliers are strictly expected to adhere with.

MANAGING SUPPLY CHAIN RISKS

We have laid down a systematic process for identification, assessment and management of the supplier-related risks. Our risks assessment framework factors financial stability, geographic location, statutory compliance, product quality, sustainability and supply chain resilience. Our approach to proactive assessment of risks and its mitigation involves mapping of demand-supply situation, assessment of market repute of the suppliers and interacting with them regularly. We

ESG ASPECTS OUTLINED IN SUPPLIER CODE OF CONDUCT

evaluate the impact of assessed risks periodically and develop new vendors to expand our supplier base and rule out dependencies on monopolistic suppliers, as a part of our risk mitigation strategy. Our Supply Chain Management team regularly conducts risk assessment.

INTEGRATING ESG INTO SUPPLY CHAIN

Our supply chain operations are bound by our Sustainable Procurement Policy and practices that promote ESG compliance across the supply chain. The suppliers

are evaluated based on their performance on various ESG parameters such as environment, health & safety policies, compliance on labour laws, disciplinary practices and other social and governance aspects. We have a comprehensive vendor assessment questionnaire encompassing major aspects of business, ethical conduct and ESG.

NATURAL CAPITAL

Envisioning a climate-resilient future

Environmental conservation is a key aspect of our sustainability framework. We prioritise responsible business operations, ensuring judicious consumption of the natural resources and effective management of our environmental footprint. We are actively implementing rigorous upgrades, controls and processes in our manufacturing units to operate efficiently and sustainably.

KEY INITIATIVES TAKEN IN FY 2023-24

Emission Management

Deepak Nitrite is strategically focussing on enhancing the plant’s energy efficiencies by upgrading them with energy-efficient equipment and technology. These measures are effectively bringing down our energy consumption and emissions elevating plant’s efficiency. We are consistently increasing the proportion of renewable energy in our energy portfolio and our R&D team is striving to optimise the product yield. We are actively involved in tree plantation initiatives to offset the carbon generated by our operations. During the year, we installed a 20 TPH multi-fuel boiler utilising bagasse, husk, agro-waste and coal, aimed at reducing scope 1 GHG emission.

WATER MANAGEMENT

We have embraced the principles of reduce, reuse and recycle to define our approach to water management and water conservation.

Our Water-related ambitions

- Make our operations water-efficient
- Reduce our freshwater consumption
- Achieve water positivity
- Achieve zero-liquid discharge (ZLD) for our facilities

Our Hyderabad Unit operates as a Zero Liquid Discharge (ZLD) unit encompassing the following advantages:

- Effluents with high TDS are initially subjected to primary treatment and are processed through a multi-effect evaporator system. The concentrate effluent is subsequently directed to a fluidised bed recovery system to extract sodium sulphate salt, while the treated water is reused in the process
- Sewage is treated in the Sewage Treatment Plant, followed by processing in the Reverse Osmosis plant

In Roha and Dahej units, approximately 60% of treated water was recovered from total wastewater generated by the installation of Reverse Osmosis system.

GHG Emission

During the year, we have taken the following initiatives to promote water recovery for further reuse:

- At Nandesari Unit, a Mechanical Vapour Re-compressor has been installed to recover pure water from Nitro Toluene effluent stream
- At all locations, Reverse Osmosis system has been installed to recover water from Multi Effect Evaporator condensate

WASTE MANAGEMENT

We strive to optimise resource utilisation and waste minimisation. The waste produced during our manufacturing processes is disposed of responsibly, in accordance with the regulatory requirements outlined under Hazardous and Other Waste (Management and Transboundary Movement) Rules, 2016. We strictly adhere to the air emission standards laid down by Pollution Control Board and do not use any Ozone-depleting substances (ODS) in our operations. 100% of the plastic waste undergoes recycling through the CPCB-registered plastic waste processor (PWP), while the post-consumer waste is addressed through Extended Producer Responsibility

(EPR) management. In accordance with the plastic management rules, we are offsetting 100% of our packaging materials associated with domestic consumers in India through an external agency. The external agency facilitates collection and recycling of plastic waste in a responsible manner. The Spent sulphuric acid and Mother liquor generated from production of Nitro Toluene during Nitration Process are directed towards the manufacturing of Mix Cresol, where they are utilised as a wood preservative. 100% Fly ash is delivered to the brick and tiles manufacturer in accordance with fly ash notification.

BOARD OF DIRECTORS

Led by Exemplary Management

Shri Deepak C. Mehta
Chairman & Managing Director

Shri Deepak C. Mehta is a dedicated proponent of fostering India's industrial advancement, aiming to facilitate the growth of businesses and communities concurrently, fostering enduring value and relationships. Half a century ago, equipped with a Science degree from the University of Mumbai, he commenced his professional journey as a second-generation entrepreneur alongside his father, late Shri Chimanlal K. Mehta, delving into the exploration of uncharted domains within chemical intermediates in India. Over time, their efforts have transformed the Deepak Group into a prominent manufacturer of chemical intermediates, boasting cutting-edge facilities that offer a diverse range of more than 34 premium products, catering to over 1,500 customers across 45+ countries worldwide.

Shri Mehta's active advocacy on industrial matters in national arenas underscores his commitment to championing best practices and policies that enhance the chemical and petrochemical sector, fostering innovation, collaboration, expansion and manufacturing excellence in India for a global audience. Having held the position of President at the Indian Chemicals Council (ICC) and contributed to the 'Task Force on Chemicals Industry' established by the Government of India to bolster the competitiveness of the nation's chemical industry, he plays a pivotal role in representing and advancing the burgeoning Indian Chemical Sector. Presently, he serves as the Chairman of the National Chemicals Committee-FICCI.

His actions align closely with his beliefs as he actively supports the Corporate Social Responsibility (CSR) initiatives undertaken by the Deepak Foundation. These initiatives focus on enhancing education, healthcare, skill development and women's empowerment in rural communities spanning four states in India, positively impacting over 8,00,000 beneficiaries.

Additional accolades included the Technical Achievement Award for our innovative approach to report communication showcasing our leadership across multiple facets of corporate reporting.

Management Discussion and Analysis Report

GLOBAL ECONOMIC SCENARIO

In FY 2023-24, there were a slew of global challenges such as emergence of the Israel-Palestine conflict, continuation of the Russia-Ukraine War which disrupted shipping routes and impacted global trade exacerbating volatility in commodity prices and worsening the already rising living costs. Despite these challenges, the global economy grew by 3.2% during Calendar Year 2023. This growth was supported by factors like higher job creation, resurgence in sectors like hospitality, effective monetary policies brought in by central banks and continued impact of stimulus measures in certain countries.

In Calendar Year 2024, global economic growth is expected to be around 3.2%. Advanced economies are forecasted to grow modestly at 1.7%, while emerging markets are expected to show momentum at 4.2%. The US economy is anticipated to grow at a stable pace of 2.7%, with Europe seeing growth of around 0.8%. Despite these positive projections, challenges such as weakening employment growth, higher prices, tight credit conditions and fiscal adjustments are anticipated.

There remains optimism around stronger consumer spending due to resilient labour markets and easing inflation. Businesses are expected to focus on productivity growth, invest in advanced technologies and enhancing research capabilities. Disinflationary pressures are expected to persist, with central banks likely to pivot

towards easing monetary policies. Geopolitical tensions and fiscal consolidation remain risks to the economic outlook, with global trade flows expected to recover modestly.

Looking ahead, global growth is anticipated to remain steady but below historical levels due to factors like high borrowing costs and geopolitical tensions. While advanced economies are expected to reach inflation targets sooner, emerging markets and developing economies may encounter more challenges. In advanced economies, growth is trending upward, largely driven by revised expectations in the United States, while the euro area faces a minor setback for 2025. Expected US growth is projected to accelerate in 2024 before stabilising in 2025 due to fiscal tightening and softer labour market conditions, with the 2024 revision attributed to stronger-than-expected momentum from late 2023. Conversely, the Euro Zone is poised for a growth rebound, fuelled by increased household consumption as energy price shocks diminish and falling inflation bolsters real income. Additionally, Emerging and developing Asia's growth is projected to ease, balanced by increasing growth in the Middle East, Central Asia and sub-Saharan Africa. Low-income developing nations are expected to see gradual growth improvements as immediate growth barriers diminish. In China, growth is predicted to decelerate due to the fading effects of post-pandemic stimulus and persistent property sector weaknesses. Conversely, India is anticipated to sustain robust growth, propelled by strong domestic demand and an expanding working-age populace.

In several major economies, the downward revision to projected inflation, combined with a modest upgrade to economic activity, suggests a softer-than-expected economic slowdown.

Asia

A gradual improvement in local spending is expected across Southeast Asia in 2024. Low unemployment will continue to drive private spending, supported by reduced inflation, which will boost purchasing power. In addition to resilient household spending, this region is expected to benefit from a steady revival in tourism from earlier years as well as continued public investment in infrastructure and utilities.

Export growth in ASEAN countries has been slow due to weak demand from other global economies. However, there's a slight improvement as developed markets recover. Electronic exports are leading this recovery, but non-electronic exports, particularly linked to commodities, are sluggish. Likewise, exports of consumer goods may slow down.

Inflation is decreasing across the region, mainly due to improved supply and lower food and energy prices. Disinflationary trends are expected to continue in 2024, but there are potential risks from any reduction in agricultural output and geopolitical issues affecting supply chains or energy prices.

Steady reduction in inflation may open the door for the various Central banks in the region to commence easing of monetary policy.

Particular	Actual	Projections	
	2023	2024	2025
World Output	3.2	3.2	3.2
Advanced Economies	1.6	1.7	1.8
United States	2.5	2.1	1.9
Eurozone	0.4	0.8	1.5
Japan	1.9	0.9	1.0
United Kingdom	0.1	0.5	1.5
Other Advanced Economies	1.8	2.0	2.4

India	7.8	6.8	6.5

(IMF REPORT – APRIL 2024)

INDIAN ECONOMIC SCENARIO

India's economy performed impressively in FY 2023-24, exceeding expectations. The final figures show a GDP growth of 8.2%, driven by strong performance in the manufacturing and services sectors. This marks a significant improvement from the previous year's growth. While agricultural output faced challenges due to uneven distribution of monsoon; the stable domestic demand accompanied by continued infrastructure investments by the Government have fuelled the positive momentum. This growth cements India's position as the world's fastest-growing major economy.

India's economic transition to a modern economy is evident through increased global integration and a rise in exports. Favourable demographic changes, such as lower infant mortality rates and improved literacy rates, further strengthens India's position. With better income distribution, increased employment rates and competitive social amenities, India's per capita GDP is poised for growth in the coming years.

In the fiscal year 2024-25, there has been an 11.1% increase in capital expenditure allocation. The real investment rate remains high, reflecting the Government's commitment to asset creation. The retail price inflation in India eased to 5.09% as of February 2024, staying within the Reserve Bank of India's tolerance band.

Agricultural output growth in 2022-23 benefited from increased Rabi coverage and improved irrigation reservoirs. Higher minimum support prices and progress in rice procurement boosted rural incomes, leading to increased sales of vehicles and tractors. Strong economic activity is reflected in GST collection and e-way bill generation.

Service sector activity remains robust, with healthy PMI levels and growth in rail freight and port traffic. Capital spending by the Government has been significant, amounting to ₹ 5.9 Trillion during the initial nine months.

The Interim Budget for FY 2024-25 emphasises empowering marginalised groups, supporting farmers, fostering youth development and empowering women. The banking and financial sector remains stable, with resilient foreign direct investment and foreign exchange reserves.

India's services exports have shown strong growth, primarily led by the software and business services sector. Looking ahead, India's economic outlook remains favourable, with projected GDP growth of 7% for FY 2024-25. While challenges like geopolitical tensions and supply chain disruptions persist, efforts to enhance export competitiveness and maintain stable inflation rates bode well for India's economic future. The collective efforts invested in recent years have laid a strong foundation for India's growth as a middle-income economy.

 The landscape of the chemical industry in CY2024 is rapidly evolving, with a notable emphasis on the development of sustainable and eco-friendly solutions in alignment with global environmental initiatives.

INDUSTRY OUTLOOK AND TRENDS

The global chemical industry witnessed moderate growth in CY2023 reaching a value of USD 6.0 Trillion. This came in despite weak pricing trends in several products. Although the overall demand for chemicals remained relatively stable in CY2023, there is anticipation of increased demand for chemicals and materials essential for supporting the energy transition in 2024 and beyond. This uptick is expected due to the implementation of new Government policies and incentives, which are projected to have a significant impact on the economy.

The landscape of the chemical industry in CY2024 is rapidly evolving, with a notable emphasis on the development of sustainable and eco-friendly solutions in alignment with global environmental initiatives. Additionally, the recovery from the economic downturn induced by the COVID-19 pandemic has spurred demand across various sectors, including automotive, construction and electronics.

In CY2023, the Asia-Pacific (APAC) region emerged as the largest chemical market, experiencing a robust growth rate of 4.0% compared to CY2022. Conversely, Europe witnessed modest 1% growth despite a decline in regional production, offset by increased imports from interregional countries such as China and India. Despite challenges, China's chemical production demonstrated resilience, primarily driven by domestic demand, with predictions indicating further growth of 6.9% in CY2023 and 5.2% in CY2024.

The Chemical Industry Outlook for CY2024 underscores the emergence of Industry 5.0, which emphasises human-centricity, sustainability and advanced technology integration. Industry 5.0 represents an evolution from Industry 4.0, emphasising the synergy between humans and machines for sustainable growth. This approach prioritises economic progress in the chemical industry while addressing workers' well-being and climate change concerns.

This shift in the chemical value chain urges manufacturers to reassess technology implementation and prioritise planet-centric initiatives. In 2024, the focus lies on evaluating progress toward sustainable growth, identifying opportunities for cost reduction, enhancing product quality and strategically aligning with sustainability goals and net-zero carbon emission targets.

Emerging Mega-Trends that will impact the Global Chemical Industry

- **Green Energy:** Renewable energy sources are expected to play a significant role in the global power supply landscape, constituting over one-third of the world's power supply by 2024. This shift is supported by various positive developments, including China's projected decline in CO2 emissions driven by substantial installations of low-carbon energy sources such as wind and solar. Factors such as declining production costs, growing concerns about climate change, evolving energy policies and increasing investor pressure on Environmental, Social and Governance (ESG) policies are driving growth in the renewables sector.
- **3D Printing:** The 3D printing industry experienced modest growth in industrial additive solutions in CY2023. The current year is expected to witness robust growth in 3D printing, fuelled by the demand for mass customisation enabled by technological advancements. The integration of 5G technology with 3D printing processes will streamline workflows, while the availability of lower-cost desktop solutions will expedite adoption. Introduction of new products and services by global leaders will further stimulate market growth.
- **Use of Lightweight Materials in Next-Generation Vehicles:** The automotive industry anticipates significant growth in the adoption of lightweight materials, including advanced composites, high-strength steel and aluminium alloys, in next-generation vehicles. The market for automotive lightweight materials is projected to reach USD 101.5 Billion by 2027, with a compound annual growth rate (CAGR) of 6.5% from 2022 to 2027. Advancements in the mobility sector, including the development of autonomous vehicles, are expected to drive demand for lightweight materials. Vehicle Original Equipment Manufacturers (OEMs) such as BMW and Mercedes-Benz are poised to offer Level 3 autonomous driving capabilities in specific regions, further boosting the demand for lightweight materials. Additionally, autonomous mobility is expanding to the skies, with initiatives such as electric air taxi services planned for the 2024 Olympics in Paris. Companies like Volocopter aim to transition to fully autonomous air mobility, with aircraft designed to operate as autonomous air taxis in the future.

“ The Government aims to boost domestic production of chemicals, transforming India into a manufacturing hub by reducing imports. India’s appeal as a manufacturing destination has grown due to competitive labour costs, cost-efficient manufacturing units and recent changes in corporate tax rates.

DOMESTIC CHEMICAL INDUSTRY

The Indian chemicals industry is a vital pillar of the nation’s economy, contributing around 7% to the GDP and positioning India as the sixth-largest chemical producer globally and the third-largest in Asia. With its current contribution of approximately 2.6% to the international chemical industry, the Indian chemical sector is primed for further expansion, projected to achieve a size of USD 304 Billion by 2025, with a CAGR of 9.3%.

Aligned with the vision of the Central Government to elevate India’s status to world’s third-largest economy, the chemical manufacturing sector is set to play a pivotal role in the coming years. India’s chemical manufacturing endeavours are projected to triple their global market share by 2040, as per some recent reports.

This anticipated surge in sector growth is supported by various factors, notably an expected 20% increase in domestic consumption and a rise in demand within domestic markets from USD 850 Billion to USD 1,000 Billion by 2040.

Furthermore, the chemical and petrochemical industry in India holds a crucial position within the broader landscape of the nation’s manufacturing sector and economic advancement. It serves as a lynchpin in fulfilling fundamental societal needs and enhancing the quality of life for citizens, exerting significant direct and indirect impacts across diverse industrial segments including agriculture, food and beverages, textile, rubber, petroleum refining, among others. Consequently, the performance of the chemical industry is intricately linked with the Manufacturing Sector’s Index for Industrial Production (IIP).

STRATEGIC EMPHASIS: MINIMISING DEPENDENCY ON IMPORTED CHEMICALS

The Indian speciality chemicals sector has been projected to achieve 6-7% revenue growth in fiscal 2024, primarily driven by robust domestic demand, which constitutes about 60% of total revenue. Despite macroeconomic challenges in the US and Europe tempering export performance, domestic volume growth will propel overall revenue. However, realisations are anticipated to remain flat this fiscal, moderating the overall revenue increase. India has also emerged as a significant contributor in global dyes production, with a market share of approximately 16% of the world’s dyestuff exports. The domestic chemical industry covers around 80,000 commercial products, employs over two Million people and makes up 3.4% of the global chemical industry.

The Indian chemical industry has been focussing on capacity expansion due to increasing demand from end-user industries such as pharmaceuticals, food, construction, electronics, dyes and pigments, among others. The demand for a wide range of cosmetic chemicals, health care goods and hygiene products that contain speciality chemicals has also picked up. As a result, capital spending by companies within the sector is expected to continue its upward trend.

However, the industry faces challenges such as inadequate infrastructure, high costs of raw materials, expensive capital and the need for facility modernization. The Indian speciality chemical industry depends on imported raw materials, such as crude oil and natural gas, which are subject to price fluctuations and supply disruptions. The rising prices of these raw materials have squeezed the margins of the Indian speciality chemical companies, while the supply disruptions have affected their production and delivery schedules.

To address these challenges, the Indian Government has introduced initiatives like Aatmanirbhar Bharat and Make in India. The Government aims to boost domestic production of chemicals, transforming India into a manufacturing hub by reducing imports. India’s appeal as a manufacturing destination has grown due to competitive labour costs, cost-efficient manufacturing units and recent changes in corporate tax rates.

In conclusion, the Indian chemical industry has been growing significantly, with a focus on capacity expansion and export opportunities. However, the industry faces challenges such as high raw material prices, supply disruptions and inadequate infrastructure. The Indian Government has introduced initiatives to address these challenges and promote domestic production of chemicals.

STRUCTURAL GROWTH DRIVERS FOR INDIA

1. **Supply Chain Dynamics Shift** - Recent geopolitical events, such as the Russia-Ukraine conflict and trade restrictions on China, have prompted major multinational corporations to diversify their sourcing strategies. Consequently, the Indian chemicals industry, with its compelling value proposition, is positioned to emerge as a key global hub for chemical manufacturing.
2. **Escalating Domestic Demand** - India currently holds a significant share, over 20%, in global chemical consumption. Experts anticipate a surge in the domestic demand, reaching USD 1,000 Billion by 2040.
3. **Embracing Innovation and Sustainability** - Chemical firms are prioritising value addition while carefully balancing economic, social and environmental impacts. Their innovation endeavours are directed towards promoting sustainability and green chemistry through continuous advancements in products, technologies and processes.
4. **Shifting Customer Preferences** - There is a discernible shift in consumer preferences towards environmentally sustainable and socially responsible products and services. This trend is driving demand for greener and safer alternatives, as customers increasingly prioritise health, hygiene and safety.
5. **Leveraging Data Analytics** - Chemical manufacturing firms are increasingly leveraging data analytics to enhance operational efficiency and profitability. By harnessing insights from big data, they are refining plant operations, managing energy consumption and optimising supply chains. Furthermore, they are employing AI algorithms to predict potential equipment failures, thereby minimising downtime.

6. Rising Per Capita Consumption - India's per capita consumption of chemical products, currently at approximately one-tenth of the global average, is expected to double by 2025. The per capita consumption of various chemical products and segments in India continues to be lower compared to that of developed economies. This gap presents significant potential for demand growth and investment opportunities.

7. Supportive Government Policies - Government reforms and initiatives, such as 'Make In India' and 'Atmanirbhar Bharat', are aimed at strengthening the chemical manufacturing sector. The objective is to elevate the industry's contribution to approximately 25% of the manufacturing sector's GDP by 2025. In line with these efforts, the Union Budget 2023-24 allocated ₹ 173.45 Crores (USD 20.93 Million) to the Department of Chemicals and Petrochemicals.

INDUSTRY OUTLOOK

The chemical sector in India is poised to seize emerging opportunities, significantly advancing the nation's vision to cater to evolving demands and cement its position as a frontrunner in the global chemical market. Anchored by the Petroleum Chemicals and Petrochemical Investment Region (PCPIR) policy, India aims to attract a substantial investment of USD 284 Billion (₹ 20 Lakh Crores) by 2035. Strategically crafted in a cluster-centric approach, this policy is set to propel the chemical sector into a new realm of growth and expansion.

According to insights from the Department of Chemicals & Petrochemicals, the PCPIR policy envisages the creation of 33.83 Million new jobs. Over the next two decades, a significant portion, approximately 80%, of exports is anticipated to stem from agrochemicals, dyes & pigments and food additive chemicals. A total of 16 speciality chemical segments are poised for positive performance, driven by factors such as cost-effectiveness and market demand.

The optimistic trajectory of the chemical industry in India indicates a surplus of growth opportunities and positions the country for global prominence. Favourable growth rates and other key metrics align in India's favour, propelling it towards becoming the premier chemical manufacturing hub over the next two decades.

Despite macroeconomic fluctuations, DNL delivered healthy performance, particularly evident in solid revenue growth for key products like Phenolics, resulting in Consolidated Revenues of ₹ 7,682 Crores for FY 2023-24.

The flourishing local demand for chemicals coupled with expanded export avenues present compelling opportunities for chemical and petrochemical companies to emerge as stalwarts in this transformative journey. The pivotal roles of India's leading petroleum and chemical entities, alongside the central Government, loom large in steering the country towards unprecedented growth in this pivotal sector.

PERFORMANCE OF YOUR COMPANY

Deepak Nitrite Limited ('DNL' or 'the Company') has showcased exceptional adaptability in seizing opportunities throughout the year. Despite encountering challenges at the onset of FY 2023-24 amidst global economic strains and sluggish consumption growth, our performance remained steady. The chemical sector faced hurdles due to global inventory destocking, yet our commitment to fortifying market presence and diversifying product offerings remained unwavering. As FY 2023-24 progressed, the challenges intensified with inventory adjustments, geopolitical uncertainties, commodity price fluctuations and volatile foreign exchange rates among others. Coupled with the oversupply situation in certain sectors and subdued market prices, these factors present a formidable array of obstacles. However, our focus on operational efficiency, asset optimisation, product mix enhancement, byproduct valorisation, high integration levels and stringent business controls has empowered us to navigate these challenges more effectively than before. Consequently, amid this challenging backdrop, we have achieved commendable results by engaging with customers, maintaining or expanding market share and upholding leadership positions across key product categories.

During FY 2023-24, the Company set new production and sales records for several flagship products, driven by favourable demand trends. Despite macroeconomic fluctuations, DNL delivered healthy performance, particularly evident in solid revenue growth for key products like Phenolics, resulting in consolidated revenues of ₹ 7,682 Crores for FY 2023-24.

Integration of Strategic Business Units into the 'Advanced Intermediates' segment has not only streamlined evaluation of profitability but also optimised resource allocation based on segment value. Proactive market assessments and strong supply management have enabled DNL to either maintain or enhance its market share across product lines, solidifying its reputation as a reliable partner and increasing wallet share across most products.

Globally, operational challenges persist due to uneven economic growth, sustained inflation and interest rate fluctuations, impacting consumption trends and demand softness in certain regions and segments. Key product realisations remain subdued, exacerbated by Chinese dumping and geopolitical tensions like the Russia-Ukraine War and the Red Sea Crisis, extending cash conversion cycles. The chemical industry faces significant hurdles with demand slowdowns in certain countries, inventory destocking and higher capital costs from rising interest rates, affecting demand. The Indian chemical sector is affected by global destocking, China's market opening and Eurozone slowdown, resulting in subdued realisations and customer off-take. However, we were able to expand geographically and enhance market share. To maintain profitability and market share, the Company implements strategies like exploring new customer opportunities and optimising procurement.

DNL, as a leading chemical intermediates company, boasts a diverse product portfolio catering to various industries such as dyes, agrochemicals, pharmaceuticals and plastics. Its manufacturing facilities are strategically located in Gujarat, Maharashtra and Telangana, with R&D facility in Gujarat, which facilitates global supply across Europe, North & South America, Asia and Africa. Exporting to over 45 nations, DNL is recognised for its cost leadership and aims to expand its presence in high-value intermediates through strategic growth initiatives.

In FY 2023-24, DNL faced challenges from global economic pressures and slower consumption growth, impacting financial performance. Despite these challenges, DNL managed to increase volumes and market share, particularly in sectors such as construction and homecare, offsetting subdued demand in areas like agrochemicals and textiles. The Company's diversified product portfolio and flexible manufacturing capabilities were helpful in volume growth.

Total Revenue for the year stood at ₹ 2,724 Crores, maintaining momentum from the previous fiscal year. Domestic business Revenue amounted to ₹ 1,446 Crores, showcasing resilience in the

local market. Meanwhile, Export Revenue was robust at ₹ 1,278 Crores, underscoring DNL's global footprint. The Company improved its export share from 43% in FY 2022-23 to 47% in FY 2023-24, reflecting enhanced international sales performance.

Overcoming operating challenges, DNL reported an EBITDA of ₹ 492 Crores with stable margins at 18%. Profit Before Tax (PBT) was ₹ 483 Crores and Profit After Tax (PAT) amounted to ₹ 358 Crores. Depreciation and Finance Costs were managed efficiently, with DNL achieving debt-free status by March 31, 2024 and investing surplus funds in liquid mutual funds for enhanced liquidity and stability.

In FY 2023-24, on a consolidated basis, the Company achieved encouraging Revenue performance exceeding ₹ 7,600 Crores. Through efficient plant operations, strategic raw material sourcing and effective logistical management, the Company maintained high product volumes amidst the challenging operating environment. Strong performance was driven by robust gains in the Phenolics division and steady demand recovery, resulting in volume increases and improved realisations. Initiatives to enhance operating efficiency and debottlenecking of Phenolics plant led to record production levels, while the Advanced Intermediates segment reported volume growth and increased wallet share. However, subdued demand recovery in segments like agrochemicals affected realisation trends. Despite this, end-use applications such as pharma, construction, infrastructure and homecare showed healthy growth prospects.

The Company reported an EBITDA close to ₹ 1,200 Crores, with a stable EBITDA margin reaching 15%. This healthy growth was attributed to volume gains in Phenol, high-capacity utilisation, operational efficiencies and successful debottlenecking through implementation of various advanced technologies.

Debottlenecking efforts at select facilities and a sharp focus on increasing market share further enhanced the results. PBT and PAT crossed ₹ 1,100 Crores and ₹ 800 Crores, respectively. The Company actively pursued opportunities across all product categories, emphasising ethics and transparent business practices to reinforce the 'Depend on Deepak' initiative.

Domestic Revenue was ₹ 6,135 Crores, while Export Revenue stood at ₹ 1,547 Crores, maintaining a consolidated Domestic to Export ratio of 80:20. This was driven by stable demand in key markets despite transient destocking challenges. DNL prioritises products and regions with steady or growing demand, focussing on sectors like pharma, construction, paper and homecare, which show signs of demand recovery. The Company optimised plant utilisation, enhancing profitability in both Domestic and Export markets. Strategically investing in expansion projects, DNL aims to broaden its expertise and market reach, diversifying its product portfolio to capitalise on competitive advantages. Ongoing projects include brownfield expansions and capex for input supply assurance through Photohalogenation and complex Halex Fluorination processes. These initiatives, along with anticipated cyclical price recoveries, are poised to bolster profitability in the upcoming year.

Deepak Phenolics Limited ('DPL'), a wholly-owned subsidiary, achieved significant milestones with Revenue surpassing ₹ 5,000 Crores in the fiscal year 2023-24. Despite challenges posed by contracted Phenol spreads, DPL maintained steady Revenues and EBITDA performance by increasing Phenolics volumes and optimising operations. Advanced Process Controls and favourable conditions facilitated notable production increases in Phenol, Acetone and IPA, driving sales and value. Despite margin pressures from normalised prices and raw material costs, ongoing initiatives such as debottlenecking of the Phenol facility and the Nitric Acid project aim to expand production capacity and enhance

downstream capabilities. With a robust financial position, including being debt-free and healthy liquid investments, DPL is positioned for substantial growth and enhanced value creation in downstream chemical intermediates and advanced platforms.

We recognise the vast potential within the speciality chemicals sector worldwide. To maximise opportunities and build resilience against global uncertainties, we're crafting comprehensive value chains aimed at sustained growth in Revenues and Profitability. These strategies are underpinned by ambitious 3 to 4 years investment plans to develop diverse capabilities.

Our proactive approach this year commenced with initiatives geared towards establishing secure, long-term supply arrangements. The Fluorination project stands out as a pivotal step in DNL's journey towards complete backward integration in the speciality chemical value chain, facilitating production of essential agrochemical intermediates and nearing completion on our Nitric Acid integration. These initiatives position DNL as a leading backward-integrated chemical manufacturer in India, enhancing its foothold in Fluorination chemistry. Additionally, through strategic partnerships with the Government of Gujarat, our subsidiary Deepak Chem Tech Limited is poised to invest ₹ 140 Billion over the next 3 to 4 years in manufacturing advanced chemicals for the materials segment. We're also expanding our

R&D capabilities and constructing a cutting-edge facility near Vadodara to drive innovation in speciality products, supporting our growth in fine chemicals and beyond.

Overall, the demand outlook remains resilient, with most industries gradually returning to normal production levels. As we step into FY 2024-25, DNL boasts a de-risked business model catering to various end user application, a robust balance sheet and a pipeline of projects ready for commissioning, promising an attractive growth trajectory. Positioned for expansion across various facets with strong value chain integration, our noteworthy investment plans reflect our eagerness to seize opportunities both domestically and globally. Continuously diversifying our product offerings, expanding our customer base and augmenting overall value propositions, we are poised to elevate our business plan. Backed by a solid financial foundation, strong customer relationships and well-considered growth investments, we are well-equipped to capitalise on growing demand and contribute to India's drive towards import substitution.

Our strategic positioning aligns with India's growth potential and our long-term vision to create one of the most integrated chemicals and petrochemical complexes globally. Through prudent investment and sustainable growth practices, we aim to maximise value for all stakeholders while serving the nation's needs.

The Board of Directors of the Company has recommended a dividend of ₹ 7.50 per equity share i.e. 375%, for FY 2023-24, reflecting its commitment to sustained value creation for the shareholders

1. Advanced Intermediates (AI)

DNL has showcased resilient volume growth amidst a dynamic market landscape. While certain applications linked to agrochemicals experienced subdued demand, others such as pharma, construction, infrastructure and homecare remained robust. The mixed sentiment in end-user industries, coupled with steadfast petrochemical-linked raw material prices, prompted us to focus on optimising wallet share. Although some input prices decreased, petrochemical-linked ones remained at good levels due to refinery operating rates and war premiums on crude.

Amidst rising input costs, the Company adjusted product pricing proactively showcasing an adaptive approach. Despite customer inventory destocking witnessed largely in agrochem business, margins in this segment remained resilient, showcasing our operational strength.

Internationally and domestically, the Company has actively pursued opportunities, emphasising its commitment to meeting delivery obligations amidst external headwinds. DNL's competitive position and secure supply of key inputs position well to sustain its performance momentum. Within this segment, DNL has broadened its international clientele and foresees sustained performance momentum propelled by favourable demand patterns and the relocation of global supply chains to India.

User Industries under the segment:

- Colourants, Rubber Chemicals, Explosives, Dyes, Pigments, Food Colours, Pharmaceuticals, Refineries, Agrochemicals, Glass, Personal Care, Paper, Detergents and Textiles

In FY 2023-24, our Revenue crossed ₹ 2,700 Crores. Despite industry challenges, our resilient performance was underpinned by a diverse product portfolio and robust customer engagement. EBIT reached ₹ 446 Crores, reflecting a stable margin of 16%, demonstrating agility amidst external challenges.

Moreover, DNL experienced a positive uptick in sales volume and is actively cultivating new relationships with key customers to ensure consistent offtake. Our market share has been maintained or increased, especially in new geographies, signaling our readiness towards profitable growth. With captive power supply and a secure raw material pipeline, our operations are de-risked. As we prepare to commission multiple projects, both brownfield and greenfield, our performance trajectory is poised for further elevation, enriching our journey of value creation.

With respect to fire incident occurred during June 2022 in warehouse areas at the Company's Nandesari plant, there was damage to certain properties, plant, equipment and inventory as well as loss of profit due to business interruption, for which the Company had filed the insurance claim with insurance companies. Upon pursuing the insurance claim rigorously, the Company has received ₹ 127 Crores towards final settlement of insurance claim from insurance companies.

2. Phenolics

DNL's wholly-owned subsidiary, Deepak Phenolics Limited (DPL), initiated commercial operations at its Phenol & Acetone plant in Dahej, Gujarat, in November 2018. DPL's strategic vision is to gradually transition towards producing value-added downstream products, necessitating the internal consumption of its existing product portfolio of Phenol and Acetone. In April 2020, DPL commenced the production of Isopropyl Alcohol (IPA), a derivative product of Acetone, with an initial capacity of 30,000 MTPA. Subsequently, the brownfield expansion of IPA was completed in December 2021, effectively doubling the capacity to ~60,000 MTPA.

User Industries under the segment:

- Laminates, Ply, Adhesive, Paints, Auto, Pharmaceuticals, Plastics, etc.

DPL recorded a milestone Revenue of over ₹ 5,000 Crores in FY 2023-24 while EBIT witnessed a healthy increase of 8% to ₹ 644 Crores, resulting in a stable EBIT margin of 13%. Despite the contraction of Phenol spreads due to disproportionate imports, DPL managed to maintain Revenue and EBITDA figures. This was primarily attributed to higher volumes in Phenolics, combined with gains from operating leverage and process optimisation. During the year, DPL implemented several initiatives to enhance productivity and operational efficiency. It undertook debottlenecking by adding selective equipment, enabling expansion of production capacity. DPL segment remains on track to enhance downstream product offerings, through its fellow subsidiary, Deepak Chem Tech Limited, leading to higher stronger value chain and integration.

DPL has also embarked on a unique, waste-to-wealth initiative to recover high-value Acetophenone from a low-value by-product stream. This project is expected to be operational by Q1 of the next financial year.

DPL's commitment to continuous improvement and process efficiency is further reflected in its digitisation, adoption of technology in process of operations and automation efforts including its transition to SAP-S4 HANA. In addition to these accomplishments, DPL commenced the use of biofuels to reduce dependence on coal, showcasing its commitment to sustainability and helping towards nation's carbon neutrality program.

3. Investment in Deepak Chem Tech Limited

Deepak Chem Tech Limited ('DCTL'), wholly subsidiary of Deepak Nitrite Limited, is implementing various capital projects for the parent, fellow subsidiary and new products. DCTL aims to produce intermediate chemicals for various applications, building on the competencies and product portfolio of the Group.

During FY 2023-24, the Group has contributed around ₹ 700 Crores in DCTL towards part funding its various capex programmes, out of which, around ₹ 500 Crores is in the form of Equity and

₹ 40 Crores is in the form of Non-Cumulative Optionally Convertible Redeemable Preference Shares.

DCTL commenced manufacturing operations of its state-of-the-art Fluorination plant on March 21, 2024 at Dahej, near Bharuch in Gujarat. The said plant has started manufacturing Benzo trifluoride (BTF) which shall, not only increase reliability for captive consumption, but it also opens whole line of intermediates based upon Fluorine chemistry.

Further, it is about to commission Nitric Acid projects, both diluted and concentrated Nitric Acid; this is expected to cater to requirements of Nitric Acid, in existing and future products around Nitration Chemistry. The MIBK/MIBC project is nearing completion and is expected to be operational in the second half of the current financial year.

DCTL is poised to capitalise on the thriving opportunities in the Indian chemical industry in line with the Aatmanirbhar Bharat initiative. It plans to double the Group's Phenol production capacity and venture into downstream, value-added products of Phenol and Acetone to take advantage of the burgeoning market demand. This move will ensure complete control over the supply chain and reduce reliance on imports, enabling us to effectively meet the increasing customer demands and catalyse growth.

Towards this, DCTL has inked two Memorandum of Understanding (MOU) totalling nearly ₹ 14,000 Crores with the Government of Gujarat with an intention to invest in setting up projects at Dahej, in the state of Gujarat. This includes an MoU worth ₹ 5,000 Crores signed on May 23, 2023 for setting up facility to produce speciality chemicals, Phenol, Acetone and Bisphenol within the state. The additional MoU worth ₹ 9,000 Crores inked on January 31, 2024 is to establish projects for manufacturing of three new products, Polycarbonate Resins, Methyl Methacrylate (MMA)/ Poly Methyl

Methacrylate (PMMA) Resins and compounds, as well as Aniline. All announced investments are expected to be completed by FY 2027-28, reinforcing the Group's commitment to import substitution through value-addition.

Going forward, DCTL is poised for substantial growth capital commitment, driving greater captive consumption into additional upstream and downstream chemical intermediates which would include building blocks, speciality chemicals on the base of building blocks, performance, advanced materials and effect chemicals products, thereby increasing overall value addition. Hence, expectedly, DCTL shall become the growth engine of the Group.

Other Subsidiary Companies

On December 2, 2023, the Registrar of Companies gave the green light for Deepak Nitrite Limited to establish Deepak PMC Limited ('DPMCL') as a wholly-owned subsidiary. With an authorised and paid-up equity share capital of ₹ 5 Crores, DPMCL will specialise in project engineering, procurement, construction, commissioning, management and consultancy services. This new venture diverges from DNL's primary focus on chemical manufacturing, aligning with the Company's ongoing strategy to expand through various projects and brownfield initiatives.

During FY 2023-24, DNL further invested in Deepak Oman Industries LLC (SFZ) ('DOIL'), incorporated in Oman, raising its stake in DOIL from 31.72% to 51%, thereby making DOIL its subsidiary. Additionally, DNL will also be providing a Corporate Guarantee for securing the Term Loan of approximately USD 49 Million to be obtained by DOIL from the Export-Import Bank of India and interest and other charges thereon. DOIL is intending to set up a greenfield project to manufacture Sodium Nitrite, Sodium Nitrate, in Salalah Free Zone, Sultanate of Oman which would benefit from low input costs of raw materials and energy.

The Board of Directors of the Company, at its meeting held on May 20, 2024 also approved acquisition of 100% paid-up Equity Share Capital of OXOC Chemicals Limited (“Oxoc”). Oxoc is engaged in the business of manufacturing Polycarbonate Compounds and has started manufacturing activities in March 2024. With this acquisition, Oxoc will become a wholly-owned subsidiary and the Company shall have access to its manufacturing operations which would expedite foray of the Group into Polycarbonate Compounds business.

NAVIGATING FORWARD – CAPITAL EXPENDITURE STRATEGIES AHEAD

DNL is primed for multifaceted expansion with a robust integration within the value chain. Our current investment plan, totalling around ₹ 2,200 Crores, showcases our fervour to seize opportunities both domestically and globally. The Company’s investment initiatives encompass capacity expansion, assured raw material availability, enhanced efficiency through backward integration, portfolio diversification and integration of new chemistries into operations.

- A landmark term sheet with Petronet LNG secures a consistent supply of key raw materials, ensuring stability in our growth trajectory
 - DPL will procure 250 KTPA of Propylene and 11 KTPA of Hydrogen via pipeline from Petronet LNG from their proposed Propane dehydrogenation facility being set up at Dahej, guaranteeing access to crucial feedstock in future for uninterrupted production processes
 - This arrangement offers reliability, cost-effectiveness, safety and environmental benefits
- Progress continues on the Polycarbonate compounding project, with seeding cum manufacturing activity initiated during the year
- Significant strides have been made in the construction of the PhotoHalogenation project
- The Nitric Acid project has achieved rapid progress and manufacturing is expected to commence later this year
- The Phenolics segment aims to enhance downstream offerings, particularly with projects like MIBC and MIBK, to maximise Acetone utilisation and improve margins. The forthcoming commissioning of the derivatives plant in the second half of the current financial year will facilitate downstream value-added products

These initiatives will drive strong Revenue growth, expand market presence, improve margins, diversify product offerings and strengthen relationships with customers and suppliers. With a solid financial foundation, strong client ties and thoughtful growth strategies, we are poised to enhance our business proposition. Our expansion efforts will enhance competitiveness, fuel market share expansion and generate value for stakeholders. Positioned strategically for comprehensive growth, DNL will bolster integration within existing and new value chains, seizing

emerging opportunities domestically and internationally. We will continue to diversify our project portfolio, expand our customer base and enrich overall value propositions, while maintaining our strong financial position and robust client relationships.

GEOGRAPHICAL PERFORMANCE

In terms of our geographic split, in our Standalone operations, we improved the share of Exports from 43% in FY 2022-23 to 47% in FY 2023-24. With the ratio of Domestic to Export Revenues at 53:47 in FY 2023-24. While on a Consolidated basis, the Domestic Revenues for the year stood at ₹ 6,135 Crores while Export Revenues came in at ₹ 1,547 Crores. The proportion of Domestic and Export Revenue of 80:20 remains unchanged on consolidated basis. The steady Domestic Revenues performance during the year reflects the recovery in demand across pivotal end-user industries.

DNL effectively met the growing demand and retained a significant market share for its products. The Company’s stature as a preferred supplier for key domestic clients was sustained, owing to its competitive edge. This was further augmented by efficient production practices and a favourable product mix, culminating into positive volume growth for specific products.

Export Revenue performance during the period was led by intensified customer engagements in key geographies and the global supply chain shift. DNL’s adeptness in optimising plant utilisation levels and efficient manufacturing processes has helped sustained this growth trajectory. Asia’s share increased while Europe’s share declined owing to financial challenge being faced by Euro zone caused by energy prices and availability.

The robust growth momentum in both Domestic and Export Revenues underscores DNL’s commitment to cost leadership, production efficiency and product mix improvement. Positioned strategically, the Company is poised to continue its growth trajectory by capitalising on opportunities in key end-user sectors, optimising plant utilisation and fostering deeper customer engagement in pivotal geographic regions.

For DPL, Revenues for FY 2023-24 stood at ₹ 5,003 Crores and Domestic and Exports Revenue mix stood at 95:05.

RISK MANAGEMENT

As a pioneer in the global chemical industry, the Company comes across a diverse array of risks. To address these challenges, the Company has set up a comprehensive Risk Management Policy designed to foster operational resilience and capitalise on a portfolio of high-quality products tailored to various end-user sectors. Risk Management constitutes a pivotal aspect of operations, with the Company consistently prioritising initiatives centred around integrated leadership and succession planning strategies to enhance performance trajectories.

The Company has a well-defined Risk Management Framework and robust Internal Control systems that support risk mitigation efforts across its diverse business segments. The execution of Risk Management Policies entails a robust foundation of independent oversight, Internal Audit reporting and corporate management engagement. Transparent and objective measures have been adopted to assess and address underlying business risks

effectively. The Internal Audit function conducts risk-focused audits across all product categories to identify and rectify areas of concern. The Company's seasoned team adeptly navigates challenges pertaining to raw material pricing, commodity risks and currency fluctuations, with management implementing prudent measures to minimise their adverse impact on operational activities.

Risk Committee of the Board focusses on major business challenges and Company's preparedness to overcome the same.

Overall, the Company has established effective Risk Management and prevention frameworks, enabling it to navigate the complexities associated with operating in the global chemical sector. Leveraging its superior product offerings and implementing targeted risk mitigation strategies, the Company remains steadfast in enhancing its operational capabilities and institutional performance.

INTERNAL CONTROL FRAMEWORK

The Company has established a robust Corporate Governance framework to oversee its operations, with its management team strictly adhering to financial and accounting policies, processes and systems. The Company's Risk Management Framework and Planning & Review Processes serve as a sturdy foundation for maintaining Internal Financial Controls over its Financial Statements. Planning initiatives are grounded in essential accounting policies meticulously selected by management, endorsed by the Audit Committee and the Board and subject to regular review and updates.

Key management actively evaluates these processes, standard operating procedures (SOPs) and controls, which are further audited by an Internal Audit Team. The findings and recommendations of the Internal Audit and assurance team undergo scrutiny by the Audit Committee and are subsequently implemented as necessary. The Company maintains effective Internal Financial Controls for its Financial Statements, which are continuously evaluated throughout the year, with a focus on critical aspects of Internal Controls.

Following a comprehensive assessment by key management, no reportable material deficiencies or significant deficiencies in implementing Internal Financial Controls have been identified. The Company employs regular audit and review techniques to continually reinforce these programmes.

HUMAN RESOURCE DEVELOPMENT

As of March 31, 2024, the Company has a total of 1,720 permanent employees including permanent workers. The Company's Human Resource Development approach is grounded in core principles of relevance, continuity and fairness. Various techniques are employed across segments to bolster talent management, skill development and operational efficiency. These initiatives have yielded a notable enhancement in talent retention and commitment.

The HR function remains steadfast in aligning its strategic interventions and procedures with a long-term vision aimed at creating and amplifying value for the Indian chemical industry and its stakeholders. This commitment stands as a pivotal factor in elevating business performance. Upholding "best-in-class" talent is deemed crucial in talent management. Performance management practices intricately link individual and team performance to the Company's overarching strategic objectives.

Towards attracting and retaining the best talent, the Company had proposed ESOP Scheme which has obtained approval of the shareholders. Depending on strict adherence to KRAs, the Nomination and Remuneration Committee is going to approve Stock Options for key talent. This is expected to help the Company to have the best talent while it undertakes mega projects.

 DNL's Research and Development endeavours are dedicated to pioneering new chemical compounds and extracting value from by-products. Continuously evaluating current products and processes, DNL strives to optimise efficiency and drive cost savings.

SWOT ANALYSIS

Strengths

- 1. Sustainability is central to DNL's Vision:** DNL upholds a commitment to business sustainability, recognised by customers as a top priority. As it progresses towards greater scale and diversification, its product will touch endless customers and end users. As a responsible corporate citizen, DNL's leadership position in various chemical products and value chain will ensure sustainable utilisation of natural resources with adherence to environmental, social and governance principles.
- 2. Diverse Product Portfolio:** DNL has a diverse range of products categorised into two main segments: Advanced Intermediates and Phenolics. Catering to various industries such as dyes & pigments, agrochemical, pharmaceutical, plastics, textiles, paper, home & personal care and petro derivatives, this extensive portfolio mitigates risks associated with product obsolescence. Leveraging production expertise and knowledge of complex chemistries, DNL continually enhances its product portfolio to meet the evolving needs of its diverse customer base.
- 3. Streamlined Supply Chain Operations:** DNL exhibits agility in fulfilling delivery obligations, maintaining consistent performance. The Company adeptly executes operational plans, ensuring timely and reliable deliveries to customers. Leveraging chemical manufacturing expertise, DNL efficiently manages large-scale logistics and supply chains. Harnessing technology, the Company's nationwide supply chain team fosters strong partnerships with suppliers and customers, enhancing service quality and market competitiveness.
- 4. Global Reach and Strong Partnerships:** DNL boasts an extensive distribution network spanning over 45 countries across six continents, encompassing vital markets such as the United States, Europe, China and India. This strategic presence enables DNL to seamlessly access new markets and expand its market share. Deep-rooted customer relationships and a steadfast commitment to customer-centric practices further solidify DNL's standing as a preferred supplier for key clients worldwide. These strengths empower DNL to capitalise on burgeoning demand for chemicals on both domestic and international fronts.

- 5. Innovation and Technological Advancements:** DNL's Research and Development endeavours are dedicated to pioneering new chemical compounds and extracting value from by-products. Continuously evaluating current products and processes, DNL strives to optimise efficiency and drive cost savings. With a focus on sustainable chemistry, DNL aims to seize innovation opportunities while upholding operational excellence. Its robust execution capabilities and proven track record are instrumental in transitioning into a research and innovation-driven enterprise.
- 6. Cost Efficiency:** DNL secures a strong cost leadership position across various product lines, commanding a substantial market share. This success is the result of relentless efforts to attain economies of scale and ongoing process innovations, which not only provide value to customers but also ensure operational cost-effectiveness.
- 7. Leadership Excellence:** DNL's leadership team consists of seasoned industry professionals renowned for their deep expertise and acute market insights. They uphold the Code of Responsible Care and ethical standards as guiding principles. With a long-standing track record of driving the Company's success, the management team remains dedicated to high-margin products, emphasising Research and Development initiatives and nurturing enduring customer partnerships.

Weaknesses

- 1. Addressing Energy Needs:** As chemical processes grow in complexity, consistent access to energy sources becomes critical. DNL inaugurated a 29 MW captive power plant in Dahej in May 2022 to meet this requirement. While relying mainly on traditional fuels like coal and furnace oil for power generation, DNL continues to explore measures to enhance its ecological footprint, particularly in improving energy efficiency in line with ESG goals.

Navigating Input Cost Volatility: In an environment marked by rising input costs and supply limitations businesses face significant challenges. This volatility is influenced by various factors such as demand-supply dynamics, economic and political conditions, shipping expenses, labour costs, natural disasters, pandemics and competitive pressures. Despite employing various

methodologies and assumptions, uncertainties persist in predicting these variables accurately. To mitigate the impact of such fluctuations, DNL has established ongoing assessment of these scenarios and has implemented benchmark bases pricing strategy for majority of its products.

Opportunities

- 1. Supportive Government Policies:** India's 'Make in India' campaign, 'Atmanirbhar Bharat' initiative and various Production-Linked Incentive (PLI) schemes are geared towards strengthening domestic manufacturing. These endeavours streamline regulatory procedures and offer ample prospects for foreign partnerships. DNL is strategically positioned to leverage these policies to advance its growth agenda.
- 2. Promising Export Prospects:** With global chemical leaders aiming to decentralise their supply chains from China, well-established Indian chemical intermediate firms have an opportunity to showcase their prowess internationally. The optimistic demand forecast has spurred Indian chemical exporters to scale up their facilities and operations.

- 3. Substantial Opportunity for Import Replacement:** DNL has a legacy of targeting products that are heavily imported in the domestic market, starting from its pioneering product, 'Sodium Nitrite,' to its recent expansion into Deepak Phenolics. Import substitution remains integral to DNL's strategic approach, with successful replacements of crucial items like Phenol and Acetone resulting in considerable savings in foreign exchange and attaining self-reliance. The Company maintains its focus on introducing value-added downstream products to supplant imports, leveraging the favourable demand environment. Our product portfolio of Phenol derivatives offers significant opportunities of going downstream where today market depends on imports.

Threats

- 1. External Challenges:** DNL's substantial reliance on the Indian market, accounting for over half of its total Revenue, exposes the Company to fluctuations in demand-supply dynamics across various sectors. Despite serving a diverse range of industries, mitigating dependency risks on any single customer or sector, a downturn in domestic demand could markedly affect the Company's earnings visibility.
- 2. Geopolitical Developments:** Global geopolitical occurrences, such as the Russia-Ukraine War, have the potential to disturb established trade relations, triggering heightened tariff rates, sanctions and supply chain interruptions. These disruptions may lead to elevated prices and constrained availability of specific products and commodities. Although DNL vigilantly monitors these events, it remains susceptible to adverse consequences stemming from geopolitical tensions.
- 3. Product and Process Viability Risk:** The ongoing evolution of technologies and methodologies poses a risk of product obsolescence, with newer and more efficient alternatives emerging over time. This shifting landscape may reduce demand for existing products or require the replacement of current processes. Nevertheless, DNL's strong foothold in numerous product categories offers some protection against these risks. Additionally, the Company proactively assesses and improves its processes to adapt to technological advancements.
- 4. Shortage of Skilled Manpower:** The intricate nature of chemical processes demands a workforce with specialised expertise, presenting difficulties in recruiting suitable talent. Moreover, there may be a scarcity of technically proficient individuals in India. To tackle this challenge, DNL implements diverse initiatives, including comprehensive training programmes for professional growth, educating employees on industry nuances and advocating for adherence to international best practices to foster and broaden the current talent pool.

 Despite global challenges like inflation, destocking and the Eurozone slowdown, the Company has remained agile, ensuring steady revenue growth by fulfilling delivery commitments and expanding its market share across all sectors.

MANAGEMENT OUTLOOK

DNL is strategically positioned to leverage the 'Make in India for the World' initiative, enabling capacity expansion for both baseline growth and migration of production from high-cost regions. Leveraging its robust manufacturing infrastructure and extensive expertise in chemistry, DNL plays a pivotal role as a trusted collaborator for major domestic and global clients. The Company is focussed on enhancing value chain resilience and is prepared to embark on multiple projects in the coming years. These initiatives include backward integration for strategic feedstock, development of value-added downstream derivatives, establishment of innovative platforms like Photochlorination and Fluorination and investment in compounding assets to meet the needs of multinational companies investing in Indian capacities. In a nutshell, similarly DNL standalone business offers growth opportunities, both backward and forward, based on its platform created. DNL is committed to reducing its carbon footprint through the implementation of initiatives such as multi-fuel boilers, waste recycling and valorisation of by-products, effective operational processes.

Further, our approach to thriving in a challenging business environment encompasses the following key strategies:

- **Business Resilience:** Demonstrating the ability to optimise assets and navigate through difficult market conditions effectively.
- **Product Mix Optimisation:** Actively managing our portfolio to meet customer requirements while maximising margins.
- **Deep Customer Relationships:** Maintaining a market leadership position across key products by fostering strong relationships with our customers.
- **Robust Business Controls:** Implementing stringent inventory and working capital optimisation measures, including prudent raw material procurement and the adoption of SAP in DPL, with plans to extend to other entities.

- **Focus on Sustainability:** Working towards sustainability by developing renewable energy solutions to reduce our carbon footprint. Diversification of fuel sources, such as boilers based on briquettes and other materials, contributes to this effort.
- **Operational Excellence:** Continuously improving processes to achieve world-leading efficiency in atomisation and maximising the value of by-products through valorisation.

To achieve these growth objectives, the Company has enhanced operational efficiencies through process optimisation, yielding cost reductions in power and water consumption. With a robust project pipeline, investments totalling ₹ 2,200 Crores are slated for commissioning by FY 2024-25, bolstering capacity and backward integration efforts.

Additionally, brownfield projects, including a new unit for a key agrochemical intermediate, are underway. Plans encompass expansion of select products, strengthening forward and backward integration and introducing new chemistry platforms like Photochlorination and Fluorination. Leveraging efficient chemistries, DNL aims to serve diverse end-user industries.

Looking ahead, the Company plans to expand product categories strategically, remaining agile to seize opportunities from evolving industry trends. Diversifying product offerings with new solvents will enhance market reach and increase the share of high-margin products, thereby enhancing the overall business proposition. Steady strengthening of the Balance Sheet ensures adequate funding for incremental growth capital expenditures.

This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
 12. The Register of Directors and Key Managerial Personnel and their shareholding, maintained under Section 170 of the Act and the Register of Contracts or Arrangements in which the Directors are interested, maintained under Section 189 of the Act, will be available electronically for inspection by the Members during the AGM. All documents referred to in the Notice will also be available for electronic inspection without any fee by the Members from the date of circulation of this Notice up to the date of AGM, i.e. August 6, 2024. Members seeking to inspect such documents can send an email to investor@godeepak.com.
 13. The Register of Members and the Share Transfer Books of the Company will be closed from **Tuesday, July 30, 2024 to Tuesday, August 6, 2024** (both days inclusive) for the purpose of determining the eligibility of the Members entitled to Dividend, subject to the approval of the Members at the AGM.
 14. Members may note that the Board of Directors of the Company, at its meeting held on May, 20, 2024, has recommended a final dividend of ₹ 7.50 (Rupees Seven and Paise Fifty only) per equity share for the Financial Year 2023-24. The dividend as recommended by the Board of Directors, if approved at the AGM, will be paid on or after Monday, August 12, 2024 in respect of shares held in the Company in physical form, to those Members whose names appear in the Company's Register of Members and in respect of shares held in demat form, to those "Deemed Members" whose names appear in the Statement of Beneficial Ownership furnished by the NSDL and CDSL at the close of business hours on Monday, July 29, 2024.
 15. The dividend, once approved by the Members at the ensuing AGM, will be paid electronically through various online transfer modes to those Members who have updated their bank account details. Members holding shares in physical form and who have not updated their bank account details, may submit Form ISR-1 duly signed stating their bank details viz., Name of the Bank and Branch, their A/c type and Core Banking A/c No. with 9 digit MICR and 11 digit IFSC code along with the original copy of cancelled cheque to Link Intime India Private Limited. Requests for payment of dividend through various online transfer modes should be lodged with Link Intime India Private Limited on or before the book closure end date i.e. Tuesday, August 6, 2024. To avoid delay in receiving dividend, Members are requested to update their KYC with their depositories (where shares are held in dematerialised mode) and with the Company's RTA (where shares are held in physical mode) to receive dividend directly into their bank account on the payout date.
 16. Members may note that the Income Tax Act, 1961, ("the IT Act") as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a company after April 1, 2020 shall be taxable in the hands of Members. The Company shall therefore be required to deduct Tax at Source ("TDS") at the time of making the payment of dividends as mentioned above.
- In order to enable the Company to determine the appropriate TDS rate as applicable, Members are requested to submit relevant documents, as specified in the below paragraphs, in accordance with the provisions of the IT Act.

For resident shareholders, taxes shall be deducted at source under Section 194 of the IT Act as follows:

Members having valid Permanent Account Number ("PAN")	10% or as notified by the Government of India
Members not having PAN / valid PAN (Section 206AA of the IT Act)	20% or as notified by the Government of India
Members not filing Income Tax returns for preceding one year and whose TDS/TCS credit is more than ₹ 50,000 (Section 206AB of the IT Act)	20% or as notified by the Government of India

However, no tax shall be deducted on the dividends payable to a resident individual if the total dividend to be received by them during fiscal 2024 does not exceed ₹ 5,000 and also in cases where Members provide Form 15G / Form 15H (Form 15H is applicable to individuals aged sixty (60) years or more) subject to conditions specified in the IT Act. PAN is mandatory for Members providing Form 15G / 15H or any other document as mentioned above. The Company may at its sole discretion reject the form if it does not fulfil the requirement of the law.

Resident shareholders may also submit any other document as prescribed under the IT Act to claim a lower / nil withholding tax.

For non-resident shareholders (including Foreign Institutional Investors / Foreign Portfolio Investors), taxes are required to be withheld in accordance with the provisions of Section 195, Section 196D and other applicable Sections of the IT Act, at the rates in force. The withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) or as notified by the Government of India on the amount of dividends payable. However, as per Section 90 of the IT Act, non-resident shareholders have the option to be governed by the provisions of the Double Tax Avoidance Agreement ("DTAA"), read with Multilateral Instrument ("MLI") between India and the country of tax residence of the Member, if they are more beneficial to them. For this purpose, i.e., to avail the benefits under the DTAA read with MLI, non-resident shareholders will have to provide the following::

- Self-attested copy of the PAN card allotted by the Indian Income Tax Authorities duly attested by the Member or in case PAN is not available, details as prescribed under Rule 37BC of Income Tax, Rules, 1962.
- Self-attested copy of Tax Residency Certificate for fiscal 2024 obtained from the revenue authorities of the country of tax residence, duly attested by Member.
- Copy of Form-10F filled electronically on the income tax portal for Financial Year 2024-25, if all the details required in this Form are not mentioned in the Tax Residency Certificate.

- Self-declaration by the Member that (i) does not have a permanent establishment in India under the applicable Tax Treaty, (ii) is the beneficial owner of the dividends, (iii) complies with any other condition prescribed in the relevant Tax Treaty and provisions under the 'MLI' will not have a place of effective management in India.
- FPI shareholders shall, in addition to above documents, also provide SEBI Registration Certificate as FII / FPI.
- Any other documents as prescribed under the IT Act for lower withholding of taxes if applicable, duly attested by the Member.

Please note that application of the beneficial rate of tax treaty for TDS is at the discretion of the Company and shall depend upon the completeness and satisfactory review of the same by the Company.

Accordingly, the aforementioned documents are required to be uploaded on the shareholder portal at <https://www.linkintime.co.in/formseg/Submission-of-form-15g-15h.html> on or before **July 30, 2024**.

No communication would be entertained from Members after **July 30, 2024** regarding tax withholding matters.

It may be further noted that in case the tax on said dividend is deducted at a higher rate in absence of receipt of the aforementioned details/documents from a Member, there would still be an option available with the Member to file the return of income and claim an appropriate refund, if eligible.

The Company shall arrange to e-mail the soft copy of TDS certificate to Members at their registered e-mail ID in accordance with the provisions of the Income Tax Act 1961 after filing of the quarterly TDS Returns of the Company, post payment of the said Dividend.

The Company vide its separate e-mail communication had informed the Members regarding this change in the Income Tax Act, 1961 as well as the relevant procedure to be adopted by the Members to avail the applicable tax rate.

17. In terms of the provisions of Section 124 and other applicable provisions of the Act, the amount of dividend not encashed or claimed within seven (7) years from the date of its transfer to the unpaid dividend account, will be transferred to the Investor Education and Protection Fund ("IEPF") established by the Central Government. Accordingly, the unclaimed dividend in respect of Financial Year 2016-17 is due for transfer to IEPF Fund in August, 2024. Members who have not yet encashed their dividend warrant(s) pertaining to the dividend for the Financial Year 2016-17 onwards,

are requested to lodge their claims for the same with the Company or Registrar and Share Transfer Agent of the Company.

Attention of Members is invited to the provisions of Section 124(6) of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 amended from time to time, which inter alia requires the Company to transfer the equity shares on which the dividend has remained unpaid or unclaimed for a continuous period of seven (7) years, to a special demat account of Investor Education and Protection Fund Authority ("IEPF Authority").

The dividend/shares, once transferred to the said demat account of the IEPF Authority can be claimed after following due procedure prescribed under the said IEPF Rules by making an online application to the IEPF Authority in web Form No. IEPF-5 available on www.iepf.gov.in.

18. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended) and the MCA Circulars dated April 08, 2020, April 13, 2020, May 05, 2020, December 28, 2022 and September 25, 2023, the Company is providing the facility of remote e-Voting to its Members in respect of the business to be transacted at the AGM. LLP, Company Secretaries, Pune, as the Scrutiniser, to scrutinise the voting during the AGM and remote e-Voting process in a fair and transparent manner.
21. Members holding shares either in physical or dematerialised form, as on **Tuesday, July 30, 2024** ("Cut-off Date"), may cast their votes electronically. The e-Voting period commences on **Saturday, August 3, 2024** (9:00 A.M. IST) and ends on **Monday, August 5, 2024** (5:00 P.M. IST). The e-Voting module will be disabled by NSDL thereafter. A Member will not be allowed to vote again on any Resolution on which vote has already been cast.
22. The voting rights of Members shall be proportionate to their share of the paid-up equity share capital of the Company as on the Cut-off Date, i.e. as on **July 30, 2024**.
23. A person who is not a Member as on the Cut-off Date is requested to treat this Notice for information purposes only.
24. The facility for voting during the AGM will also be made available. Members present at the AGM through VC and who have not cast their vote on the Resolutions through remote e-Voting and are otherwise not barred from doing so, shall be eligible to vote through the e-Voting system during the AGM.
25. Any person holding shares in physical form and non-individual shareholders who acquire shares of the Company and become Member of the Company after the Notice is sent and holding shares as of the Cut-off Date, i.e. **July 30, 2024**, may obtain the login ID and password by sending a request at evoting@nsdl.com. However, if he / she is already registered with NSDL for remote e-Voting, then he / she can use his / her existing user ID and password for casting the vote. In case of individual shareholders holding securities in demat mode, who acquire shares of the Company and become Member of the Company after the Notice is sent and holding shares as of the Cut-off Date, may follow steps mentioned in the Notice under 'Instructions for e-Voting'.
26. All Stakeholders are requested to note that the Registered and Corporate Office of the Company has been shifted to 2nd Floor, Fermenter House, Alembic City, Alembic Avenue Road, Vadodara 390 003 with effect from November 10, 2023. All future correspondences should be made to the above mentioned new address only.

During FY 2023-24, the global chemical industry encountered multiple challenges such as uneven economic growth, sustained inflationary pressures and the response from Central Banks around the world which resulted in prevalence of higher interest rates. This was accompanied by geo-political challenges including continuation of Russia-Ukraine conflict and the re-emergence of geo-political skirmishes in the Middle East which have contributed to higher cost of doing business.

Overall global consumption has been hit, more particularly in Europe, thereby impacting demand for the chemical industry. Further, given the macro-economic backdrop, businesses have moved into cost optimisation mode including a return to leaner inventory levels. Combined with the destocking by Chinese players, this has led to softness in product realisations across the board.

Despite these challenges, DNL demonstrated resilience, maintaining performance levels through sustained demand from end-user industries. By increasing sales volumes and retaining market share, the Company navigated the transitional external environment. DNL strategically implemented backward and forward integration

projects to bolster long-term growth momentum, with plans for periodic commissioning over the coming quarters. Adopting various strategies including exploring new customer opportunities and optimizing procurement, DNL aimed to safeguard market share and profitability as much as possible, amidst challenging market dynamics.

In this context, DNL reported sustained operating performance, achieving volume gains for key products and maintaining or expanding market and wallet share. Your Company's efforts to expand its product portfolio and prioritize strategic relationships have contributed to reliable supplies and improved efficiencies, enabling production optimization and output enhancement. Despite pockets of volatile demand in certain segments, DNL's diverse product portfolio has provided resilience, with its Phenol plant operating at high capacity utilization despite scheduled maintenance of 15 days during the first quarter of FY 2023-24. Looking ahead, the Company focuses on delivering continued growth supported by upstream integration, capacity expansion and secured input supplies, ensuring a clear pathway to increase output in order to meet the anticipated increase in demand.

PERFORMANCE REVIEW

Standalone

Financial Year 2023-24 presented several challenges owing to various global macroeconomic pressures and a slower-than-expected rise in consumption, resulting in adverse impact on financial performance. The chemical industry encountered difficulties due to prolonged inventory destocking as a result of lower demand, coupled with aggressive actions by Chinese players bordering on dumping of products in key markets, logistical challenges fuelled by disturbances in the Red Sea. Despite ongoing global challenges like inflation, compression of inventory by customers and a slowdown in the Eurozone, your Company displayed remarkable agility in its operations. Your Company focused on optimising its assets and driving further production efficiencies. Your Company leveraged its brand equity and market position to prioritize reliable supplies to key strategic relationships. The improved production volumes were placed with customers enabling the Company to report volume led growth. As a result, your Company maintained steady revenue by meeting delivery obligations and was successful in maintaining or expanding its market share across all business segments.

DNL reported increased volumes and heightened wallet share year-on-year, although realization trends reflected subdued demand recovery in sectors like agrochemicals, textiles and dyes & pigments. DNL's broad product portfolio and versatile plant capability has allowed to focus on driving volume-led growth in certain pockets, which have enabled it to counter balance subdued demand sentiment in other parts of the portfolio. Sectors like construction, infrastructure and homecare demonstrated encouraging growth prospects. DNL displayed a resilient business performance with growth across several product categories. Additionally, the Company successfully piloted a new agro intermediate product, laying the foundation for further expansion and deeper strategic partnerships in the coming years.

In FY 2023-24, your Company's Total Revenue, including Other Income, came in at ₹ 2,848 Crores. Despite challenges, DNL strategically allocated resources to cater to high-demand applications until agrochemical demand normalizes, leveraging multi-purpose plants for flexibility. During the year, the commissioning of multiple opex initiatives led to gain in production capacity and throughput for several key intermediates.

EBITDA for FY 2023-24 stood at ₹ 567 Crores, down by 17% from the previous year to ₹ 1,476 Crores. Profit Before Tax decreased by 22% to ₹ 478 Crores, with Profit After Tax at ₹ 433 Crores.

Depreciation and Finance Costs amounted to ₹ 87 Crores and ₹ 2 Crores, respectively, with DNL continue having debt-free status as of March 31, 2024 and surplus funds invested in liquid mutual funds for liquidity and stability.

Domestic Revenue decreased by 16% to ₹ 1,447 Crores, impacted by softer demand in key industries, while Export Revenue stood at ₹ 1,278 Crores, driven by targeted initiatives in favourable markets. Your Company continues to prioritize wallet share and debottlenecking initiatives to enhance volumes amidst mixed industry sentiment.

With respect to fire incident occurred during June 2022 in warehouse areas at the Company's Nandesari plant, there was damage to certain properties, plant, equipment and inventory as well as loss of profit due to business interruption, for which the Company had filed the insurance claim with insurance companies. Upon pursuing the insurance claim rigorously, the Company has received ₹ 127 Crores towards final settlement of insurance claim from insurance companies. Accordingly, an amount of ₹ 79.80 Crores has been recognised under Exceptional Items in the Statement of Profit and Loss for the year ended March 31, 2024

In a key development, Deepak Phenolics Limited, a wholly owned subsidiary, inked a term sheet with Petronet LNG, for long term supply of Propylene and Hydrogen, from their proposed Propane dehydrogenation facility being set up at Dahej, marking a pivotal step in securing its growth trajectory. This arrangement significantly derisks Deepak Group's multi-year growth plan by guaranteeing a stable supply of critical raw materials via pipeline. Notably, the utilization of pipelines for supply not only enhances safety and cost-effectiveness but also minimizes environmental impact, contrasting favourably with traditional road and rail transport methods. DPL is poised to receive 250 KTPA of Propylene and 11 KTPA of Hydrogen, ensuring uninterrupted production processes at a competitive cost. The long-term nature of this arrangement not only assures Deepak Group of reliable feedstock access but also underscores its commitment to sustainable practices.

Looking ahead, DNL aims to become one of the most integrated chemical complexes globally, leveraging both large-volume production and high-value speciality products. With a focus on innovation and market responsiveness, the Company aims to bridge the demand-supply gap and become a preferred partner for global customers, positioning itself for sustained growth and resilience in the face of market fluctuations.

Deepak Phenolics Limited

Deepak Phenolics Limited ("DPL") is a wholly owned material subsidiary of your Company. During FY 2023-24, DPL recorded Revenues of ₹ 5,003 Crores compared to ₹ 4,970 Crores in FY 2022-23. The Profit After Tax increased by 6% to ₹ 474 Crores in FY 2023-24 as compared to ₹ 445 Crores in FY 2022-23. Despite the contraction of Phenol spreads due to disproportionate imports, DPL managed to maintain Revenue and EBITDA figures. This was primarily attributed to higher volumes in Phenolics, combined with gains from operating leverage and process optimization.

In FY 2023-24, DPL demonstrated remarkable resilience with impressive sales volumes in the Phenolics segment, despite grappling with the challenge of weak spread. Leveraging its integrated manufacturing setup and high utilization rates, DPL maintained its margins. The Phenolics volume surged by 12%, providing a substantial uplift to the overall performance. DPL set new production records for Phenol, Acetone, Cumene and IPA, driven by significant efficiency enhancements. Nevertheless, DPL's Phenolics segment remains on track to enhance downstream product offerings, through its fellow subsidiary, Deepak Chem Tech Limited, leading to higher stronger value chain and integration.

DPL also remains debt-free on a net basis, with total liquid investments of ₹ 302 Crores, having successfully implemented SAP.

Deepak Chem Tech Limited

Deepak Chem Tech Limited ('DCTL'), another wholly owned material subsidiary, implementing several projects aimed at producing intermediate chemicals for diverse applications, leveraging the Group's existing competencies and product portfolio. During FY 2023-24, the Group has contributed around ₹ 700 Crores in DCTL towards part funding its various capex programs, out of which, around ₹ 500 Crores is in the form of Equity and ₹ 40 Crores is in the form of Non-Cumulative Optionally Convertible Redeemable Preference Shares.

To start with, DCTL commenced manufacturing operations of its state-of-the-art Fluorination plant on March 21, 2024 at Dahej, near Bharuch in Gujarat. The said plant has started manufacturing Benzo trifluoride (BTF) which shall, not only increase reliability for captive consumption, but it also opens whole line of intermediates based upon Fluorine chemistry.

Further, DCTL is about to commission Nitric Acid projects, both diluted and concentrated. This is expected to cater to requirements of nitric acid, in existing and future products around nitration chemistry. The MIBK/MIBC projects is nearing completion and is expected to be operational in the second half of the current Financial Year.

DCTL is actively pursuing projects across two sites in Gujarat, focusing on Advanced Intermediates (AI) and Phenolics business segments, to start with. Further, a significant milestone was achieved when DCTL signed two Memorandum of Understanding ('MOU') totalling nearly ₹ 14,000 Crores with the Government of Gujarat with an intention to invest in setting up projects at Dahej, in the state of Gujarat. This includes MOU worth ₹ 5,000 Crores signed on May 23, 2023 for setting up facility to produce speciality chemicals, Phenol, Acetone and Bisphenol within the state. The additional MOU worth ₹ 9,000 Crores inked on January 31, 2024 is to establish projects for manufacturing of three (3) new products, Polycarbonate Resins, Methyl Methacrylate (MMA)/ Poly Methyl Methacrylate (PMMA) Resins and compounds, as well as Aniline. All announced investments are expected to be completed by FY 2027-

28, reinforcing the Group's commitment to import substitution through value-addition.

DCTL places significant emphasis on project timelines, costs, health, safety, environment and compliances. Aligned with the Group's philosophy, DCTL prioritizes sustainable processes and easy scalability to facilitate future expansions at lower costs, thereby enhancing efficiency, implementing green practices and reducing carbon footprints.

Towards this, Shri Meghav Mehta has taken the charge of DCTL as the Executive Director & Chief Executive Officer with effect from May 2, 2024 and the Board of DCTL is being further strengthened by recommending to the shareholders of DCTL, the appointment of Shri Sanjay Asher and Smt Purvi Sheth as Independent Directors with effect from May 21, 2024.

Going forward, DCTL is poised for substantial growth capital commitment, driving greater captive consumption into additional upstream and downstream chemical intermediates which would include building blocks, speciality chemicals on the base of building blocks, performance, advanced materials and effect chemicals products, thereby increasing overall value addition. Hence, expectedly, DCTL shall become the growth engine of the Group.

Consolidated

During FY 2023-24, your Company encountered formidable challenges stemming from inventory destocking by China, geopolitical uncertainties, commodity price volatility and fluctuating foreign exchange rates. Despite this complex environment, which include, inter alia, unabated logistical challenges amidst skirmishes arose in Red Sea, the Company's steadfast commitment to operational excellence, asset optimization and stringent business controls enabled it to navigate these hurdles effectively. By engaging closely with customers, DNL managed to either preserve or expand its market share while maintaining leadership across key product segments, positioning itself favourably to leverage growing demand and India's import substitution initiative.

The Consolidated total Revenue for FY 2023-24 stood at ₹ 7,758 Crores, down 3% from the previous year's ₹ 8,020 Crores. Though Revenue was marginally low owing to lower realisations, volumes grew significantly in both business segments by about 13%. Despite industry-wide challenges related to inventory destocking and sluggishness in certain markets, DNL proactively pursued development opportunities, adding new customers and markets to its portfolio while maintaining or increasing wallet share. Higher volumes across key business segments, particularly in Phenolics, facilitated sustainable Revenue volume growth, with consistently high utilization levels throughout the year.

In terms of profitability, Profit Before Tax (excluding exceptional items of ₹ 79.80 Crores) for FY 2023-24 totalled ₹ 1,022 Crores, against ₹ 1,146 Crores in FY 2022-23, while Profit After Tax was

₹ 811 Crores, against ₹ 852 Crores in FY 2022-23. Despite the ongoing economic recovery and macroeconomic challenges, DNL managed to enhance its operational efficiency, increased market share and wallet share. Geographically, Domestic Revenue stood at ₹ 6,135 Crores, while Revenue from Exports also grew to ₹ 1,547 Crores, demonstrating the Company's resilience and strong global engagement.

On the financial front, DNL maintains a zero-debt position with a Consolidated Net Worth of ₹ 4,797 Crores as of March 31, 2024, alongside significant liquid investments. The Company has undertaken digitalization initiatives, including SAP implementation, to enhance operational efficiencies, streamline processes and reduce costs.

Meanwhile, DNL made significant strides, inaugurating and commissioning its Fluorination plant at Dahej. With anticipated investments of approximately ₹ 2 billion, DNL aims to enhance supply chain robustness through backward and forward integration.

Additionally, a robust project pipeline, coupled with planned investments of around ₹ 2,200 Crores expected to be commissioned in FY 2024-25, reinforces the Group's commitment to capacity expansion and growth. The construction of a state-of-the-art Research & Development Centre at Savli, Vadodara reflects the Company's dedication to innovation and global competitiveness, positioning it well for future opportunities and sustained growth.

DECLARATION AND PAYMENT OF DIVIDEND

The Board of Directors of your Company is pleased to recommend a Dividend of ₹ 7.50 (Rupees Seven and Paise Fifty only) per Equity Share for the year ended March 31, 2024 maintaining the same rate as was in the previous year. The total Dividend as above on 13,63,93,041 Equity Shares of face value of ₹ 2.00 (Rupees Two only) each, if approved by the Members at the ensuing Annual General Meeting, would involve a total outgo amount of ₹ 102.29 Crores, resulting in a Dividend Payout of 23.60% of the Standalone Profit After Tax of the Company. Your Company's innovation infrastructure consists of centralised Research and Development ('R&D') facility, Deepak Research and Development Centre ('DRDC') at Nandesari, Gujarat. DRDC has been approved by the Department of Scientific & Industrial Research, Government of India since 1977 and is ISO certified. It has a dedicated team of 100+ professionals, working on

various molecules and chemicals which are under patenting process. Your Company has cumulatively filed around 68 patent applications and 24 patents have already been granted. Your Company's R&D facility is crucial to its success with its ability to develop advanced intermediates which requires complex chemistry and engineering.

The R&D facility is equipped with the modern instruments and equipment for developing cutting edge technology. The Company's R&D team comprises of highly qualified and experienced team members, who bring in the best practises in the industry.

The R&D remain focussed on:

- New product development
- New technology platform development
- Improvement of productivity as well as yield in existing products
- Reduction in water, waste, energy etc. and using green technology, wherever possible.

DRDC also houses a state-of-the-art Process Engineering Lab, Kilo lab and Process Intensification Lab. Mentioned setups help in generating scale-up related data for all the products, which are developed in DRDC. The speed of lab scale development is increased with the application of Design of Experiments methodology, using a specialised software for screening as well as optimisation.

To aid in new technology platforms and continuous process development, your Company has invested in flow reactor, flow meters etc. under Process Engineering Research & Innovation (PERI).

Analytical Team plays a crucial role in supporting synthetic chemistry at every stage of the product/ process development. The team is strengthened by inducting skilled man-power and analytical tools such as Gas Chromatography (GC), Gas Chromatography/Mass Spectrometry (GCMS), High Performance Liquid Chromatography (HPLC), Liquid Chromatography/Mass Spectrometry (LCMS), Ultra Performance Liquid Chromatography (UPLC) and Ion Chromatography (IC), UV, IR etc. Analytical lab also takes help from third party analytical labs for generating data (like PSD, S-analysis, NMR etc.) for which DRDC currently does not have the facilities.

Process Safety Activities

DRDC has a dedicated process safety team, which analyses the chemical processes for their safe operations based on in-house Accelerated Reaction Calorimeter (ARC), Differential Scanning Calorimeter (DSC), Reaction Calorimeter with gas evolution analysis (RC). Also, the team takes help from third party labs for other safety data generation e.g. powder safety data.

Technology

Your Company's R&D team is working on various new technology platform developments such as Fluorination and Photo Chlorination chemistries, high pressure Oxidation Reactions (both chemical and catalytic) and Gas Solid Reactions etc. A pilot facility for Vapor Phase Process has also been installed.

Lab scale Continuous Stirred Tank Reactor (CSTR) set-ups are used for converting batch mode reactions into continuous mode to achieve better yield, quality, better throughput, reduction in the cost of operations, along with increasing the safety norms of the process.

State-of-the-art pilot plants

Your Company is having two state-of-the-art pilot facilities, one each at Roha, Maharashtra and Nandesari, Gujarat. The pilot plants act as link between R&D and commercial production of various intermediates used in Agrochemicals, Dyes, Pharmaceuticals etc., thereby allowing your Company to deliver quality products seamlessly. The pilot facility boasts of stainless steel and glass lined reactors along with distillation columns, handling systems for gas and liquid raw materials. The pilot facilities are fully-equipped with advanced instruments, Distributed Control system (DCS) and utilities like brine, low pressure steam, cooling water, – etc.

Development of idea to plant process (ITP)

The Technical Organisation is responsible for generating ideas, developing sustainable processes and moving them to commercial production. With this in mind, the team conducts critical review of the process from idea generation to technical development to production (ITP process). The activities are mapped and relevant documents are formalised. The ITP project is targeted to finalize the technical process, the infrastructure required and supporting documents. This also include in-depth safety analysis reports for the chemicals and the processes.

The overall ITP process flow includes:

- Idea collection and assessment of right-to-win.
- Responsible team identification
- Responsibility matrix assignment
- R&D process to finalize the route of synthesis and/or processes
- Process optimization
- Technology transfer including Basic Engineering Package (BEP) and all relevant documents (LDR, TTR1 and TD).
- A highly secure web-based suite of tools has been deployed to manage all data of ITP. The system stores data in a structured format making it searchable. It also prevents knowledge loss while controlling information flow.

Benefits of ideas to plant trials

- Documentation of the Lab Records are all digitized and in the on-line mode.

- Specific formats designed to extract data/information.
- Reports and presentations are created by the system through aggregation.
- Ensures data integrity, data security and data traceability.
- Helps in significant reduction of time spent by scientists in making reports for reviews.
- Making fortnightly reports which reduce the time of technical reviews.
- Complete audit trail and traceability.

Training of technical team

Workshops on process safety and scale up, DoE, ASPEN, Flow Chemistry etc. were organised. The participants came from cross functional teams across Deepak Group. These workshops introduced the salient feature of the process scale-up and process safety enhancing the competency of participants.

NEW R&D CENTRE AT SAVLI, VADODARA

Your Company is also building a new state-of-the-art Research & Development Centre in Savli, Vadodara. The new R&D centre is expected to be operational by March 2025.

SAFETY, HEALTH & ENVIRONMENT

Your Company ensures Safety, Health and Environment (SHE) in relation to all its manufacturing processes, products and services. It consistently takes various measures to develop and adopt safer process technologies, unit operations and sustainable systems from conceptualization stage.

Investments are being made in various areas considering benefits of all stakeholders such as Process Automation to enhance safety and minimize human error, extensive training on process and behavior-based safety, implementation of safe and environment friendly production processes, upgrades to effluent treatment facilities, Reverse Osmosis plants, Multiple Effect Evaporators etc., to reduce effluent discharge. Waste Heat recovery systems are being commissioned to promote the reduction, recovery and reuse of effluents and other utilities.

A systematic and well-documented scale-up procedure is in place for the development of products, starting from Research & Development to Pilot to Commercial scale. This includes risk assessment and process safety studies at each stage to ensure inherently safe processes. DNL have inhouse facilities at our R&D to carry out various thermal studies like RC, DSC, ARC for pre thermal hazard screening.

Your Company has established policies and systems to adhere internationally recognized guidelines, such as the principles of the United Nations Global Compact, the International Labour Organization (ILO) conventions and the Responsible Care Initiative.

Measures are taken to ensure social compliance regarding human rights, labour and social standards, anti-discrimination, conflict of interest and anti-corruption. Health and safety remain a significant focus for your Company, aiming to achieve an accident-free workplace. Your Company firmly believes that all injuries, occupational illnesses, as well as safety and environmental incidents, can be prevented. This mindset encourages all employees to strive for personal safety excellence and the safety of others, including employees, contractors, customers and the surrounding communities.

Your Company follows a systematic incident reporting system, where all incidents, including near misses, are logged into the safety Management Information System (MIS). The corrective and preventive actions are tracked through internally developed software based on these reports. Each incident is investigated by a cross functional team to determine its root causes and necessary precautions are taken to prevent their recurrence. Before implementation, all technological changes and projects undergo various safety study such as Facility Siting, HAZOP Assessment and Quantitative Risk Assessment. Additionally, all changes in plant settings are approved through the Management of Change procedure and undergo pre-startup safety reviews. Your Company continuously strengthen workplace safety and Process Safety Management through employee engagement initiatives.

The Group has embarked on the safety and sustainability journey with a vision of “Zero Incident”. Towards safety transformation and with the aim of driving safety upgradation with respect to systems, processes and continuous culture improvement across all the sites, safety diagnostic assessment was carried out through an external agency and their findings enabled the leadership to take decisions on the transformation roadmap. Safety assessment report included observations highlighting strengths and opportunities on the defined areas of focus and prioritized recommendation.

All manufacturing units, including the Corporate Office, are certified with the latest standards of ISO 9001, ISO 14001 and ISO 45001 and holder of Responsible Care Logo. The scheduled safety awareness programs are carried out across plants to achieve continuous improvement in terms of process safety, workplace safety and behavioural transformation. Formalized procedure exists which promotes rewards & recognition based on the safety performance of the individual and of each site. Employee engagement has been 100% in participation in various safety initiatives and activities.

At DNL, we have a robust OHS governance system headed by the Corporate Safety and dedicated teams responsible for OHS across all our sites and offices. Our HSE Policy guides the safety practices at DNL and is communicated to all our employees, contractors, customers, community, business associates and interested parties

Logistic Safety Management System

Together with its peers, your Company has established Nicer Globe, an independent platform that enables real-time monitoring

of the movement of hazardous materials throughout India. This platform helps monitor any deviations in speed, route, or driving time restrictions, thereby minimizing transport-related incidents. Transportation of raw materials and products are ensured within its supply chain framework, utilizing GPS for real-time monitoring to ensure the safety of its customers, carriers, suppliers, distributors and contractors.

Environment

Your Company’s commitment to environmental protection goes beyond fulfilling legal requirements. Your Company has implemented the chemical industry’s Responsible Care system and has established fundamental principles fully aligned with the UN Sustainable Development Goals. Various initiatives have been undertaken to conserve resources, reduce energy consumption, promote recycling and reuse and minimize pollution. Constant efforts are being made to reduce the environmental footprint and find innovative solutions that benefit the environment.

KEY INITIATIVES DURING FY 2023-24

Emission Management

Your Company is strategically enhancing its energy efficiency by equipping its plants with modern, energy-efficient equipment and technology. These initiatives help minimize emissions and energy consumption while boosting plant efficiency. The R&D team at DNL continuously works to improve product yield. Additionally, the Company is engaged in carbon offsetting efforts, such as tree planting and installing advanced equipment, as part of its commitment to achieving carbon neutrality.

Water Management

Your Company adopts a holistic approach to water management, focusing on conservation principles of reduce, reuse and recycle to achieve water positivity. The goal is to make operations more water-efficient, reduce reliance on freshwater and aim for zero-liquid discharge at its facilities. A Zero Liquid Discharge (ZLD) system is implemented at the Hyderabad unit and in Roha and Dahej units. Approximately 60% of treated water is recovered through Reverse Osmosis systems.

Waste Management

Efficient natural resource use and minimizing environmental impact are crucial to your Company. The Company responsibly disposes of manufacturing waste in compliance with regulatory requirements under the Hazardous and Other Waste (Management and Transboundary Movement) Rules, 2016. Your Company adheres to air emission standards set by the Pollution Control Board and avoids using ozone-depleting substances (ODS). All plastic waste is recycled through processors registered with Central Pollution Control Board and post-consumer waste is managed via Extended Producer Responsibility (EPR). Fly ash is fully handed over to brick and tile manufacturers. DNL’s commitment to sustainability is recognized by EcoVadis, with its Dahej plant achieving a perfect score of 100 out of 100 in the Together for Sustainability (Tfs) audit, reflecting its dedication to sustainable development.

HUMAN RESOURCES

During FY 2023-24, your Company has been actively engaged in various activities to ensure the smooth functioning of the Company's Human Resource Management system. This has an objective of ensuring a strong, skillful & trained workforce availability for the Company all the time. Every year the Company hires fresh Graduate Engineer Trainees from Tier 1, Tier 2, Tier 3 institutes. Your Company continues its endeavour of investing in Human Talent and Talent Management process through its various interventions and programmes to improve and enhance competencies, capabilities, skills and potentials of its workforce. Every year your Company train 100+ employees in emerging and advance technologies in chemical and engineering industry. During FY 2023-24, recognising the significance of identifying high-potential employees to ensure a robust talent pipeline, the Company carried out competency assessment through a renowned agency to identify training needs of high potential performing teams for career development. The Company's Human Resources initiatives and engagement activities have enabled the Company not only to sail through the challenging times, witnessed recently, but has helped the Company in attracting, developing, nurturing & retaining right talent and keeping them motivated. Employee touch points and communication was kept live through Virtual Town Halls wherein Executive Director & CEO, Director (Finance) & Group CFO address all the employees thereby establishing a strong sense of bonding between the Company's management and employees. The Company has come up with dedicated Diversity Equity and Inclusion Policy to encourage inclusive work environment where members from diverse backgrounds can grow together and thrive.

In FY 2023-24 industrial relations across the Company in multiple demographics remained harmonious and issues were discussed and resolved by bilateral dialogues and zero man-days were lost.

EMPLOYEE STOCK OPTION PLAN (ESOP)

The Board of Directors of your Company at their meeting held on February 13, 2024 approved Deepak Nitrite Limited Employee Stock Option Scheme 2024 ("Scheme 2024").

The Scheme 2024 was approved by the Shareholders of the Company through Postal Ballot on April, 19, 2024 by way of Special Resolution. The Shareholders of the Company also, by way of Special Resolution, approved extending the Scheme 2024 to the eligible employees of your Company's subsidiaries.

As required under SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, the Nomination and Remuneration Committee has been designated as the Compensation Committee for the purpose of administration and superintendence of the Scheme 2024.

INSURANCE

All the insurable interests of your Company including inventories, buildings, plant and machinery are adequately insured against risk of fire and other risks. The Company has in place Directors, Officers, Liability Insurance (D&O) for all its Directors (including Independent Directors) and members of the Senior Management Team for such quantum and risks as determined by the Board in line with the requirement of Regulation 25(10) of the Listing Regulations. With respect to fire incident occurred during June 2022 in warehouse areas at the Company's Nandesari plant, there was damage to certain properties, plant, equipment and inventory as well as loss of profit due to business interruption, for which the Company had filed the insurance claim with insurance companies. Upon pursuing the insurance claim rigorously, the Company has received ₹ 127 Crores towards final settlement of insurance claim from insurance companies.

DISCLOSURE AS REQUIRED UNDER SECTION 22 OF THE SEXUAL HARASSMENT OF WOMEN AT WORKPLACE (PREVENTION, PROHIBITION & REDRESSAL) ACT, 2013

The Company has adopted zero tolerance for sexual harassment at the workplace and has formulated a policy on prevention, prohibition and redressal of sexual harassment at the workplace in line with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and the rules thereunder for prevention and redressal of complaints of sexual harassment at workplace. To build awareness in this regard, your Company has been conducting various programs on a continuous basis.

The Company has complied with provisions relating to the constitution of Internal Committee (IC) under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. The Company have setup ICs for its various locations to redress complaints on sexual harassment. The Internal Committee is empowered to look into all complaints of sexual harassment and facilitate free and fair enquiry process with clear timelines.

No complaints were pending at the beginning of the year and no complaints were received during FY 2023-24 from any employee and accordingly, no complaint was pending as on March 31, 2024, for redressal.

GREEN INITIATIVES

Climate change has become an established reality, intricately linked with human activities and industrial operations. Addressing this pressing issue is a paramount priority for the Company and DNL has set ambitious targets to reduce greenhouse gas (GHG) emissions while fostering resilience in its business operations, value chain and local communities.

DNL is actively pursuing strategies to diminish GHG emissions, including sourcing power from renewable energy, deploying

cutting-edge equipment to enhance energy efficiency and leveraging AI-driven solutions to achieve sustainable reductions in energy consumption across its operations.

Furthermore, the Company has implemented various environmental protection measures, such as the installation of an online continuous monitoring system (OCEMS) for air emission monitoring and control. Additionally, DNL has successfully converted canteen waste into biofertilizer, utilized for green belt development and initiated trials to use ETP sludge and agro waste as fuel in boilers to reduce coal consumption and manage waste effectively.

In a significant initiative, DNL has partnered with the Forest Department to conduct a large-scale tree plantation drive in Village Shelavali, Taluka: Shahapur Dist.: Thane, State: Maharashtra. Over 55,000 trees of local species have been planted across 50 hectares of land, yielding positive environmental outcomes such as carbon offsetting, biodiversity conservation, improved air quality, soil erosion prevention and water management. Moreover, this initiative provides employment opportunities to local residents and contributes to afforestation efforts.

In adherence to Section 20 of the Act and as part of our ongoing commitment to environmental sustainability, the Company is distributing electronic copies of the Notice of the 53rd Annual General Meeting, along with the Annual Report for FY 2023-24, to all Members registered with the Company/Depository Participant(s). This initiative reflects our dedication to the 'Go Green' initiative and our continuous efforts to minimize our ecological footprint.

AWARDS AND RECOGNITION

In a bid to keep ensuring its relentless quest for growth and excellence, the Company continues to be committed towards maintaining the highest standards of corporate governance and sustainable practices. As a recognition for our unconventional innovations and focussed drive to achieve best-in-class operations, the Company has been winning a multitude of accolades at various forums while acquiring plaudits as the recipient of numerous prestigious awards for demonstrating its business ethos. These embellishments to Deepak's cognizant candidature deliver a testament to the progress made by the Company and honor its diligent efforts towards delivering value for the welfare of all stakeholders and the society as a whole. Business Responsibility & Sustainability Report

At Deepak Nitrite Limited ('DNL'), sustainability is deeply embedded in our core business, operation strategies and decision-making processes. In line with our commitment to responsible business practices, we are dedicated to realizing our Environmental, Social and Governance (ESG) objectives. We focus on conducting our business in a manner that protects the environment, contributes positively to society and generates long-term value for all stakeholders.

Every year we enhance our ESG strategies and collaborate with our stakeholders to achieve mutually beneficial ESG objectives. Our environmental initiatives are centred on reducing our environmental impact through strategic measures such as increasing the share of renewable energy in our total energy mix and lower carbon emissions. We have implemented advanced technologies such as Mechanical Vapor Recompression (MVR) for water recycling and recovering raw materials from effluent streams to promote resource efficiency. Additionally, we have taken proactive measures to reduce our GHG emissions by substituting conventional fuels with alternative sources in our boilers. These initiatives align with circular economy principles and promote sustainable waste management practices, ensuring that our operations are environmentally sound.

Our dedication extends to cultivate a safe, inclusive and enriching work environment for our employees and communities alike. Upholding stringent ethical standards and prioritizing the development of high-quality products, our efforts transcend mere compliance. Beyond mandatory trainings, we implement comprehensive human rights education and skill enhancement programs, recognizing that effective human capital management is pivotal to our ongoing success. Our policies are focused on enhancing community well-being and ensuring a supportive workplace environment. Our employees being our most valuable asset, we work towards their welfare through robust programs covering health, wellness, work-life balance and rigorous safety measures. Continuous learning and development are central to our HR policies, with a range of training programs designed to enhance technical skills, leadership capabilities and personal growth. Committed to creating an equitable workplace, we promote diversity, inclusion and equal opportunities, striving to eliminate all forms of discrimination.

Our community development efforts aim to generate value by focusing on education, healthcare and skills development to empower marginalized communities. Our approach involves closely engaging with stakeholders to comprehend their needs and ambitions and promote resilience among marginalized communities. Through these efforts, we strive to create a lasting positive impact that supports inclusive growth for all members of society.

The foundation of DNL's governance framework is built on the principles of integrity, transparency and accountability. We adhere to the highest standards of corporate governance, ensuring that our operations are conducted ethically and transparently. Our robust code of conduct outlines ethical behaviour expectations for all employees, with regular training on ethical practices and mechanisms in place for reporting and addressing any unethical behaviour. Transparency is central to our sustainability efforts at DNL. As a practice, we publicly report on our ESG initiatives, including sustainable sourcing. Additionally, we actively collaborate with industry peers, government and non-governmental organisations. These partnerships drive sustainable solutions, knowledge sharing and the adoption of best practices, amplifying our impact and advancing global sustainability goals. By working together strategically, we aim to create lasting positive change in both environmental stewardship and societal well-being.

DNL is dedicated to continuously enhancing our sustainability performance through adopting a comprehensive approach to sustainability. By integrating ESG principles into our environmental, social and governance strategies, we ensure that our efforts not only drive economic growth but also create positive and lasting impacts on the environment and society, setting new standards for excellence in sustainability.

26. Overview of the entity's material responsible business conduct issues:

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Water Use & Effluent Management	Opportunity	Access to clean and safe water is a fundamental human right and is aligned with the United Nations' Sustainable Development Goal 6, which aims to be achieved by 2030. As a responsible corporate citizen, we are committed to ensuring that our operations do not negatively impact the quality or supply of water resources, thereby protecting the ecosystem and society at multiple levels.	NA	Positive - Effective water use and effluent management can drive significant positive financial outcomes for businesses. By optimizing water usage and managing effluent responsibly, companies can reduce operational costs, enhance resource efficiency and mitigate regulatory risks.
2	Climate Change & Emissions	Risk	Climate change & Emissions stands as one of the most critical challenges confronting our planet today. Given the energy and water-intensive nature of chemical production, our failure to reduce our environmental footprint can have significant repercussions on our standing within the industry and our relationships with customers, investors and society as a whole.	We have embraced environmental consciousness through our commitment to sustainable manufacturing practices. This commitment is evident in our focus on reducing utility consumption, extracting value from waste and adopting clean technologies. We are continuously striving to enhance our energy efficiency. Additionally, we ensure that the effluents, emissions and waste generated at our manufacturing facilities remain within the permissible limits set by the respective Pollution Control Boards.	Negative - Climate change & Emissions related issues, if not addressed, would result in negative financial implications in long run. Climate related risks including physical as well as transition risk are directly associated with disruptions to our business operations as well as those of our value chain partners. Financial implications of mitigation efforts are well within our considerations while planning our business strategy
3	Occupational Health & Safety	Risk	Given the inherent nature of our operations, our employees face a range of operational and safety hazards. It is crucial to address any process safety gaps and prevent occupational health and safety (OHS) incidents that could potentially harm our employees. Neglecting employee well-being and safety not only jeopardises their physical welfare but also poses risks to achieving production targets and can have adverse effects on our assets, environment and overall business reputation.	We prioritise continuous safeguarding of occupational health, safety and employee well-being. Stringent safety measures are implemented at all our sites, including regular safety audits and the provision of appropriate personal protective equipment to our employees. We actively promote safety awareness through campaigns and training initiatives.	Negative - Employee health and safety issues, if not addressed, would result in negative financial implications.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Community Involvement	Opportunity	Engaging with the community in its development not only uplifts the community's standard of living but also cultivates future workers and consumers for businesses associated with the end products. This proactive involvement also enhances the Company's reputation by fostering goodwill as a benefactor within the community.	NA	Positive - The benefits to the community provided by CSR activities develop goodwill and boost the Company's brand, which has long-term financial benefits.
5	Growth & Profitability	Opportunity	The Company's capacity to deliver substantial value to all stakeholders hinges on its robust financial foundation. In light of escalating input and energy costs and enduring volatility in foreign exchange rates, maintaining a secure financial position is imperative. This stability not only fortifies its market position but also strengthens relationships with clients, investors and the broader public.	The Company strategically allocates financial resources in adherence to governance standards and best business practices to ensure sustainable profitability. It prioritizes disciplined investments within a robust framework and employs structured cost management to optimize financial outcomes. By consistently exploring opportunities along the value chain and maintaining agility in response to evolving market dynamics, the Company sustains its performance and enhances its competitive edge.	Positive - A planned and methodical approach to investments and cost management will be determining factor to the success of the Company in the short run as well as in the long run.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6	Corporate Governance	Risk	Amid the dynamic landscape of the chemical industry, which is characterised by escalating macro-economic volatility, robust governance practices play a pivotal role in upholding ethical and transparent business operations. Meeting regulatory compliance requirements and effectively managing risks are paramount in ensuring responsible conduct and long-term sustainability.	Our governance practices have been established by our competent and esteemed Board of Directors, comprising members with relevant industry expertise, independent thinking and extensive global exposure. Aided by practice transparency in financial reporting, sustainability efforts and other relevant disclosures and ethical decision-making processes, bolstered by effective risk management, serve as the foundation of our governance framework. We have instilled a culture of accountability and integrity across the Company, recognising its vital role in promoting good governance practices. We implement and enforce a robust code of conduct and ethical standards to guide the behaviour and actions of employees at all levels. Our Board and management prioritise health, safety and environmental considerations by implementing robust safety protocols, promoting sustainable practices and minimising environmental impact. We have a comprehensive risk management framework to identify, assess and mitigate risks associated with operations, safety, environmental impact and compliance to solidify our governance approach. We ensure strict adherence to all applicable laws, regulations and industry standards to maintain compliance and mitigate legal and reputational risks. We have established Board Committees, such as Audit, Risk Management, Nomination and Remuneration, CSR, Sustainability Committees and more to provide focussed oversight in critical areas. We regularly evaluate our governance practices, identify areas for improvement and implement necessary changes to enhance effectiveness and relevance and build trust with all stakeholders in line with global standards of ESG.	Negative - Corporate Governance is increasingly the parameter for evaluation by external stakeholders and are likely to amplify competitive advantage relating to business sustainability. In case of their failure, it would have severe financial implications.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
7	Business Ethics & Compliance	Opportunity	Success in business depends on creating and sustaining a culture of ethics and integrity. It supports daily decision-making by providing employees and partners with a useful reference.	NA	Positive - Prioritizing business ethics and compliance can lead to significant financial benefits for organizations. By adhering to ethical standards and regulatory requirements, companies mitigate legal risks and avoid costly fines and penalties. A strong ethical culture also fosters trust and credibility with stakeholders, enhancing customer loyalty, investor confidence and employee morale.
8	Business Continuity	Opportunity	Risk management and ethics are interconnected. A company faces lower risks to its business when it adheres to ethical standards. Aligning business ethics with risk management is crucial for ensuring continuity and resilience during disruptive incidents.	NA	Positive - Business continuity ensures resilience against disruptions, minimizing revenue loss, operational downtime and reputational damage. This proactive approach helps maintain customer trust, preserves market position and reduces recovery costs, ultimately safeguarding profitability and sustaining long-term financial health.
9	Product Stewardship	Risk and Opportunity	Risk: Reputational damage, negative impact on market share, Opportunity: Reduction in environmental impact and increased stakeholder trust and in revenue	DNL has established a protocol to assess the ESG (Environmental, Social and Governance) impacts of products during their development stages. These impacts are carefully considered in our decision-making processes. We have calculated the carbon footprint for most of our products and planning to conduct Life Cycle Assessments (LCA) for few of our existing products in the fiscal year 2023-24.	Positive - Increased circularity will result in decreased cost of materials, increased productivity and greater profitability. Such operational practices also cater to the customers preferences; aligned to responsibly sourced /manufactured products.
10	Sustainable Supply Chain	Risk	Having a sustainable supply chain is critical for Company's operations and business continuity Considering the size of Company's operations, the Company can influence the ESG priorities for their suppliers It will have a high impact on stakeholders as well.	We maintain a robust logistics and distribution network using secure transportation with GPS tracking to monitor raw materials and finished goods in real-time. Our organised warehousing ensures prompt customer deliveries. Leveraging our manufacturing expertise, integrated facilities and agile operations, we consistently deliver reliable and steady performance.	Negative - Any disruption in Supply Chain would adversely affect the business continuity and hence would jeopardise sustainability of business.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
11	Waste Management	Opportunity	The production and use of agrochemicals generate hazardous waste, necessitating a focus on reducing waste generation, as well as recycling and reusing waste wherever possible.	NA	Positive - Implementing effective waste management strategies can lead to substantial financial benefits for businesses. By reducing waste generation, companies can lower disposal costs and improve resource efficiency.
12	Energy Management	Opportunity	Recognizing the importance of energy efficiency in all business activities, we actively monitor our performance using systems installed across multiple locations to track daily energy consumption. Our energy conservation strategy aligns with our commitment in achieving established sustainability goals and targets.	NA	Positive - Effective energy management practices can yield substantial financial benefits for businesses. By optimizing energy use, operational costs associated with utilities, such as electricity and fuel can be reduced.
13	Employee Engagement	Opportunity	Skilled and proficient employees execute their responsibilities with effectiveness and efficiency, contributing to a capable workforce that drives internal growth. This enhances product quality and ultimately, boosts revenue for the Company.	NA	Positive- Efforts in ensuring the skill development of the workforce will lead to a more efficient workforce and improved productivity of the Company.
14	Human Rights	Risk and Opportunity	<p>Human rights significantly influence business operations both internally and externally, spanning from raw material procurement to distribution and disposal. They also play a crucial role in shaping the company's reputation throughout the entire value chain.</p> <p>Risk: Potential regulatory non-compliance and reputational damage.</p> <p>Opportunity: Upholding employees' and workers' rights through collective action.</p>	<p>We have implemented a robust Human Rights due diligence framework to systematically assess our operations. This includes conducting human rights vulnerability assessments at our operational sites to identify and mitigate risks, as well as monitoring and reporting our performance. We are committed to upholding human rights across all aspects of our business operations.</p> <p>Our commitment to respecting human rights extends to our business partners through alignment with our policies and contractual agreements. In the fiscal year 2023-24, no incidents of human rights violations were reported, demonstrating our dedication to maintaining ethical standards throughout our operations.</p>	<p>Positive- Implications of non-compliance to social adherence norms related to human rights will have reputation impact for any company. The mitigation of such risks requires investment in human rights vulnerability assessment and actions. Proactive and regular compliance by the workforce is imperative to ensure business continuity in the long run.</p>

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
15	Customer Relationships	Opportunity	In a rapidly evolving and highly competitive operating environment, the growth of our business is intricately tied to our customer base. Strengthening our relationships with customers is, therefore, a crucial aspect that can profoundly influence our value-creation capabilities.	We are dedicated to providing innovative and cost-effective products to retain and attract customers. We place significant emphasis on actively engaging with them and comprehending their needs to enhance the overall customer experience. This customer-centric approach has proven instrumental in fostering customer loyalty, which stands as one of our most prominent strengths in driving profitable growth.	Positive - A structured and transparent relationship with customers has the potential to expand business in both the short and long run, resulting in a sustainable business model.
16	Diversity, Equity & Inclusion	Opportunity	At DNL, our focus is on creating value through the continuous expansion of our workforce and fostering agility. Our team comprises individuals from diverse educational, cultural and demographic backgrounds. We are committed to upholding principles of inclusion and diversity in our employment practices, ensuring they remain inclusive of all ages and genders.	NA	Positive - Investing in Diversity, Equity and Inclusion (DEI) initiatives can lead to significant financial benefits for organizations. By fostering a diverse workforce that includes individuals from various backgrounds, genders, ages and cultures, companies can enhance innovation and creativity. This diversity of thought often leads to better problem-solving and decision-making processes, which can drive operational efficiency and productivity.
17	Product Innovation	Opportunity	As our products are utilized across diverse manufacturing sectors, the demand for advanced compatibility with upgraded technologies is crucial. Emphasizing product innovation through enhanced technologies and processes will position us for a broader market in the future.	NA	Positive - Better products and the introduction of new products into the market will generate more revenue through greater business with existing customers and the addition of new clients.
18	Digitalization, IT Security & Data Privacy	Opportunity	As demonstrated during recent global disruptions, adopting digital modes of operation is crucial. These methods can greatly influence customer relationships, product launches, workforce productivity and operational efficiency.	NA	Positive - The integration of digital technologies within operations has been demonstrated across industries to alleviate operational efficiency and robustness of business output. It also allows the Company to realize strategy automation and business intelligence in the wake of competitive agility.

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The process for consultation between stakeholders and the Board on economic, environmental and social topics involves both direct and delegated mechanisms. In direct consultation, stakeholders engage with the Board through structured meetings, surveys and public forums, where their inputs are systematically recorded and compiled into comprehensive reports. These reports are subsequently presented to the Board during scheduled sessions to inform decision-making. When consultation is delegated, designated representatives such as Committees or managers gather stakeholder's feedback using various methods like meetings and surveys. The collected feedback is synthesized into detailed summary reports, which are communicated to the Board through regular briefings or written submissions. This ensures that the Board is kept informed of stakeholder perspectives and can make decisions based on a broad range of inputs.

2. Whether stakeholder consultation is used to support the identification and management of environmental and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, the stakeholder consultation is used to support the identification and management of environmental and social topics.

Input from stakeholders plays a crucial role in shaping policies and activities related to these areas. For instance, in response to community concerns about environmental impacts, formal and informal feedback from stakeholders are instrumental in enhancing the Company's waste management practices, leading to the adoption of a new recycling program. Similarly, stakeholder consultation revealed the need for improved social policies, resulting in the development of a comprehensive community engagement strategy. This strategy included regular meetings and partnerships with local organizations to address social issues more effectively. These consultations ensure that stakeholder perspective are integrated into the Company's policies and activities, fostering sustainable and community-aligned decision-making.

3. Provide details of instances of engagement with and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

Based on the stakeholders consultation and baseline surveys, the CSR activities of the Company are inter alia aimed to address the concerns of vulnerable/ marginalized stakeholder groups.

Additionally, to better address the needs of marginalized groups such as indigenous communities, the organization conducted focused listening sessions to understand their unique challenges related to social and cultural preservation. This engagement led to the implementation of culturally sensitive environmental management practices and the creation of educational programs aimed at preserving local requirements. Another instance includes partnering with non-profit organizations to provide health support services to underserved populations, thereby addressing their immediate needs and fostering long-term resilience. These actions demonstrate the Company's commitment to actively engaging with and responding to the concerns of vulnerable groups, ensuring that their voices are heard and integrated into the decision-making process.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency

Yes. Assessment has been carried out by TÜV SÜD South Asia Private Limited.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation:

Yes, the Company has implemented Zero Liquid Discharge system (ZLD) at its Hyderabad Unit-II. Details of ZLD as follows;

1. Effluents with high TDS are first given primary treatment and then processed through a multi-effect evaporator system, from which the concentrate effluent is sent to a fluidized bed recovery system to recover sodium sulfate salt and treated water is being reused in the process.
2. Sewage treated in Sewage Treatment Plant followed by RO plant. RO permeate for reuse & RO reject for evaporation.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	FY 2023-24 (Current Financial Year)		FY 2022-23 (Previous Financial Year)	
	Value	Please specify unit	Value	Please specify unit

*The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2022 by World Bank for India which is 22.88.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes. Assessment has been carried out by TUV SUV South Asia Private Limited.

8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details

The Company is making various efforts towards reduction of Green House Gases (GHG) by investing in newer technologies and equipment, which help improving efficiency and thus reducing input at the same time lower energy consumption. In addition, the Company is also making efforts in increasing use of renewable energy by installation of rooftop solar power plants. The recycling of waste water and waste generated is also aimed at reducing GHG emissions.

9 Provide details related to waste management by the entity:

*The Company started monitoring three new categories of wastes viz. (a) Construction and demolition waste, (b) other Non-Hazardous Waste and (c) other recovery operation from FY 2023-24.

*The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published for the year 2022 by World Bank for India which is 22.88.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes. Assessment has been carried out by TUV SUV South Asia Private Limited.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes

The Company ensures responsible waste management practices whereby waste is being segregated, stored, labelled, transported and sold to recyclers/co-processing to cement industries/disposed to third party treatment facility in line with legal compliance under Hazardous and Other Waste (Management and Transboundary Movement) Rules, 2016. Moreover, 89% of the total waste generated in FY 2023-24 has been sent for reuse/recycle/pre-processing/co-processing purpose i.e. 109487.93 MT of waste sent to recycler for producing the value-added product out of waste and co-processing waste sent to third party Cement plant as alternative fuel resources material.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

The Company does not have any operations or offices in or around ecologically sensitive areas.

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current Financial Year:

S. No	Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link

Our Independence, Ethical Requirements and Quality Control

Our team comprising multidisciplinary professional, have complied with independence policies of TÜV SÜD, which address the requirements of the ISAE 3000 (Revised) in the role as independent Verifier. TÜV SÜD states its independence and impartiality and confirms that there is “no conflict of interest” with regard to this assurance engagement. In the reporting year, TÜV SÜD did not work with DNL on any engagement that could compromise the independence or impartiality of our findings, conclusions and recommendations. TÜV SÜD was not involved in the preparation of any content or data included in the Report, except for this assurance statement.

TÜV SÜD maintains complete impartiality towards any individuals interviewed during the assurance engagement. We have complied with the relevant applicable requirements of the International Standard on Quality Control (“ISQC”) 1, Quality.

Our Responsibility

Our responsibility, as agreed with the management of DNL, is to conduct a Reasonable Assurance on the annual BRSR set out in the subject matter paragraph, as disclosed in the report, as per the principles of the ISAE 3000 (Revised) and in accordance with the SEBI’s Guidance Note on BRSR and based on the procedures we have performed and the evidence we have obtained.

The procedures we performed were based on our professional judgment and included inquiries, observation of process followed, inspection of documents, analytical procedures, evaluating appropriateness of quantification methods, agreeing, or reconciling with underlying data, etc.

The data is verified on a sample basis, the responsibility for the authenticity of data lies with the reporting organization. Reporting Organization is responsible for archiving the related data for a reasonable time period.

Limitations and Exclusions

TÜV SÜD have relied on the information, documents, records, data and explanations provided to us by DNL for the purpose of our review.

The Assurance scope excludes the following:

- Our engagement did not include an assessment of the adequacy or the effectiveness of DNL’s management on Sustainability related issues and not even DNL’s strategy for the sustainability. During the assurance process, **TÜV SÜD** did not visit any external stakeholder’s premises, however few external stakeholders were interviewed as a part of the BRSR verification engagement.
- Review of the economic performance indicators included in the Report which, we have been informed by the Company, are derived from the Company’s audited financial records only.

- The Company's statements that describe expression of opinion, belief, inference, aspiration, expectation, aim of future intention.
- Any disclosures beyond those specified in the Scope section above.
- Data and information falling outside the defined reporting period.

Conclusion

Based on the scope of this assurance engagement, the key indicators and leadership indicators, sustainability performance indicators reported in this BRSR we conclude that this BRSR provides a fair and factual representation of the material topics, related strategies and meets the overall content and quality requirements.

TÜV SÜD has evaluated the requirement in context of requirements of the ISAE 3000 (Revised) and in accordance with the SEBI's Guidance Note on BRSR. Based on the methodology/procedures we have adopted and performed, no deviations have observed that causes us to believe that the information subject to the Reasonable Assurance engagement was not prepared in line with the requirement. We found that the information and data provided in all the sections and principles are consistent and adequate with regards to the reporting criteria of the BRSR.

Statement of Independence, Impartiality and Competence

TÜV SÜD South Asia Pvt. Ltd is an independent professional services company that specializes in Health, Safety, Social and Environmental management services including assurance with over 150 years history in providing these services.

No member of the assurance team has a business relationship with DNL, its Directors or Managers beyond that of verification and assurance of sustainability data and reporting. We have conducted this assurance independently and we believe there to have been no conflict of interest.

TÜV SÜD has implemented a Code of Ethics across the business to maintain high ethical standards among staff in their day-to-day business activities.

Based on the scope of our review, our conclusions are outlined below:

Governance, leadership and supervision: The top management commitment, business model to promote inclusive growth, action and strategies, focus on services, risk management, protection and restoration of environment and priorities are represented adequately.

Stakeholder Inclusiveness: We have not identified any discrepancies in this aspect. Internal and external Stakeholder identification and engagement is carried out by DNL on a periodic basis to bring out key stakeholder concerns as material aspects of significant stakeholders.

Materiality: The materiality assessment process has been carried out, based on the requirements of the Assurance Engagements (ISAE) 3000 (Revised) and Guidance Note on BRSR considering aspects that are internal and external to DNL's context of the organization. The Report fairly brings out the aspects and topics and its respective boundaries of the diverse operations of DNL in our view, the Report meets the requirements.

Responsiveness: We believe that the responses to the material aspects are fairly defined and captured in the Report, in our view, the Report meets the requirements.

Completeness: The Report has fairly disclosed the General and Specific Standard Disclosures including the Disclosure on Management Approach, monitoring systems and sustainability performance indicators as prescribed in the Standards in accordance with the Core requirement, hence in our view the Report meets the requirements.

Reliability: Most of the data and information was verified by assurance team at DNL's manufacturing locations as well as corporate office and found appropriate. Minor inaccuracies in the data identified during the verification process were found to be attributable to transcription and interpretation errors and these errors have been corrected immediately. Therefore, in accordance with the ISAE 3000 (Revised) assurance engagement, TÜV SÜD concludes that the sustainability data, parameters, information and indicators presented in the Report are reliable and acceptable. In our view, the Report meets the requirements.

Impact: We observed and assessed that DNL has well-defined procedures to routinely monitor and measure their sustainability impact and they have skilled subject matter experts who are driving the sustainability effectively and efficiently. During verification we did not come across any such instances or issues where we found anything which has impact on the ecosystem and well as the neighboring infrastructure. In our view, the Report meets the requirements.

Consistency and comparability: The information in the Report is presented in a consistent and comprehensive method. Thus, the principle of consistency and comparability is satisfactory.

Our report does not extend to any disclosures or assertions relating to future performance plans and/or strategies disclosed in the reports.

Corporate Governance Report

for the year ended March 31, 2024

1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Corporate governance refers to the set of principles, values and processes that guide the management and board of a company. It is essential for the long-term success of any business, as it ensures accountability, transparency and ethical decision-making. The foundation of a successful enterprise is built on excellent corporate governance practices and strong leadership is vital to this end.

The philosophy on Corporate Governance of Deepak Nitrite Limited ("the Company") envisages the attainment of a high-level transparency and accountability in the functioning of the Company and the efficient conduct of its business, including its interaction with employees, shareholders, depositors, creditors, consumers, financial institutions and other lenders. Accountability improves decision making and transparency helps to explain the rationale behind decisions which in turn helps in building confidence in the Company.

The Company firmly believes that for a company to succeed on a sustained basis to meet the various challenges posed on account of changing business environment and stakeholder's expectation, it must maintain global standards of corporate conduct and also believes that Corporate Governance is not simply a matter of creating checks and balances; it is about creating an outperforming organisation, which leads to increasing employee and customer satisfaction.

Corporate Reporting

The Company's Corporate Governance practices are meticulously aligned with international standards and reflect global best practices, ensuring that it adheres to the highest levels of ethical conduct and accountability. As a committed corporate citizen, the Company not only encourage but also recognize employee participation in and volunteering for environmental and social initiatives. These activities are integral to the organisational sustainability and

are a testament to the proactive engagement in enhancing a responsible corporate culture.

Over the past five years, the Company has enriched its corporate reporting by including additional disclosures and relevant information, aiding stakeholders in making well-informed decisions. The Company's report adheres to the Integrated Reporting framework's guiding principles and presents both financial and non-financial data in a manner that is concise and comparable and aims to improve the transparency and aids better risk management while supporting more informed decision-making across its operations. Such strategic transparency optimises the internal processes and aims to enhance the trust and confidence of the Company's investors, customers and community partners.

During the Financial Year 2023-24, the 52nd Annual Integrated Report of the Company received extensive recognition, securing a total of seven prestigious awards at the League of American Communications Professionals (LACP) Vision Awards and Spotlight Awards. This illustrious recognition included the coveted Platinum Award for excellence in reporting within the industry. The Board periodically reviews compliance reports of all laws applicable to the Company, prepared by the Company as well as steps taken by the Company to rectify instances of non-compliances, if any. The Board also reviews performance of its unlisted subsidiary companies at regular intervals and pursuant to requirement of the Listing Regulations, the minutes of the Board meetings of the Company's unlisted subsidiary companies are also placed before the Board. The management of the unlisted subsidiary companies periodically bring to the notice of the Board of the Company significant transactions and arrangements entered into by the unlisted subsidiary companies.

The Company Secretary tracks and monitors the Board and its Committees proceedings to ensure that the terms of reference/charters are adhered to, decisions are properly recorded in the minutes and actions on the decisions are tracked. The terms of reference/charters are amended and updated from time to time in order to keep the functions and role of the Board and its Committees at par with the changing statutes. Meeting effectiveness is ensured through circulation of detailed agenda alongwith other materials / presentation in advance as per statutory timelines and tracking of action taken reports at every meeting. Additionally, based on the agenda items, meetings are attended by members of the senior leadership as invitees which bring in the requisite accountability and also provide developmental inputs.

With an objective to ensure maximum presence of Independent Directors in the Board Meeting, dates of the Board meetings are fixed in advance after consultation with individual Directors and considering their convenience. The agenda is circulated well in advance to the Board members, along with comprehensive back-ground information on the

items in the agenda to enable the Board members to take informed decisions. Wherever it is not practicable to attach any document to the agenda, the same is tabled before the meeting with specific reference to this effect in the agenda. The agenda and related information are circulated in electronic form and also through a highly secured web-based application, which is available to the Board members through tablet/laptop. This has reduced paper consumption, thus enhancing the sustainability efforts of the Company and increasing confidentiality.

In case of special and urgent business needs, the Board's/ Committee's approval is taken by passing resolutions through circulation, as permitted by law, which is noted and confirmed at the subsequent Board/Committee Meeting.

The Board also reviews the declarations made by the Chairman & Managing Director, Executive Director & CEO, Director (Finance) & Group CFO, Chief Financial Officer and Company Secretary of the Company regarding compliance with all applicable laws, on a quarterly basis.

DIVIDEND DISTRIBUTION POLICY

[Approved by the Board of Directors on May 4, 2018]

1. INTRODUCTION

The Securities and Exchange Board of India (SEBI) on July 8, 2016 notified the SEBI (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulation, 2016.

Vide these Regulations, SEBI inserted Regulation 43A after Regulation 43 of SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015, which requires top five hundred listed entities (based on market capitalization calculated as on March 31 of every Financial Year) to formulate a Dividend Distribution Policy, which shall be disclosed in its Annual Report.

Deepak Nitrite Limited ('the Company'), being one of the five hundred companies as per the criteria mentioned above; the Board of Directors has approved and adopted this Dividend Distribution Policy at their meeting held on May 4, 2018, being the effective date of the Policy.

2. OBJECTIVES AND SCOPE

This Policy lays down the broad framework which will act as a guiding principle for the purpose of declaring or recommending Dividend during or for any Financial Year, by the Company.

The intent of the Policy is to broadly specify the external and internal factors including financial parameters that shall be considered while declaring Dividend and the circumstances under which shareholders of the Company may or may not expect Dividend and how the retained earnings shall be utilized etc.

The Policy, however, is not an alternative to the decision making process of the Board for recommending Dividend and the Board may take into consideration other factors as well in addition to those numerated in this Policy.

3. APPLICABILITY

This Policy shall apply to the Dividend on the Equity Shares of the Company. Presently, the Company has only one class of Equity Shares.

This Policy shall not apply to determination and declaration of Dividend on preference shares, as and when issued by the Company, as the same will be as per the terms of issue of such preference shares, approved by the shareholders.

4. DEFINITIONS

- 4.1. **"Board of Director"** or **"Board"** shall mean the Board of Directors of the Company, as constituted from time to time.
- 4.2. **"Companies Act"** or **"Act"** shall mean the Companies Act, 2013 and Rules framed thereunder, including any amendments, modifications, clarifications or re-enactment thereof, for the time being in force.
- 4.3. **"Dividend"** includes any interim dividend.
- 4.4. **"Financial Year"** a consecutive period of 12 months ending March 31.
- 4.5. **"Policy"** means this Dividend Distribution Policy.
- 4.6. **"Regulations"** shall mean SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015, including any amendments, modifications, clarifications or re-enactment thereof, for the time being in force.

5. DECLARATION OF DIVIDEND

- 5.1 Subject to provisions of the Act, Dividend may be declared and paid out of:
 - (a) Profits of the Company for the Financial Year for which the Dividend is to be paid after setting off carried over losses of the previous Financial Year and depreciation not provided in the previous Financial Year(s);
 - (b) Undistributed profits of the previous Financial Years remaining undistributed after provisioning for depreciation in accordance with the Act and/or Regulations; or
 - (c) Out of (a) and (b) both.
- 5.2 Before declaration of Dividend, the Company may transfer a portion of its profits to reserves of the Company as may be considered appropriate by the Board at its discretion.

6. PARAMETERS FOR DECLARATION OF DIVIDEND

- 6.1 The Board of Directors may consider the following financial parameters, internal and external factors while recommending or declaration of the Dividend:

A. Financial Parameters / Internal Factors

- Operating cash flow of the Company
- Profit earned during the Financial Year and available for distribution.
- Earnings Per Share (EPS)
- Gross Dividend payout ratio
- Financial Ratios
- Business expansion and growth
- Company's liquidity position and future cash flow need
- Stipulation / covenants in loan Agreements
- Such other factors as the Board may deem fit from time to time

B. External Factors

- Economic environment
- Capital markets
- Global conditions
- Industry outlook and growth rate
- Economic and regulatory framework
- Governmental policies

6.2 While recommending or declaring Dividend, the Board will consider adequacy of profit calculated in accordance with the applicable provisions of the Act and Indian Accounting Standards. The Board of Directors may, in exceptional circumstances, consider utilising retained earnings for declaration of Dividend subject to provisions of the Act and/or Regulations.

7. CIRCUMSTANCES UNDER WHICH SHAREHOLDERS MAY OR MAY NOT EXPECT DIVIDEND

Dividend payout is a crucial decision as it determines the share of profit to be distributed amongst the shareholders and share of profit to be retained in the business. The decision seeks to balance the dual objectives of appropriately rewarding shareholders through Dividends and retaining profits in order to maintain a healthy capital adequacy ratio to support future growth. The shareholders of the Company may not normally expect Dividend in the following circumstances, subject to discretion of Board of Directors:

- In case the Company has incurred losses or inadequacy of profit
- It would in the interest of the Company to re-invest / plough back the profits of the Company for major expansion / diversification requiring major funding
- Any other unforeseen event which would restrict ability to recommend Dividend

8. UTILISATION OF RETAINED EARNINGS

The Board of Directors may retain its earnings in order to make better use of available funds and increase the value of the stakeholders in the long run. The decision of utilisation of the retained earnings of the Company shall be based on the following:

- Market expansion plan
- Product expansion plan
- Increase in production capacity
- Replacement of capital assets
- Diversification of business
- Long term strategic plans
- Dividend payment
- Such other criteria as the Board may deem fit from time to time
- Such purpose as may be permitted under the Act and/or Regulations

9. PROCEDURE

9.1 Pursuant to provisions of the Act, the Regulations and the Policy, Interim Dividend approved by the Board of Directors will be confirmed by the shareholders and Final Dividend, if any, recommended by the Board of Directors, will be subject to shareholders' approval, at the ensuing Annual General Meeting of the Company.

9.2 The Members, whose name appears in the Register of Member as on Record Date/Book Closure, as may be decided by the Board of Directors, shall be entitled for Dividend.

9.3 The Dividend shall be paid to the Members within the time limit prescribed under the Act and/or Regulations.

9.4 The Company shall ensure compliance of provisions of the Act and/or Regulations and this Policy in relation to Dividend declared by the Company.

10. PARAMETERS WITH REGARD TO VARIOUS CLASSES OF SHARES

Since the Company has issued only one class of Equity Shares with equal voting rights, all the Members of the Company are entitled to receive the same amount of Dividend per Equity Share. The Policy shall be suitably revised at the time of issue of any new class of shares depending upon the nature and guidelines thereof.

11. DISCLOSURES

The Dividend Distribution Policy shall be disclosed in the Annual Report and on the website of the Company.

12. REVIEW AND AMENDMENTS

- 12.1 This Policy will be reviewed by the Board of Directors of the Company as they deem necessary.
- 12.2 The Board of Directors on its own can amend this Policy, as and when deem fit.
- 12.3 In case of any amendment(s), clarification(s), circular(s) etc. issued by the relevant authorities, not being consistent with the provisions laid down under this Policy, then such amendment(s), clarification(s), circular(s) etc. shall prevail upon the provisions hereunder and this Policy shall stand amended accordingly from the effective date as laid down under such amendment(s), clarification(s), circular(s) etc.

Independent Auditor’s Report

To The Members of Deepak Nitrite Limited Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying standalone financial statements of Deepak Nitrite Limited (“the Company”), which comprise the Balance Sheet as at March 31, 2024 and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (“SAs”) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor’s Response
1	<p>Revenue recognition</p> <p>Revenue recognition is significant audit risk across all units within the Company.</p> <p>Risk exists that – Revenue is recognized without transfer of control over goods and is not in accordance with Ind AS-115 “Revenue from Contracts with Customers”.</p>	<p>Our audit consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:</p> <ul style="list-style-type: none"> We evaluated the design and performed walk through of internal controls relating to revenue recognition. We selected sample of sales transactions and tested the operating effectiveness of the internal controls relating to revenue recognition. We carried out a combination of procedures involving enquiry and observation, reperformance and/or inspection. We have tested samples of sale transactions to their respective customer contracts, underlying invoices and related documents. We have performed cut-off procedures for revenue transactions at year-end in order to conclude on whether they were recognised in accordance with Ind-AS 115.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit, we report, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 34 to the standalone financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
 - iv.
 - (a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 48(v)(a) to the financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The Management has represented, that, to the best of its knowledge and belief, other than as disclosed in the note 48(vi)(a) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.

As stated in note 49 to the standalone financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. Such dividend proposed is in accordance with section 123 of the Act, as applicable.

- vi. Based on our examination, which included test checks, the Company has used an accounting software(s) for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software(s). Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

We have audited the internal financial controls with reference to standalone financial statements of Deepak Nitrite Limited (“the Company”) as at March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

A company’s internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2024, based on the criteria for internal financial control with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 2 under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Deepak Nitrite Limited of even date)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) In respect of the Company’s Property, Plant and Equipment and Intangible Assets:
- (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, capital work-in-progress and relevant details of right-of-use assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
 - (b) The Company has a program of verification of property, plant and equipment, capital work-in-progress and right-of-use assets so to cover all the items once every two years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, all Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) Based on the examination of the registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title deeds of all the immovable properties of land and acquired buildings (other than properties where the Company is the lessee and the lease agreements/supplementary agreements/ deed of assignments are duly executed in favour of the Company) disclosed in the financial statements included in property, plant and equipment are held in the name of the Company as at the balance sheet date. Immovable properties of land and buildings whose title deeds have been pledged as security for loans, guarantees, etc., are held in the name of the Company based on the confirmations directly received by us from lenders / custodians.
 - (d) The Company has not revalued any of its property, plant and equipment (including Right of Use assets) and intangible assets during the year.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) The inventories except for goods-in-transit and stocks held with third parties were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. For stocks held with third parties at the year-end, written confirmations have been obtained and in respect of goods in transit, the goods have been received subsequent to the year end or confirmations have been obtained from the parties. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
- (b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate, at points of time during the year, from banks or financial institutions on the basis of security of current assets. In our opinion and according to the information and explanations given to us, the quarterly returns or statements comprising stock statements, book debt statements, credit monitoring arrangement reports, statements on ageing analysis of the debtors/other receivables and other stipulated financial information filed by the Company with such banks or financial institutions are in agreement with the unaudited books of account of the Company of the respective quarters and no material discrepancies have been observed. The Company is yet to submit the return/ statement for the quarter ended March 31, 2024 with the banks or financial institutions.

(iii) The Company has not provided any advances in the nature of loans or stood guarantee, or provided security to any other entity during the year. The Company has made investments in and granted loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, in respect of which:

(a) The Company has provided loans during the year and details of which are given below:

Particulars	(₹ in crore)
Aggregate amount granted/provided during the year:	
- Subsidiaries	328
- Others	1.63
Balance outstanding as at balance sheet date in respect of above cases:	
- Subsidiaries	169.98
- Others	1.90

(b) The investments made and the terms and conditions of the grant of all the above-mentioned loans, during the year are, prima facie, not prejudicial to the Company's interest.

(c) In respect of loans granted, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are regular as per stipulation.

(d) According to information and explanations given to us and based on the audit procedures performed, in respect of loans granted, there is no overdue amount remaining outstanding as at the balance sheet date.

(e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.

(f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii)(f) is not applicable.

(iv) The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.

(v) According to the information and explanations given to us, the Company has not accepted any deposits from the public to which the directives issued by the Reserve Bank of India and the provisions of section 73 to 76 or any other relevant provisions of the Act and the Companies (Acceptance of Deposit) Rules, 2014, as amended, would apply. Accordingly, clause (v) of paragraph 3 of the Order is not applicable to the Company.

(vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013. We have broadly reviewed the books of account maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Companies Act, 2013 and are of the opinion that, prima facie, the prescribed cost records have been made and maintained by the Company. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

(vii) In respect of statutory dues:

(a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues in arrears as at March 31, 2024 for a period of more than six months from the date they became payable.

- (b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2024 on account of disputes are given below:

Name of Statute	Nature of Dues	Forum where Dispute is Pending	Period to which the Amount Relates	Amount involved (₹ in crores)	Amount unpaid (₹ in crores)
Central Sales Act	Sales Tax	Sales Tax commissioner (Appeal)	FY 2010 to FY 2014	0.53	-
Employees' Provident Fund & Miscellaneous Provisions Act, 1952	Provident Fund	Gujarat High Court	FY 1993 to FY 1996	0.10	0.10

- (viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) In our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and hence, reporting under clause (ix)(c) of the Order is not applicable.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. The Company did not have any joint ventures during the year.
- (f) The Company has not raised any loans during the year and hence reporting on clause (ix)(f) of the Order is not applicable.
- (x) (a) The Company has not issued any of its securities (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.
- (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.

- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports issued to the Company during the year and covering the period upto December 2023 and the draft of the internal audit reports where issued after the balance sheet date covering the period January 2024 to March 2024 for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable.
- (d) The Group does not have any CIC as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

COMPANY OVERVIEW

Deepak Nitrite Limited ('DNL' or 'the Company') is a prominent chemical manufacturing public limited company incorporated and domiciled in India. Its registered office is located at 2nd Floor, Fermenter House, Alembic City, Alembic Avenue Road, Vadodara – 390 003, Gujarat, India and its manufacturing facilities are located in the states of Gujarat, Maharashtra and Telangana.

The Company manufactures Advanced Intermediates.

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended March 31, 2023, except for amendments to the existing Indian Accounting Standards (Ind AS). The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective. The Company applies, for the accounting periods beginning on or after April 1, 2023, that do not have material impact on the financial statements of the Company.

Ind AS 1 - Presentation of Financial Statements:

This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 01, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the Standalone Financial Statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors:

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 01, 2023. The Company has evaluated the amendment and there is no material impact on its Standalone Financial Statements.

Ind AS 12 - Income taxes:

This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 01, 2023. The Company has evaluated the amendment and there is no material impact on its Standalone Financial Statements.

The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

1. Material Accounting Policies

This Note provides a list of the material Accounting Policies adopted by the Company in the preparation of these Standalone Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

(i) Compliance with Ind AS

The Standalone Financial Statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The Standalone Financial Statements have been prepared on a historical cost basis except for the following assets and liabilities which have been measured at fair value or revalued amount:

- (a) Certain financial assets and financial liabilities measured at fair value
- (b) Derivative Financial instruments
- (c) Defined benefit plan – plan assets measured at fair value

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if the market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value measurement and/or disclosure purposes in the standalone financial statements is determined on such a basis except for leasing transactions that are within the scope of Ind AS 116 and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(ii) Functional and Presentation Currency

Items included in the Standalone Financial Statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('functional currency'). The Standalone Financial Statements of the Company are presented in Indian currency (₹), which is also the functional and presentation currency of the Company.

(iii) Use of estimates

Preparation of the Standalone Financial Statements requires use of accounting estimates which, by definition, will be equal to the actual results. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Useful lives and residual value of property, plant and equipment: The Company reviews the useful life and residual value of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. (Refer Note 2)

Allowance for expected credit losses: The expected credit allowance is based on the ageing of the days receivables which are past due and the rates derived based on past history of defaults in the provision matrix. (Refer Note 38.5)

Fair value of investments: The Company has invested in the equity instruments of various companies. However, the percentage of shareholding of the Company in such investee companies is very low and hence, it has not been provided with future projections including projected statement of profit and loss by those investee companies. Hence, the valuation exercise carried out by the Company with the help of an independent valuer has estimated fair value at each reporting period based on available historical annual reports and other information in the public domain. (Refer Note 38.1)

Income taxes : Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. (Refer Note 35)

(b) Current versus non-current classification

Assets and liabilities are classified as Current or Non-Current as per the provisions of the Schedule III notified under the Companies Act and the Company's normal operating cycle.

An asset is treated as current when it is:

- (i) Expected to be realised or intended to be sold or consumed in normal operating cycle;
- (ii) Held primarily for the purpose of trading;
- (iii) Expected to be realised within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Based on the nature of business and its activities, the Company has ascertained its operating cycle as twelve months for the purpose of Current & Non-Current classification of assets and liabilities.

(c) Revenue Recognition

Sale of Goods:

Revenue from the sale of goods is only recognized – net of Goods & Service Tax, trade discounts and rebates – if the following conditions are met:

- The control of the goods have been transferred to the buyer.
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from Services is recognised in the accounting period in which the services are rendered.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

Interest Income:

Interest income from Financial Assets is recognised when it is probable that the economic benefits will flow to the company and the amount of income is measured reliably. Interest income is accrued on time basis, by reference to the principle outstanding and using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Eligible export incentives are recognised in the year in which the conditions precedent is met and there is no significant uncertainty about the collectability.

Revenue in respect of other income is recognised to the extent that the Company is reasonably certain of its ultimate realisation.

(d) Leasing

As a Lessee

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The ROU are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the incremental borrowing rates.

As a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

(e) Foreign Currency Transactions

In preparing the standalone financial statements of the Company, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Standalone Statement of Profit and Loss in the period in which they arise.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Standalone Statement of Profit and Loss, within finance costs.

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts and option contracts.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Standalone Statement of Profit and Loss immediately.

(f) Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are recognised in the Standalone Statement of Profit and Loss in the period in which they are incurred.

(g) Government Grants

- (i) Grants from the Government are not recognised until there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.
- (ii) Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited in the Standalone Statement of Profit and Loss in proportion to fulfilment of associated export obligations and presented within other income.
- (iii) Government grants relating to income are recognised in the Standalone Statement of Profit and Loss on a Systematic basis over the period necessary to match them with the costs that they are intended to compensate or when the performance obligations are met.

(h) Employee Benefits

(i) Retirement Benefit Costs and Termination Benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit plans in respect of an approved gratuity plan, the cost of providing benefits is determined using projected unit credit method, with actuarial valuations being carried out at the end of each reporting period.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income is reflected in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Standalone Statement of Profit and Loss.

Past service cost is recognised in Standalone Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and curtailments and settlements);
- net interest expense or income; and
- remeasurement

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

The first two components of defined benefit costs are recognised in the Standalone Statement of Profit and Loss in the line item 'Employee benefits expense'. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

(ii) Short-Term and Other Long-Term Employee Benefits

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the Present value of the estimated future cash outflows expected to be made in respect of services provided by employees up to the reporting date.

(iii) Compensated Absence and Earned Leaves

The Company's current policy permits eligible employees to accumulate compensated absences up to a prescribed limit and receive cash in lieu thereof in accordance with the terms of the policy. The Company measures the expected cost of accumulating compensated absences as the additional amount that the Company expects to pay as a result of unused entitlement that has accumulated as at the reporting date. The expected cost of these benefits is calculated using the projected unit credit method by qualified actuary every year. Actuarial gains and losses arising from experience adjustment and changes in actuarial assumptions are recognised in the Standalone Statement of Profit and Loss in the period in which they arise.

(i) Income Taxes

The income tax expense represents the sum of the tax currently payable and deferred tax.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. Current and deferred tax is recognised in the Standalone Statement of Profit and Loss, except to the extent that it relates to items recognised in Other Comprehensive Income or directly in equity. In this case, the tax is also recognised in Other Comprehensive Income or directly in equity, respectively.

Deferred tax is recognised on temporary differences between the carrying amount of assets and liabilities in the standalone financial statements and the corresponding tax bases used in the computation of taxable profits.

However, deferred tax liabilities are not recognised if they arise from the initial recognition of Goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit/(tax loss).

Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the Balance Sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

(j) Property, Plant and Equipment

Property, plant and equipment held for use in the production or supply of goods or services are stated at cost less accumulated depreciation and accumulated impairment losses if any.

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the Standalone Statement of Profit and Loss during the period in which they are incurred.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they are held for use in the production or supply of goods or services and are expected to be used during more than one period.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital Work-in-Progress'.

Depreciation Methods, Estimated Useful Lives and Residual Value:

Depreciation on all tangible assets is provided at the rates and in the manner prescribed by Schedule II to the Companies Act, 2013 and certain components of plant & equipment such as Reactors, Centrifuge, Cooling towers, Air Compressor etc. which are depreciated over its useful life as technically assessed by Independent/ Internal Technical Personnel after taking into consideration past experience of the company, chemical process & chemical industry norms.

Asset Category	Estimated Useful Life
Building	30 years
Plant & Equipment	3 to 40 years
Furniture & Fixture	10 years
Vehicle	8 years
Office Equipment	5 years
Road	5 years

Freehold land is stated at historical cost and is not depreciated.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Standalone Statement of Profit and Loss.

In respect of depreciable assets for which Impairment Loss is recognised, depreciation/amortisation is charged on the revised carrying amount over the remaining useful life of the assets computed on the basis of the life prescribed in schedule II to the Companies Act, 2013.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Assets held for disposal are classified as Current Assets at lower of its carrying amount and fair value less costs to sell, difference being recognised in the Standalone Statement of Profit and Loss.

(k) Intangible Assets

Intangible assets are stated at their original cost of acquisition, less accumulated amortisation and impairment losses, if any. An Intangible Asset is recognised, where it is probable that the future economic benefits attributable to the Asset will flow to the enterprise and where its cost can be reliably measured.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

The cost of intangible assets is amortised over the estimated useful life, in any case, not exceeding ten years, on a straight-line basis. A detail of estimated useful life is given below:

Asset Category	Estimated Useful Life
Computer Software and related implementation costs	6 years
Rights to use facilities	5 years
Technical Know How	10 years

(l) Impairment of Tangible and Intangible Assets

The carrying amount of cash generating units/assets is reviewed at the Balance Sheet date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount is estimated as the fair value less cost of disposal or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset. Impairment loss, if any, is recognised whenever carrying amount exceeds the recoverable amount. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

(m) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, demand deposits with bank and other short-term deposits (3 months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

(n) Inventories

Raw materials and components, stores and spares are valued at cost determined on period-moving weighted average basis and are net of Cenvat, VAT & GST. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition. Due allowances are made for slow moving and obsolete inventories based on estimates made by the Company. Items such as spare parts, stand-by equipment and servicing equipment which is not plant and equipment gets classified as inventory.

Finished Goods and Work-in-progress are valued at cost of purchase of raw materials and conversion thereof, including the cost incurred in the normal course of business in bringing the inventories up to the present condition or at the net realisable value, whichever is lower. The inventories of joint products are valued by allocating the costs to the joint products by 'Relative Sales Value' method. By-products are valued at net realisable value.

(o) Financial Instruments

Financial Assets and Financial Liabilities are recognised when the company becomes a party to the contractual provisions of the instruments.

Financial Assets and Financial Liabilities are initially measured at Fair Value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Standalone Statement of Profit and Loss.

Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification of Financial Assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition)

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition)

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in Standalone Statement of Profit and Loss and is included in the 'Other Income' line item.

(iii) Investments in Equity Instruments

On initial recognition, the company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'.

The cumulative gain or loss is not reclassified to Profit or Loss on disposal of the investments.

Investments in subsidiary companies are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiary companies the difference between net disposal proceeds and the carrying amounts are recognised in the Standalone Statement of Profit and Loss.

Dividends on these investments in equity instruments are recognised in Standalone Statement of Profit and Loss when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent recovery of a part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in Standalone Statement of Profit and Loss are included in the 'Other income' line item.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

(iv) Financial Assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in Standalone Statement of Profit and Loss. The net gain or loss recognised in Standalone Statement of Profit and Loss incorporates any dividend or interest earned on the financial asset and is included in the Other income or Other Expenses line item. Dividend on financial assets at FVTPL is recognised when the company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

(v) Impairment of Financial Assets

The Company recognises a loss allowance for Expected Credit Losses (ECL) on investments in debt instruments that are measured at amortised cost or at FVTOCI, trade receivables and contract assets, financial guarantee contracts and certain other financial assets measured at amortised cost. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

(vi) Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Standalone Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Standalone Statement of Profit and Loss on disposal of that financial asset.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

On derecognition of a financial asset other than in its entirety, the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in Standalone Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Standalone Statement of Profit and Loss on disposal of that financial asset.

A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part it continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

(vii) Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in Standalone Statement of Profit and Loss.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.
- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange difference on amortised cost are recognised in Standalone Statement of Profit and Loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

(p) Financial Liabilities and equity instruments

(i) Classification as Debt and Equity

Debt and Equity instruments issued by the company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(ii) Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in Standalone Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

(iii) Financial Liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

a) Financial Liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or it is designated as at FVTPL.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in Standalone Statement of Profit and Loss. The net gain or loss recognised in Standalone Statement of Profit and Loss incorporates any interest paid on the financial liability and is included in the 'Other income' or 'Other Expenses' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in Standalone Statement of Profit and Loss, in which case these effects of changes in credit risk are recognised in Standalone Statement of Profit and Loss. The remaining amount of change in the fair value of liability is always recognised in Standalone Statement of Profit and Loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to Standalone Statement of Profit and Loss.

b) Financial Liabilities subsequently measured at Amortised Cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amount of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of cost of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

c) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in 'Other income' or 'Other expenses'.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses.

d) Derecognition of financial liabilities

The Company derecognises financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability and the consideration paid and payable is recognised in Standalone Statement of Profit and Loss.

(q) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(r) Provisions, Contingent Assets and Contingent Liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each year end and reflect the best current estimate. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Provisions are measured at the present value of best estimate of the Management of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised but disclosed in the standalone financial statements when an inflow of economic benefits is probable.

(s) Research and Development Expenditure

Research and Development expenditure is charged to revenue under the natural heads of account in the year in which it is incurred. Research and Development expenditure on property, plant and equipment is treated in the same way as expenditure on other property, plant and equipment.

(t) Earnings Per Share

Basic Earnings per share (EPS) is calculated by dividing the net profit or loss for the period attributable to Equity Shareholders by the weighted average number of Equity shares outstanding during the period. Diluted Earnings per Equity Share are computed by dividing net income by the weighted average number of Equity Shares adjusted for the effects of all dilutive potential Equity Shares. Earnings considered in ascertaining the EPS is the net profit for the period after attributable tax thereto for the period.

(u) Segment Reporting - Basis of Information

In accordance with Ind AS 108 -Operating Segments, the Company has disclosed the segment information at consolidated level and accordingly no separate disclosure on segment information is given at standalone financial results level.

36. EMPLOYEE BENEFIT OBLIGATIONS

A. Gratuity

The Company has covered its Gratuity Liability by a Group Gratuity Policy named 'Employee Group Gratuity Assurance Scheme' issued by Life Insurance Corporation of India. Under this plan, an employee at retirement is eligible for benefit, which will be equal to 15 days salary for each completed year of service. Thus, it is a defined benefit plan and the aforesaid insurance policy is the Plan Asset.

Risk exposure

The Company is exposed to a number of risks, the most significant of which are detailed below:

Interest rate risk: A fall in the discount rate which is linked to the Government Securities Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

(vii) Actuarial Assumptions

	As at March 31, 2024	As at March 31, 2023
Discount Rate	7.23%	7.52%
Expected Return on Plan Assets	7.23%	7.52%
Salary Growth Rate	8.00%	8.00%
Attrition Rate	2.00%	2.00%

(viii) Sensitivity Analysis

Significant Actuarial Assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and employee turnover. The sensitivity analysis below, have been determined based on reasonably possible changes of the assumptions occurring at end of the reporting period, while holding all other assumptions constant. The result of Sensitivity analysis is given below:

	Change in assumptions		Impact on defined benefit obligation			
	March 31, 2024	March 31, 2023	Increase		Decrease	
			As at March 31, 2024	As at March 31, 2023	As at March 31, 2024	As at March 31, 2023
	%	%	₹ in Crores	₹ in Crores	₹ in Crores	₹ in Crores
Discount Rate	1.00%	1.00%	(3.15)	(2.79)	3.66	3.23
Salary Growth Rate	1.00%	1.00%	3.56	3.17	(3.14)	(2.80)
Attrition Rate	1.00%	1.00%	(0.25)	(0.16)	0.27	0.17

In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the defined benefit liability as recognised in the Balance Sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change as compared to the prior year.

Comparative Market Multiples method has been used for estimating the fair value of such Investment. The fair valuation estimates are based on historical annual accounts/annual reports and based on information collected from public domain. Information pertaining to future expected performance of investee companies including projections about their profitability, balance sheet status and cash flow expectations are not available.

38.3. Financial Risk Management objectives

The Company has adequate internal processes to assess, monitor and manage financial risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company seeks to minimise the effects of these risks by using financial instruments such as foreign currency forward contracts and option contracts to hedge risk exposures and appropriate risk management policies as detailed below. The use of these financial instruments is governed by the Company's policies, which outlines principles on foreign exchange risk, interest rate risk, credit risk and deployment of surplus funds.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

Item	Primarily effected by	Risk management policies	Reference
Market risk - currency risk	Foreign Currency balances and exposure towards trade payables, exports, short-term and long-term borrowings	The Company hedges its foreign currency risk using foreign exchange forward contracts and option contracts.	Note 38.4.1

Credit risk	Ability of customers or counterparties to financial instruments to meet contractual obligations.	Credit approval and monitoring practices; counterparty credit policies and limits; arrangements with financial institutions	Note 38.5
Liquidity risk	Fluctuations in cash flows	Preparing and monitoring forecasts of cash flows; cash management policies; multiple-year credit and banking facilities	Note 38.5

38.4 Market Risk

The Company's financial instruments are exposed to market rate changes. The Company is exposed to the following significant market risks

- Foreign currency risk
- Interest rate risk

Market risk exposures are measured using sensitivity analysis. There has been no change to the Company's exposure to market risks or the manner in which these risks are being managed and measured.

38.4.1 Foreign Currency Risk management

The Company is exposed to foreign exchange risk on account of following

1. Imports of raw materials and services.
2. Exports of finished goods.

The Company has a forex policy in place whose objective is to mitigate foreign exchange risk by deploying the appropriate hedging strategies through combination of various hedging instruments such as foreign currency forward contracts, option contracts and has a dedicated forex desk to monitor the currency movement and respond swiftly to market situations. The Company follows netting principle for managing the foreign exchange exposure.

(a) The carrying amounts of the Company's foreign currency denominated monetary assets and liabilities based on gross exposure at the end of the reporting period is as under:

Currency	Liabilities		Assets

(d) Foreign currency sensitivity analysis

The Company is mainly exposed to fluctuations in US Dollar. The following table details the Company's sensitivity to a ₹ 1 increase and decrease against the US Dollar. ₹ 1 is the sensitivity used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only net outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a ₹ 1 change in foreign currency rates. A positive number below indicates an increase in profit where the Rupee strengthens by ₹ 1 against the US Dollar. For a ₹ 1 weakening against the US Dollar, there would be a comparable impact on the profit before tax.

Currency USD Impact on profit or loss	₹ in Crores	
	As at March 31, 2024	As at March 31, 2023
Impact of ₹ 1 strengthening against US Dollar	(0.97)	(0.44)
Impact of ₹ 1 weakening against US Dollar	(0.31)	1.97

38.4.2 Interest Rate Risk Management

The Company draws working capital demand loans, avails cash credit, foreign currency borrowings etc. for meeting its funding requirements. Interest rates on these borrowings are exposed to change in respective benchmark rates. The Company manages the interest rate risk by maintaining appropriate mix/portfolio of the borrowings.

Notes

forming part of the Standalone Financial Statements as at and for the year ended March 31, 2024

38.5 Credit Risk Management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to the customer credit risk management. The Company uses financial information and past experience to evaluate credit quality of majority of its customers and individual credit limits are defined in accordance with this assessment through third party experts. Outstanding receivables and the credit worthiness of its counterparties are periodically monitored and taken upon case to case basis.

The credit risk on cash and bank balances, derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The table below provides ageing of trade receivables as at March 31, 2024

Independent Auditor’s Report

To The Members of Deepak Nitrite Limited

Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying consolidated financial statements of Deepak Nitrite Limited (“the Parent”) and its subsidiaries, (the Parent and its subsidiaries together referred to as “the Group”), which comprise the Consolidated Balance Sheet as at March 31, 2024 and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, (“Ind AS”) and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024 and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (“SAs”) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and in forming our opinion thereon and we do not provide a separate opinion on these matters. we have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor’s Response
1	<p>Revenue Recognition</p> <p>Revenue recognition is significant audit risk across the Group. Risk exists that revenue is recognized without substantial transfer of control and is not in accordance with Ind AS-115 “Revenue from Contracts with Customers”.</p>	<p>Our audit consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:</p> <ul style="list-style-type: none"> We evaluated the design and performed walkthrough of internal controls relating to revenue recognition. We selected sample of Sales transactions and tested the operating effectiveness of the internal control relating to revenue recognition. We carried out a combination of procedures involving enquiry and observation, reperformance and/or inspection. We have tested sample of Sale transactions to their respective customer contracts, underlying invoices and related documents. We have performed cut-off procedures for revenue transactions at year-end in order to conclude on whether they were recognized in accordance with Ind-AS 115.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report and annexure thereto, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries, is traced from their financial statements audited by the other auditors.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

We did not audit the financial statements of three subsidiaries, whose financial statements reflect total assets of ₹ 104.51 Crores as at March 31, 2024, total revenues of ₹ 0.21 Crores and net cash inflows amounting to ₹ 6.48 Crores for the year ended on that date, as considered in the consolidated financial statements.  - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary companies incorporated in India.
 - iv) (a) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors respectively that, to the best of their knowledge and belief, other than as disclosed in the note 47 (v) (a) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent or any of such subsidiaries to

or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent or any of such subsidiaries (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, other than as disclosed in the note 47(vi)(a) to the consolidated financial statements, no funds have been received by the Parent or any of such subsidiaries from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Parent or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor’s notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v) The final dividend proposed in the previous year, declared and paid by the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable, during the year is in accordance with section 123 of the Act, as applicable.

As stated in note 49 to the consolidated financial statements, the Board of Directors of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable, have proposed final dividend for the year which is subject to the approval of the members of the Parent and such subsidiaries at the ensuing respective Annual General Meetings. Such dividend proposed is in accordance with section 123 of the Act, as applicable.

- vi) Based on our examination which included test checks and based on the other auditor’s reports of its subsidiary companies incorporated in India whose financial statements have been audited under the Act, except for instance mentioned below, the Parent and two of its subsidiaries incorporated in India have used accounting softwares for maintaining their respective books of account for the year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software(s). Further, during the course of audit, we and respective other auditors, whose reports have been furnished to us by the Management of the Parent, have not come across any instance of the audit trail feature being tampered with.

In respect one subsidiary, as reported by the other auditor,

- i) The Company has used an accounting software(s) for maintaining its books of account for the period April 1, 2023 to October 31, 2023 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the said period for all relevant transactions recorded in the software(s). Further, during the course of our audit, we did not come across any instance of the audit trail feature being tampered with, in respect of accounting software for the period for which the audit trail feature was operating.
- ii) The Company has migrated to another accounting software on November 1, 2023 which has a feature of recording audit trail (edit log) facility and the same was operational for all relevant transactions recorded in the software, except that, audit trail feature is not enabled for privileged access users as described in note 47 (viii) to the consolidated financial statements.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us and based on the CARO reports issued by us and the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the consolidated financial statements.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 7(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as at and for the year ended March 31, 2024, we have audited the internal financial controls with reference to consolidated financial statements of Deepak Nitrite Limited (hereinafter referred to as “Parent”) and its subsidiary companies, which are companies incorporated in India, as of that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Parent, its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal control with reference to consolidated financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, which are companies incorporated in India, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary companies, which are companies incorporated in India.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

A company’s internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion to the best of our information and according to the explanations given to us, the Parent, its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2024, based on the criteria for internal financial control with reference to consolidated financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

GROUP OVERVIEW

Deepak Nitrite Limited ('DNL' or 'the Company') is a prominent chemical manufacturing public limited company incorporated and domiciled in India. Its registered office is located at 2nd Floor, Fermenter House, Alembic City, Alembic Avenue Road, Vadodara – 390 003, Gujarat, India and its manufacturing facilities are located in the states of Gujarat, Maharashtra and Telangana.

The Company with its five subsidiaries namely Deepak Phenolics Limited, Deepak Nitrite Corporation Inc., Deepak Chem Tech Limited, Deepak Oman Industries LLC (SFZ) (with effect from March 20, 2024) and Deepak Project Management Company Limited (incorporated on December 02, 2023) are referred to as the Group here under.

The Group manufactures Advanced Intermediates and Phenolics.

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended March 31, 2023, except for amendments to the existing Indian Accounting Standards (Ind AS). The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective. The Company applies, for the accounting periods beginning on or after April 1, 2023, that do not have material impact on the financial statements of the Company.

Ind AS 1 - Presentation of Financial Statements:

This amendment requires the entities to disclose their material accounting policies rather than their material accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 01, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the Consolidated Financial Statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors:

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 01, 2023. The Company has evaluated the amendment and there is no material impact on its Consolidated Financial Statements.

Ind AS 12 - Income taxes:

This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 01, 2023. The Company has evaluated the amendment and there is no material impact on its Consolidated Financial Statements.

The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

1. Material Accounting Policies

This Note provides a list of the material Accounting Policies adopted by the Group in the preparation of these Consolidated Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated. The Financial Statements are for the Group consisting of the Company and its subsidiary companies.

(a) I. Basis of preparation

(i) Compliance with Ind AS

The Consolidated Financial Statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The Consolidated Financial Statements have been prepared on a historical cost basis except for the following assets and liabilities which have been measured at fair value or revalued amount:

- (a) Certain financial assets and financial liabilities measured at fair value
- (b) Derivative Financial instruments
- (c) Defined benefit plan – plan assets measured at fair value

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if the market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value measurement and/or disclosure purposes in the financial statements is determined on such a basis except for leasing transactions that are within the scope of Ind AS 116 and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(ii) Functional and Presentation Currency

Items included in the Consolidated Financial Statements of the Group are measured using the currency of the primary economic environment in which the Group operates ('functional currency'). The Consolidated Financial Statements of the Group are presented in Indian currency (₹), which is also the functional and presentation currency of the Group.

(iii) Use of estimates

Preparation of the Consolidated Financial Statements requires use of accounting estimates which, by definition, will be equal to the actual results. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Useful lives and residual value of property, plant and equipment : The Group reviews the useful life and residual value of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. (Refer Note 2)

Allowance for expected credit losses: The expected credit allowance is based on the ageing of the days receivables which are past due and the rates derived based on past history of defaults in the provision matrix. (Refer Note 41.5)

Fair value of investments: The Group has invested in the equity instruments of various companies. However, the percentage of shareholding of the Group in such investee companies is very low and hence, it has not been provided with future projections including projected statement of profit and loss by those investee companies. Hence, the valuation exercise carried out by the Group with the help of an independent valuer has estimated fair value at each reporting period based on available historical annual reports and other information in the public domain. (Refer Note 41.1)

Income taxes : Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. (Refer Note 38)

(a) II. Principles of Consolidation :

The Consolidated Financial Statements (CFS) comprise the Financial Statements of Deepak Nitrite Limited and its subsidiaries as at March 31, 2024. The consolidated financial statements of the Group have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013. The basis for preparing the consolidated financial statements is given below:

Subsidiary companies are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiary companies are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group combines the Financial Statements of the parent and its subsidiary companies line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances, cashflows and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting Policies of subsidiary companies are consistent with the policies adopted by the Group.

In case of foreign subsidiary revenue items are consolidated at the average rate that approximates the actual rate at the date of transaction. All monetary items are translated into Consolidated financial statements at exchange rate in effect at the balance sheet date. Any exchange difference arising on consolidation is recognised in the Consolidated Statement of Profit and Loss.

Profit or Loss and each component of Other Comprehensive Income are attributed to the owners of the Group and to the non-controlling interests. Total Comprehensive Income of subsidiaries is attributed to the owners of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Name of Entity	Ownership in % either directly or through subsidiaries		Nature	Country of Incorporation
	2023-24	2022-23		
Deepak Phenolics Limited	100%	100%	Subsidiary	India
Deepak Chem Tech Limited	100%	100%	Subsidiary	India
Deepak Nitrite Corporation, Inc.	100%	100%	Subsidiary	United States of America
Deepak Oman Industries LLC (SFZ)	51%	0%	Subsidiary	Sultanate of Oman
Deepak Project Management Company Limited	100%	100%	Subsidiary	India

Changes in ownership interest

When the Group ceases to consolidate or equity account for an investment because of a loss of significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purpose of subsequently accounting for the retained interest as an associate company or financial asset.

(b) Current versus non-current classification

Assets and liabilities are classified as Current or Non-Current as per the provisions of the Schedule III notified under the Companies Act and the Group's normal operating cycle.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

An asset is treated as current when it is:

- (i) Expected to be realised or intended to be sold or consumed in normal operating cycle;
- (ii) Held primarily for the purpose of trading;
- (iii) Expected to be realised within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Based on the nature of business and its activities, the Group has ascertained its operating cycle as twelve months for the purpose of Current & Non-Current classification of assets and liabilities.

(c) Revenue Recognition

Sale of Goods:

Revenue from the sale of goods is only recognized – net of Goods & Service Tax, trade discounts and rebates – if the following conditions are met:

- The control of the goods have been transferred to the buyer.
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the Group.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from Services is recognised in the accounting period in which the services are rendered.

Interest Income:

Interest income from Financial Assets is recognised when it is probable that the economic benefits will flow to the Group and the amount of income is measured reliably. Interest income is accrued on time basis, by reference to the principle outstanding and using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Eligible export incentives are recognised in the year in which the conditions precedent is met and there is no significant uncertainty about the collectability.

Revenue in respect of other income is recognised to the extent that the Group is reasonably certain of its ultimate realisation.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

(d) Leasing

As a Lessee

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The ROU are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the incremental borrowing rates.

As a Lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

(e) Foreign Currency Transactions

In preparing the Consolidated Financial Statements of the Group, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Consolidated Statement of profit and loss in the period in which they arise.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Consolidated Statement of Profit and Loss, within finance costs.

The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts and option contracts.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Consolidated Statement of profit and loss immediately.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

(f) Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are recognised in the Consolidated Statement of Profit and Loss in the period in which they are incurred.

(g) Government Grants

- (i) Grants from the Government are not recognised until there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.
- (ii) Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited in the Consolidated Statement of Profit and Loss in proportion to fulfilment of associated export obligations and presented within other income.
- (iii) Government grants relating to income are recognised in the Consolidated Statement of Profit and Loss on a Systematic basis over the period necessary to match them with the costs that they are intended to compensate or when the performance obligations are met.

(h) Employee Benefits

(i) Retirement Benefit Costs and Termination Benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit plans in respect of an approved gratuity plan, the cost of providing benefits is determined using projected unit credit method, with actuarial valuations being carried out at the end of each reporting period.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income is reflected in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Consolidated Statement of Profit and Loss.

Past service cost is recognised in Consolidated Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and curtailments and settlements);
- net interest expense or income; and
- remeasurement

The first two components of defined benefit costs are recognised in the Consolidated Statement of Profit and Loss in the line item 'Employee benefits expense'. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

(ii) Short-Term and Other Long-Term Employee Benefits

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

Liabilities recognised in respect of other long-term employee benefits are measured at the Present value of the estimated future cash outflows expected to be made in respect of services provided by employees up to the reporting date.

(iii) **Compensated Absence and Earned Leaves**

The Group's current policy permits eligible employees to accumulate compensated absences up to a prescribed limit and receive cash in lieu thereof in accordance with the terms of the policy. The Group measures the expected cost of accumulating compensated absences as the additional amount that the Group expects to pay as a result of unused entitlement that has accumulated as at the reporting date. The expected cost of these benefits is calculated using the projected unit credit method by qualified actuary every year. Actuarial gains and losses arising from experience adjustment and changes in actuarial assumptions are recognised in the Consolidated Statement of Profit and Loss in the period in which they arise.

(i) **Income Taxes**

The Company and its Subsidiary, Deepak Phenolics Limited, has elected to exercise option available under section 115BAA of the Income Tax Act, 1961.

Deepak Chem Tech Limited, wholly owned subsidiary, shall be eligible to claim benefit of lower rate of tax under section 115BAB of the Income Tax Act, 1961.

The income tax expense represents the sum of the tax currently payable and deferred tax.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. Current and deferred tax is recognised in the Consolidated Statement of Profit and Loss, except to the extent that it relates to items recognised in Other Comprehensive Income or directly in equity. In this case, the tax is also recognised in Other Comprehensive Income or directly in equity, respectively.

Deferred tax is recognised on temporary differences between the carrying amount of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profits.

However, deferred tax liabilities are not recognised if they arise from the initial recognition of Goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit/(tax loss).

Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the Balance Sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

(j) Property, Plant and Equipment

Property, plant and equipment held for use in the production or supply of goods or services are stated at cost less accumulated depreciation and accumulated impairment losses if any.

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the Consolidated Statement of Profit and Loss during the period in which they are incurred.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they are held for use in the production or supply of goods or services and are expected to be used during more than one period.

Property, plant and equipment which are not ready for intended use as on the date of Consolidated Balance Sheet are disclosed as 'Capital Work-in-Progress'.

Depreciation Methods, Estimated Useful Lives and Residual Value:

Depreciation on all tangible assets is provided at the rates and in the manner prescribed by Schedule II to the Companies Act, 2013 and certain components of plant & equipment such as Reactors, Centrifuge, Cooling towers, Air Compressor etc. which are depreciated over its useful life as technically assessed by Independent/ Internal Technical Personnel after taking into consideration past experience of the group, chemical process & chemical industry norms.

Asset Category	Estimated Useful Life
Building	30 years
Plant & Equipment	3 to 40 years
Furniture & Fixture	5 to 10 years
Vehicle	8 years
Office Equipment	2 to 5 years
Road	2 to 10 years

Freehold land is stated at historical cost and is not depreciated.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Profit and Loss.

In respect of depreciable assets for which Impairment Loss is recognised, depreciation/amortisation is charged on the revised carrying amount over the remaining useful life of the assets computed on the basis of the life prescribed in schedule II to the Companies Act, 2013.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Assets held for disposal are classified as Current Assets at lower of its carrying amount and fair value less costs to sell, difference being recognised in the Consolidated Statement of Profit and Loss.

(k) Intangible Assets

Intangible assets are stated at their original cost of acquisition, less accumulated amortisation and impairment losses, if any. An Intangible Asset is recognised, where it is probable that the future economic benefits attributable to the Asset will flow to the enterprise and where its cost can be reliably measured.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

The cost of intangible assets is amortised over the estimated useful life, in any case, not exceeding ten years, on a straight-line basis. A detail of estimated useful life is given below:

Asset Category	Estimated Useful Life
Computer Software and related implementation costs	2 to 6 years
Rights to use facilities	5 years
Technical Know How	10 years

(l) Impairment of Tangible and Intangible Assets

The carrying amount of cash generating units/assets is reviewed at the Consolidated Balance Sheet date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount is estimated as the fair value less cost of disposal or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset. Impairment loss, if any, is recognised whenever carrying amount exceeds the recoverable amount. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

(m) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, demand deposits with bank and other short-term deposits (3 months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

(n) Inventories

Raw materials and components, stores and spares are valued at cost determined on period-moving weighted average basis and are net of Cenvat, VAT & GST. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition. Due allowances are made for slow moving and obsolete inventories based on estimates made by the Group. Items such as spare parts, stand-by equipment and servicing equipment which is not plant and equipment gets classified as inventory.

Finished Goods and Work-in-progress are valued at cost of purchase of raw materials and conversion thereof, including the cost incurred in the normal course of business in bringing the inventories up to the present condition or at the net realisable value, whichever is lower. The inventories of joint products are valued by allocating the costs to the joint products by 'Relative Sales Value' method. By-products are valued at net realisable value.

(o) Financial Instruments

Financial Assets and Financial Liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial Assets and Financial Liabilities are initially measured at Fair Value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Consolidated Statement of Profit and Loss.

Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification of Financial Assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition)

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income(except for debt instruments that are designated as at fair value through profit or loss on initial recognition)

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in Consolidated Statement of Profit and Loss and is included in the “Other Income” line item.

(iii) Investments in Equity Instruments

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the ‘Reserve for equity instruments through other comprehensive income’.

The cumulative gain or loss is not reclassified to Consolidated Statement of Profit and Loss on disposal of the investments.

Dividends on these investments in equity instruments are recognised in Consolidated Statement of Profit and Loss when the Group’s right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery a part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in Consolidated Statement of Profit and Loss are included in the ‘Other income’ line item.

(iv) Financial Assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in Consolidated Statement of Profit and Loss. The net gain or loss recognised in Consolidated Statement of Profit and Loss incorporates any dividend or interest earned on the financial asset and is included in the Other income or Other expenses line item. Dividend on financial assets at FVTPL is recognised when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

(v) Impairment of Financial Assets

The Group recognises a loss allowance for Expected Credit Losses (ECL) on investments in debt instruments that are measured at amortised cost or at FVTOCI, trade receivables and contract assets, financial guarantee contracts and certain other financial assets measured at amortised cost. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Group has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

(vi) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Consolidated Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Consolidated Statement of Profit and Loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in Consolidated Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Consolidated Statement of Profit and Loss on disposal of that financial asset.

A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part it continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

(vii) Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in Consolidated Statement of Profit and Loss.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.
- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange difference on amortised cost are recognised in Consolidated Statement of Profit and Loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

(p) Financial Liabilities and equity instruments

(i) Classification as Debt and Equity

Debt and Equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(ii) Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in Consolidated Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

(iii) Financial Liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Group and commitments issued by the Group to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

a) Financial Liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or it is designated as at FVTPL.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in Consolidated Statement of Profit and Loss. The net gain or loss recognised in Consolidated Statement of Profit and Loss incorporates any interest paid on the financial liability and is included in the 'Other income' or 'Other expenses' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in Consolidated Statement of Profit and Loss, in which case these effects of changes in credit risk are recognised in Consolidated Statement of Profit and Loss. The remaining amount of change in the fair value of liability is always recognised in Consolidated Statement of Profit and Loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to Consolidated Statement of Profit and Loss.

b) Financial Liabilities subsequently measured at Amortised Cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amount of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

c) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in 'Other income' or 'Other expenses'.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses.

d) Derecognition of financial liabilities

The Group derecognises financial liabilities when and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability and the consideration paid and payable is recognised in Consolidated Statement of Profit and Loss.

(q) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Consolidated Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(r) Provisions, Contingent Assets and Contingent Liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each year end and reflect the best current estimate. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Provisions are measured at the present value of best estimate of the Management of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

(s) Research and Development Expenditure

Research and Development expenditure is charged to revenue under the natural heads of account in the year in which it is incurred. Research and Development expenditure on property, plant and equipment is treated in the same way as expenditure on other property, plant and equipment.

(t) Earnings Per Share

Basic Earnings per share (EPS) is calculated by dividing the net profit or loss for the period attributable to Equity Shareholders by the weighted average number of Equity shares outstanding during the period. Diluted Earnings per Equity Share are computed by dividing net income by the weighted average number of Equity Shares adjusted for the effects of all dilutive

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

potential Equity Shares. Earnings considered in ascertaining the EPS is the net profit for the period after attributable tax thereto for the period.

(u) Segment Reporting - Basis of Information

The Group has determined 2 (two) reporting Segments, based on the information reviewed by Chief Operating Decision Maker (CODM) as primary segments viz. (i) Advanced Intermediates and (ii) Phenolics.

Inter segment transfer prices are normally negotiated amongst the segments with reference to the costs, market prices and business risks, within an overall optimisation objective of the Group.

Revenue and expenses have been accounted on the basis of their relationship to the operating activities of the segment. Revenue and expenses, which relate to the enterprise as a whole and are not allocable to segments on reasonable basis, have been included under "Other unallocable". Assets and liabilities which relate to the enterprise as a whole but are not allocable to segments on a reasonable basis, have been included under "Unallocable Assets/Liabilities".

Secondary segment have been identified with reference to geographical location of external customers. Composition of secondary segment is as follows:

- (i) India and
- (ii) Outside India.

39. EMPLOYEE BENEFIT OBLIGATIONS

A. Gratuity

The Group has covered its Gratuity Liability by a Group Gratuity Policy named 'Employee Group Gratuity Assurance Scheme' issued by Life Insurance Corporation of India except Deepak Chem Tech Limited, a wholly owned Subsidiary, which has unfunded gratuity plan. Under these plans, an employee at retirement is eligible for benefit, which will be equal to 15 days salary for each completed year of service. Thus, it is a defined benefit plan and the aforesaid insurance policy is the Plan Asset.

Risk exposure

The Group is exposed to a number of risks, the most significant of which are detailed below:

Interest rate risk: A fall in the discount rate which is linked to the Government Securities Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities and other debt instruments.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

(vii) Actuarial Assumptions

	As at March 31, 2024	As at March 31, 2023
Discount Rate	7.23%	7.52%
Expected Return on Plan Assets	7.23%	7.52%
Salary Growth Rate	8.00%	8.00%
Attrition Rate	2.00%	2.00%

(viii) Sensitivity Analysis

Significant Actuarial Assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and employee turnover. The sensitivity analysis below, have been determined based on reasonably possible changes of the assumptions occurring at end of the reporting period, while holding all other assumptions constant. The result of Sensitivity analysis is given below:

	Change in assumptions		Impact on defined benefit obligation			
			Increase		Decrease	
	As at March 31, 2024	As at March 31, 2023	As at March 31, 2024	As at March 31, 2023	As at March 31, 2024	As at March 31, 2023
	%	%	₹ in Crores	₹ in Crores	₹ in Crores	₹ in Crores
Discount Rate	1.00%	1.00%	(3.84)	(3.24)	4.50	3.78
Salary Growth Rate	1.00%	1.00%	4.38	3.70	(3.82)	(3.24)
Attrition Rate	1.00%	1.00%	(0.34)	(0.20)	0.38	0.22

In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the defined benefit liability as recognised in the Balance Sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change as compared to the prior year.

41.2. Fair Value Hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair valuation estimates are based on historical annual accounts/annual reports and based on information collected from public domain. Information pertaining to future expected performance of investee companies including projections about their profitability, balance sheet status and cash flow expectations are not available.

41.3. Financial Risk Management objectives

The Group has adequate internal processes to assess, monitor and manage financial risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Group seeks to minimise the effects of these risks by using financial instruments such as foreign currency forward contracts and option contracts to hedge risk exposures and appropriate risk management policies as detailed below. The use of these financial instruments is governed by the Group's policies, which outlines principles on foreign exchange risk, interest rate risk, credit risk and deployment of surplus funds.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

Item	Primarily effected by	Risk management policies	Reference
Market risk - currency risk	Foreign Currency balances and exposure towards trade payables, exports, short-term and long-term borrowings	The Group hedges its foreign currency risk using foreign exchange forward contracts and option contracts after considering the natural hedge.	Note 41.4.1
Market risk - interest rate risk	Change in market interest rates	Maintaining a combination of fixed and floating rate debt; cash management policies	Note 41.4.2
Credit risk	Ability of customers or counterparties to financial instruments to meet contractual obligations.	Credit approval and monitoring practices; counterparty credit policies and limits; arrangements with financial institutions	Note 41.5
Liquidity risk	Fluctuations in cash flows	Preparing and monitoring forecasts of cash flows; cash management policies; multiple-year credit and banking facilities	Note 41.6

41.4 Market Risk

The Group's financial instruments are exposed to market rate changes. The Group is exposed to the following significant market risks:

- Foreign currency risk
- Interest rate risk

Market risk exposures are measured using sensitivity analysis. There has been no change to the Group's exposure to market risks or the manner in which these risks are being managed and measured.

41.4.1 Foreign Currency Risk management

The Group is exposed to foreign exchange risk on account of following:

1. Imports of raw materials and services.
2. Exports of finished goods.
3. Foreign currency Non Resident borrowings availed for meeting its funding requirements.

The Group has a forex policy in place whose objective is to mitigate foreign exchange risk by deploying the appropriate hedging strategies through combination of various hedging instruments such as foreign currency forward contracts and option contracts and has a dedicated forex desk to monitor the currency movement and respond swiftly to market situations. The Group follows netting principle for managing the foreign exchange exposure.

(a) The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities based on gross exposure at the end of the reporting period is as under:

Currency	Liabilities		Assets	
	As at March 31, 2024	As at March 31, 2023	As at March 31, 2024	As at March 31, 2023

₹ (Crores)	0.13	0.01	-	-

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

The foreign currency risk on above exposure is mitigated by derivative contracts. The outstanding contracts as at the Balance Sheet date are as follows:

(b) Foreign currency forward contracts and option contracts outstanding as at the Balance Sheet date:

	As at March 31, 2024		As at March 31, 2023

Forward Contracts (USD Crores)	0.04	2.21	0.88	-
Forward Contracts (CHF Crores)	0.02	-	-	-
Range Forward (USD Crores)	-	0.30	-	1.48

The forward contracts and option contracts have been entered into to hedge the foreign currency risk on trade receivables and trade payables.

(c) Net open exposures outstanding as at the Balance Sheet date:

Currency	Liabilities		Assets

(d) Foreign currency sensitivity analysis

The Group is mainly exposed to fluctuations in US Dollar. The following table details the Group's sensitivity to a ₹ 1 increase and decrease against the US Dollar. ₹ 1 is the sensitivity used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only net outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a ₹ 1 change in foreign currency rates. A positive number below indicates an increase in profit where the Rupee strengthens by ₹ against the US Dollar. For a ₹ 1 weakening against the US Dollar, there would be a comparable impact on the profit before tax.

Currency USD Impact on profit or loss	₹ in Crores	
	As at March 31, 2024	As at March 31, 2023
Impact of ₹ 1 strengthening against US Dollar	(1.16)	0.25
Impact of ₹ 1 weakening against US Dollar	(0.12)	1.28

41.4.2 Interest Rate Risk management

The Group draws working capital demand loans, avails cash credit, foreign currency borrowings etc. for meeting its funding requirements.

Interest rates on these borrowings are exposed to change in respective benchmark rates. The Group manages the interest rate risk by maintaining appropriate mix/portfolio of the borrowings.

Interest rate sensitivity analysis

The sensitivity analysis in para below has been determined for borrowings assuming the amount of borrowings outstanding at the end of the reporting period was outstanding for the whole year. A 25 basis points increase or decrease in case of rupee borrowings is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

Notes

forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2024

If interest rate had been 25 basis points higher/ lower in case of rupee borrowings and all other variables were held constant, the Group's profit for the year ended March 31, 2024 would decrease/ increase by ₹ Nil (Previous year ₹ 0.12 Crores).

41.5 Credit Risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to the customer credit risk management. The Group uses financial information and past experience to evaluate credit quality of majority of its customers and individual credit limits are defined in accordance with this assessment through third party experts. Outstanding receivables and the credit worthiness of its counterparties are periodically monitored and taken upon case to case basis.

The credit risk on cash and bank balances, derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

42. SEGMENT INFORMATION

The Chief Operating Decision Maker (CODM) evaluates the performance of the Group as two business segments and allocates resources based on value generated from these segments.

Accordingly, the operations of the Group are reported under two Business Segments as per Ind AS 108- Operating Segment:

- Advanced Intermediates
- Phenolics

The accounting policies of the reportable segments are same as the Group's accounting policies. Segment profit represents the profit before interest and tax earned by each segment without allocation of central administrative costs and other income. This is the measure reported to the CODM.

Transfer prices between operating segments are on arm's length basis in a manner similar to transactions with third parties.
